Hoyt, 2011-07-01. Accurately counting the right things can profoundly impact ministry effectiveness. Knowing the story in the stats can inform decisions and lead to the things that produce the results most pleasing to God. Gathering and studying the right numbers can help a church wisely invest its resources of time, effort, people, money, and facilities. Effectiveness by the Numbers will help ensure that your church is measuring the right things for the right reasons. Counting what counts enables a church to fulfill its mission, making mature followers of Jesus Christ. Jesus and his disciples counted. They knew how many he fed with the five loaves and fishes. When a crowd gathered, they often knew and recorded the number of men, women, and children present for the event. The early church counted. They knew that on the day of Pentecost, about 3,000 were added to their number. The book of Acts reports that many believed people were added, and many of the Corinthians who heard him believed and were baptized. If Jesus counted and the early church kept track of numbers, it is not unreasonable to expect churches today to use metrics to increase their effectiveness in doing God's work on earth. Chapter One: The Fear of Numbers. Chapter Two: If You Could Count Only One Thing. Chapter Three: How Many and How Often. Chapter Four: How Many Stick. Chapter Five: How Many Serve. Chapter Six: Who's New. Chapter Seven: Growing by Staying Small. Chapter Eight: What's More Important than Dollars. Chapter Nine: What Product Are You Producing Anyway. About the author: William R. Hoyt. [Exploring the Structure of Emptiness](#) Mathew Varghese, 2012-12-01 Nagarjuna is one of the finest philosophers who ever lived This second century Buddhist philosopher from south India is known for his criticism on speculative theories and viewpoints But his name is better known for introducing the idea of emptiness sunyata a philosophical concept that had hugely influenced the discourses of Eastern philosophy religion and culture for about 2000

years Nagarjuna cleverly introduced emptiness sunyata into Buddhist discourses to explain its central philosophy the philosophy of Middle Path Through the negative mode of argumentation he taught how we naturally get trapped into extreme viewpoints and speculate on them His philosophy of Middle Path Madhyamika explains the progress of human reasoning moving in its natural course avoiding extreme viewpoints for finding harmony and freedom During the second century in a different milieu Nagarjuna warned his students about the dangers of speculative thought created out of extreme viewpoints and philosophical doctrines He taught them to look into the structures of such doctrines critically by using negation to know what the truth is Therefore the philosophical idea of emptiness sunyata is not the end of negation assuming perfect nihilism but teaching us that it would work like medicine for removing all our ignorance More precisely it is like zero sunya in mathematics a number with an undefined value but real numbers find newer values by associating with it It is a philosophical tool that helps us control our alleged fears anger petty hatred etc by invoking the natural course of human compassion karuna for us to live and die naturally Therefore the structure of emptiness is the philosophy of Middle Path **The American Freemason's New Monthly Magazine** ,1859 **World Refugee Report** ,1986
