Putting on a show for troops who marched under the stars and bars Concert parties performing for soldiers on campaign were unknown before the First World War but British entertainment troupes after much opposition from military authorities eventually began performing for the boys over there on the Western Front By the time the American Army arrived in Europe in 1917 the volunteer services which supported troops in the field with everything from canteens to medical care were an established feature on the field of conflict These invaluable people often women carried out their duties in very difficult circumstances with great courage and sometimes with great sacrifice If the American Army was new to the battlefields of France then American performers needed no lessons in how to put on a show and fewer still in patriotism when it came to supporting their nation s servicemen Here are two fascinating accounts published together in this good value edition about how showbusiness went to war to entertain the troops for the first time These great troupers gave birth to the tradition of brave men and women from the United States that has been kept alive through the conflicts fought during the 20th century in European theatres in deserts and steaming jungles right to the present day Leonaur editions are newly typeset and are not facsimiles each title is available in softcover and hardback with dustjacket our hardbacks are cloth bound and feature gold foil lettering on their spines and fabric head and tail bands **Entertaining the American Army** Gardner Ludwig Harding, James W Evans, Neysa McMein, 2016-05-20 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *ENTERTAINING THE AMER ARMY* James W. The Military-Entertainment Complex Tim Lenoir,Luke Caldwell,2018-02-19 With the rise of drones and computer controlled weapons the line between war and video games continues to blur In this book the authors trace how the realities of war are deeply inflected by their representation in popular entertainment War games and other media in turn feature an increasing number of weapons tactics and threat scenarios from the War on Terror While past analyses have emphasized top down circulation of pro military ideologies through government public relations efforts and a cooperative media industry The Military Entertainment Complex argues for a nonlinear relationship defined largely by market and institutional pressures Tim Lenoir and Luke Caldwell explore the history of the early days of the video game industry when personnel and expertise flowed from military contractors to game companies to a middle period when the military drew on the booming game industry to train troops to a present in which media corporations and the military influence one another cyclically to predict the future of warfare In addition to obvious military entertainment titles like America s Army Lenoir and Caldwell investigate the rise of best selling franchise games such as Call of Duty Battlefield Medal of Honor and Ghost Recon The narratives and aesthetics of these video games permeate other media including films and television programs This commodification and marketing of the future of combat has shaped the public s imagination of war in the post 9 11 era and naturalized the U S Pentagon s vision of a new way of war

Imperial Entertainers Yu Jung Lee, 2025-09-18. The book uncovers the untold stories of Korean women performers who navigated successive waves of conflict as cultural laborers in military entertainment, offering insight into the intersection of war, gender, and culture in East Asia. *Imperial Entertainers: Korean Women Performers from Military to Global Stages, 1937-75* uncovers the untold stories of Korean women performers who navigated successive waves of conflict from the Pacific War to the Korean and Vietnam Wars as cultural laborers in military entertainment. The author traces how these women became central figures in a dynamic entertainment market that emerged across the Asia-Pacific region amid U.S. Military expansion. Through extensive archival research and intimate interviews with former performers, this book reveals how these women skillfully balanced multiple roles representing South Korea's new identity as a free nation, performing Americanness for military audiences and pursuing their own personal and professional aspirations. From their early performances in EUSA (Eight United States Army) Korea clubs to their later success in Vietnam War era entertainment circuits, these entertainers formed a unique labor pool that circulated throughout the militarized zones of Asia. While their performances served American military interests and Cold War cultural diplomacy, these women were not merely passive participants in U.S. hegemony. Instead, they actively shaped their careers, challenged cultural boundaries, and carved out spaces for individual agency within the constraints of military entertainment. By examining these entertainers as cultural laborers with transnational military networks, the author offers new insights into the intersection of war, gender, and cultural labor in East Asia.

War Isn't Hell, It's Entertainment Fabian Virchow, Debra White-Stanley, 2009-02-27. Real war is a cruel theater of death, yet it is also an exciting narrative exploited for national, political, and commercial purposes and turned into numerous films, television shows, computer games, news stories, and reenactment plays. These essays examine the relationship between war, visual media, and entertainment from a number of academic perspectives. Key topics include how war is used as an imaginary site to stage dramas, how boundaries between war, media, and entertainment dissolve as new media alters the formal qualities of representation, how entertainment is used to engage audiences, and what effect products of war and entertainment have on consumers of popular
