Evaluation de l'Impact des Conflits et d'entrevoir des pistes pour une Théorie Mathématique des Catastrophes des Crises et des Menaces *Management et interculturalité en Afrique* Emmanuel Kamdem, 2017-02-10T00:00:00-05:00 Que les représentations et les pratiques managériales ne puissent être appréhendées en dehors des représentations et des pratiques sociales et culturelles dans lesquelles elles s'inscrivent est une idée qui paraît aujourd'hui évidente. En l'appliquant aux situations africaines contemporaines, on se rend compte de ce qui est universel et de ce qui ne l'est pas dans l'organisation et le fonctionnement des entreprises travers la diversité des cultures. À l'intérieur d'un cadre théorique général d'analyse des organisations africaines, cet ouvrage présente des expériences variées de management dans le contexte des sociétés africaines. C'est une perspective d'étude intéressante surtout au moment où le discours dominant sur la mondialisation de l'économie se heurte des situations de terrain complexes dont la compréhension et la résolution nécessitent absolument le recours d'autres formes de rationalité que la rationalité économique. Cet ouvrage est donc une contribution majeure dans le vaste chantier encore peu exploré de l'étude du lien entre les cultures africaines et le management des organisations. S'inspirant abondamment de quelques situations types observées dans les entreprises camerounaises, l'auteur tente de construire un édifice théorique et conceptuel qui apporte un éclairage de plus sur l'entreprise africaine comme objet d'étude en sciences sociales et en management.

Politique africaine N-133. Travail et politique COLLECTIF, 2014-05-11 Dossier Le travail cristallise les contradictions de la globalisation, abandonne la régulation du marché, il est l'objet d'une gestion globale appuyée par des politiques migratoires qui tentent de cantonner les travailleurs. Mais ceux-ci offrent une résistance, l'emprise des dispositifs de pouvoir déborde leurs espaces de cantonnement et bousculent les ordonnancements politiques. C'est partir de ces contradictions que les articles réunis dans ce numéro interrogent les liens entre travail et politique. Ils illustrent la grande diversité de ces liens dans l'Afrique contemporaine et en offrent une mise en perspective pistologique. Ils montrent l'intérêt d'aborder les espaces de travail, les modes de régulation de l'accès à l'emploi, le traitement des conflits sociaux pour comprendre les formes pratiques d'exercice de l'autorité et leur mise en significations. Puisqu'il contribue puissamment à structurer le politique, se dévoile dans l'analyse des rapports de travail.
