## Enter Avariz:

*Enter Avariz* Marc Ngui, 2002      Toronto Howard Akler, Sarah B. Hood, 2003 Toronto named by UNESCO as the world's most multicultural city attracts thousands of tourists annually to its fascinating neighbourhoods and thriving cultural scene. But in its 250 year history Toronto has also become a place of many intriguing secrets. Toronto: The Unknown City delves into the lesser known spaces and stories of the city that's no longer known as The Good, offering tantalizing tidbits of local lore, offbeat facts and surprising anecdotes. From sealed off public spaces to lost railways, tales of true crime to behind the scenes movie gossip, it's packed with revelations. There's also a guide to one of the world's most eclectic dining scenes, plus celebrity stories, sports snippets, a backstage tour of the theatre and music scenes, fabulous shopping tips and lots more of what you'd expect to find in an insider's look at the city the rest of Canada loves to hate. Little known facts about Toronto. There's an asteroid named Toronto, it's twelve miles wide and its orbit is between Jupiter and Mars. Toronto is the bike theft capital of North America. Now available in 36 countries and represented by the hottest pop stars. MAC Cosmetics was started in 1985 by two guys named Frank on Carlton Street in Toronto. Toronto is home to the World Rock Paper Scissors society, a group dedicated to non-violent dispute resolution. Women's bantam boxing champ Lisa Bad News Brown trains at the Cabbagetown gym. Toronto's Johnny Cameron, the Kinky Cobbler, is a dildo artisan. In Toronto during the First World War, a young Bill Falkner transformed himself into William Faulkner.      **The Dark Precursor** Paulo de Assis, Paolo Giudic, 2017-11-14 Deleuze's and Guattari's philosophy in the field of artistic research. Gilles Deleuze's intriguing concept of the dark precursor refers to intensive processes of energetic flows passing between fields of different potentials. Fleeting, used in *Difference and Repetition*, it remained underexplored in Deleuze's subsequent work. In this collection of essays, numerous contributors offer perspectives on Deleuze's concept of the dark precursor as it affects artistic research, providing a wide-ranging panorama on the intersection between music, art, philosophy and scholarship. The forty-eight chapters in this publication present a kaleidoscopic view of different fields of knowledge and artistic practices, exposing for the first time the diversity and richness of a world situated between artistic research and the philosophy of Gilles Deleuze and Félix Guattari. Within different understandings of artistic research, the authors—composers, architects, performers, philosophers, sculptors, film makers, painters, writers and activists—map practices and invent concepts contributing to a creative expansion of horizons, materials and methodologies.
