Entity And Existence An Ontological Investigation Of Aristotle And Heidegger:

Entity and Existence David E. Starr, 1975 **Aristotle's Metaphysics** Roberto Radice, Richard Davies, 2023-03-27 The authors collaborated with 50 scholars from around the world to produce an exhaustive annotated bibliography on the central work of the Aristotelian corpus. It brings together signed descriptions of more than 3200 books and articles as well as several thousand reviews and notes originally published in English, Italian, German, French, Spanish, and Russian. Descriptions are fully cross-referenced to one another. The first Italian edition (Vita e Pensiero, Milan, 1996) has been thoroughly revised, corrected, and updated and is complemented by an index of the most important loci Aristotelici. Historical Dictionary of Heidegger's Philosophy Frank Schalow, Alfred Denker, 2010-08-20 By the time Martin Heidegger passed away on May 26th, 1976, he had become the most important and controversial philosopher of his age. While many of his former students had become important philosophers and thinkers in their own right, Heidegger also inspired countless others like Jacques Derrida, Michel Foucault, and Jean Paul Sartre. The second edition of the *Historical Dictionary of Heidegger's Philosophy* is an historical perspective on the development of Heidegger's thought in all its nuances and facets. Schalow and Denker cast light on the historical influences that shaped the thinker and his time through a chronology, an introductory essay, a bibliography, appendixes that include German and Greek to English glossaries of terms, and a complete listing of Heidegger's writings, lectures, courses, and seminars, and a cross-referenced dictionary section offering over 600 entries on concepts, people, works, and technical terms. This volume is an invaluable resource for student and scholar alike. **The Hermeneutic Nature of Analytic Philosophy** Santiago Zabala, 2008 Gianni Vattimo and Santiago Zabala recast Karl Marx's theories at a time when capitalism's metaphysical moorings are buckling. Leaving aside the ideal of development and the general call for revolution, hermeneutic communism relies on interpretation rather than truth and proves more flexible in different contexts. It motivates a resistance to capitalism's inequalities yet intervenes against violence and authoritarianism by emphasizing the interpretative nature of truth. Paralleling Vattimo and Zabala's work on the weakening of religion, Hermeneutic Communism realizes the effective potential of Marxist thought. **Jivanmukti in Transformation** Andrew O. Fort, 1998-09-03 Liberation, mukti, is a central concern in Hinduism, particularly in Advaita, non-dual Vedanta, perhaps the best-known school of Hindu thought. There has been vigorous debate and analysis about the possibility and nature of liberation while living (jivanmukti) in Advaita from the time of Sankara, the school's founder, to the present day. While the general conclusion seems to be that one can achieve living liberation, members of the Advaita tradition also regularly express reservations about or describe limitations to full liberation while embodied. *Jivanmukti in Transformation* examines the development and transformation of the concept of jivanmukti from the Upanishads to the modern era. It gives the most thorough treatment of the scholastic Advaita tradition on liberation while living, makes the novel argument for a distinct Yogic Advaita tradition found in the Yogavasistha and Jivanmuktiviveka, and explores the modern neo-Vedanta view of jivanmukti which has been influenced by

modern Western concepts like global ecumenism and humanistic social concern for all The book includes analysis of the views of modern Hindu figures such as Swami Vivekananda Sarvepalli Radhakrishnan Ramana Maharshi and Sankaracaryas of Kanchi and Sringeri and considers these thinkers in the context of current academic discussions about the encounter of India and the West

Eric Voegelin Eugene Webb,2014-12-01 The order of history emerges from the history of order is the sentence that opens Eric Voegelin s multivolume work Order and History A search for an understanding of the order that can be found in history and within the human being who is the subject of history has resulted in a large and complicated body of work by this contemporary philosopher Eugene Webb offers a full illumination and assessment of that work

Acta Universitatis Stockholmiensis ,1957

The Logic of Life Charlotta Weigelt,2002 This is a Ph D Dissertation In the work of Martin Heidegger the quest for the proper philosophical beginning is motivated by an awareness of the historical nature of thought its dependency upon the beginning of philosophy in the historical sense Th

Martin Heidegger, Bibliography and Glossary Hans-Martin Sass,1982

Existence, Meaning, Excellence Andrius Bielskis,2017-10-17 This book addresses the perennial question of the meaning of life from the point of view of a novel interpretation of Aristotle s teleology Beginning with the premise that at the core of modernity and modern moral imagination are the entropy of meaning and the sense of meaninglessness the author critically engages with the work of the post war existentialists chiefly that of Albert Camus and Martin Heidegger to argue that their analyses are unconvincing and that the question of the meaning of being should therefore be approached using different assumptions based on the notion of flourishing life From this Aristotelian outlook Existence Meaning Excellence employs Alasdair MacIntyre s critique of modernity together with his conceptions of practice and the narrative unity of life and tradition to provide a novel philosophical account of existence meaning and excellence an account which is used to contribute to debates between Kantian and Nietzschean perspectives on the nature of art and genius with Mozart s genius being used by way of illustration A fascinating and powerfully argued engagement with existentialist thought that draws on the virtue tradition to explore questions of meaning as well as wider questions within philosophy this book will appeal to philosophers and social theorists with interests in existentialism moral philosophy and accounts of the good based on the notions of human flourishing

Basic Theoretical Research on Marxist Philosophy Geng Yang,2021-06-18 This book addresses pioneering views and hot topics in contemporary Marxist philosophy reflecting the latest advances and important achievements made over the past 30 years in China Besides summarizes and reflects past and present advances in Marxist philosophy this book also outlines a path for its future development in China Presenting a comprehensive exploration of the most fundamental and significant theoretical issues in the field of contemporary Chinese Marxist philosophy based on the latest research it lays the foundation for Chinese philosophy in the new century making it of great significance for promoting the study of contemporary Chinese philosophy

Studies in the Ontology of Reinhardt Grossmann Javier Cumpa,2013-05-02 Reinhardt Grossmann is one of the most sophisticated knowledgeable and original

contemporary metaphysicians Although he was a student of Bergmann he influenced the development of Bergmann's metaphysics considerably No philosopher other than Grossmann defends perception to that degree against the persistent skeptical arguments He characterizes his epistemological positions as radical empiricism and radical realism By realism Grossmann mainly means the view that the material things we perceive exist It is thus also an ontological position and closely related to his empiricism Grossmann's empiricism is radical insofar as he claims that entities of all categories are perceptible even numbers and universals Grossmann's universal realism advocates a theory of abstract categories against the current naturalism He distinguishes between the world and the physical universe The latter is the domain of science the former is the subject of ontology *Heidegger's Philosophy of Being* Herman Philipse,1999 This scrupulously researched and rigorously argued book is the first to interpret and evaluate the central topic of Martin Heidegger's philosophy his celebrated question of being in the context of the full range of Heidegger's thought With this comprehensive approach Herman Philipse distinguishes in unprecedented ways the center from the incidental in Heidegger's philosophy Philipse begins by explaining which problems an interpretation of Heidegger's question of being should solve and he specifies which type of interpretation is the best basis for an evaluation of Heidegger's idea of being and shows **Historical Dictionary of Heidegger's**

Philosophy Alfred Denker,2000-04-12 The first encyclopedic dictionary of the life and work of this famous and influential German philosopher the dictionary explains his contributions with a primary emphasis on key concepts and works

Heidegger's Philosophy of Being Herman Philipse,2021-05-11 This scrupulously researched and rigorously argued book is the first to interpret and evaluate the central topic of Martin Heidegger's philosophy his celebrated Question of Being in the context of the full range of Heidegger's thought With this comprehensive approach Herman Philipse distinguishes in unprecedented ways the center from the periphery the essential from the incidental in Heidegger's philosophy Among other achievements this allows him to shed new light on the controversial relationship between Heidegger's life and thought in particular the connections between his philosophy and his involvement with Nazism Philipse begins by explaining which problems an interpretation of Heidegger's question of being should solve and he specifies which type of interpretation is the best basis for an evaluation of Heidegger's thought He then identifies various strands or leitmotifs in Heidegger's idea of being and shows how these strands hang together in the philosopher's work In doing so Philipse offers new insights into Heidegger's views on such subjects as human existence authenticity logic and language and into his readings of such philosophers as Aristotle Kant Hegel and Nietzsche Philipse then integrates into his interpretation of Heidegger's overall theory the latest scholarship about the philosopher's engagement with Nazism Finally Philipse examines the fundamental structures of Heidegger's philosophy and assesses whether Heidegger's views are true probable or possess some other epistemic or existential value As the most thorough interpretation of Heidegger's theory of being now available this work represents a new phase in the vigorous debate about the philosopher's life and works Research in Phenomenology ,1983

Husserl's Logical Investigations in the New Century: Western and Chinese Perspectives Kwok-Ying Lau, John J. Drummond, 2007-06-06 In this volume phenomenologists from the West join hands with specialists from mainland China and Hong Kong to discuss the heritage of Husserl's Logical Investigations. Readers will learn of the early reception of Husserl's Logical Investigations in China and understand how Husserl's doctrine of intentionality of consciousness has paved the way to a novel phenomenological explication of religious experience. [Resources in Ancient Philosophy](#) Albert A. Bell Jr., Albert A. Bell, James B. Allis, 1991 This guide covers all philosophers appearing in standard textbooks from Thales 580 BC to Augustine 400 AD. A brief introduction to each thinker or school summarizes their major themes and gives the nonspecialist some idea of the most important problems involved in studying that philosopher. Introductions are provided for each of Plato's dialogues and for various aspects of his thought and of Aristotle's views. The compilers include older books reprinted during this period; older articles included in anthologies and bibliographies on each author regardless of date of publication. Each of the more than 7,700 items is annotated. Cross references and an index of terms are also included. [Heidegger's Confessions](#) Ryan Coyne, 2015-05-04 Although Martin Heidegger is nearly as notorious as Friedrich Nietzsche for embracing the death of God, the philosopher himself acknowledged that Christianity accompanied him at every stage of his career. In Heidegger's Confessions, Ryan Coyne isolates a crucially important player in this story: Saint Augustine. Uncovering the significance of Saint Augustine in Heidegger's philosophy, he details the complex and conflicted ways in which Heidegger paradoxically sought to define himself against the Christian tradition while at the same time making use of its resources. Coyne first examines the role of Augustine in Heidegger's early period and the development of his magnum opus *Being and Time*. He then goes on to show that Heidegger owed an abiding debt to Augustine even following his own rise as a secular philosopher, tracing his early encounters with theological texts through to his late thoughts and writings. Bringing a fresh and unexpected perspective to bear on Heidegger's profoundly influential critique of modern metaphysics, Coyne traces a larger lineage between religious and theological discourse and continental philosophy. **The Philosopher's Index** Richard H. Lineback, 1978

Entity And Existence An Ontological Investigation Of Aristotle And Heidegger Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the ability of words has be more evident than ever. They have the capability to inspire, provoke, and ignite change. Such could be the essence of the book **Entity And Existence An Ontological Investigation Of Aristotle And Heidegger**, a literary masterpiece that delves deep to the significance of words and their effect on our lives.
