

The top half of the book cover features a dark blue background. At the very top, there are silhouettes of several people walking away from the viewer on a light-colored grid pattern, possibly a sidewalk or a floor. The silhouettes are dark and elongated, suggesting a low sun position.

Entry Denied Controlling Sexuality At The Border:

Entry Denied Eithne Luibhéid, Lesbians prostitutes women likely to have sex across racial lines brought to the United States for immoral purposes or arriving in a state of pregnancy national threats one and all Since the late nineteenth century immigrant women s sexuality has been viewed as a threat to national security to be contained through strict border monitoring practices By scrutinizing this policy its origins and its application Eithne Luibheid shows how the U S border became a site not just for controlling female sexuality but also for contesting constructing and renegotiating sexual identity Initially targeting Chinese women immigration control based on sexuality rapidly expanded to encompass every woman who sought entry to the United States The particular cases Luibheid examines efforts to differentiate Chinese prostitutes from wives the 1920s exclusion of Japanese wives to reduce the Japanese American birthrate the deportation of a Mexican woman on charges of lesbianism the role of rape in mediating women s border crossings today challenge conventional accounts that attribute exclusion solely to prejudice or lack of information This innovative work clearly links sexuality based immigration exclusion to a dominant nationalism premised on sexual gender racial and class hierarchies Entry Denied Eithne

On Violence and On Violence Against Women Jacqueline Rose,2025-09-23 A blazingly insightful provocative study of violence against women from the peerless feminist critic Why has

violence and especially violence against women become so much more prominent and visible across the world To explore this question Jacqueline Rose tracks the multiple forms of today's violence historic and intimate public and private as they spread throughout our social fabric offering a new provocative account of violence in our time From trans rights and MeToo to the sexual harassment of migrant women from the trial of Oscar Pistorius to domestic violence in lockdown from the writing of Roxanne Gay to Hisham Matar and Han Kang she casts her net wide What obscene pleasure in violence do so many male leaders of the Western world unleash in their supporters Is violence always gendered and if so always in the same way What is required of the human mind when it grants itself permission to do violence On Violence and On Violence Against Women is a timely and urgent agitation against injustice a challenge to radical feminism and a meaningful call to action **Queer**

Migration and Asylum in Europe Richard C. M. Mole, 2021-03-08 Europe is a popular destination for LGBTQ people seeking to escape discrimination and persecution Yet while European institutions have done much to promote the legal equality of sexual minorities and a number of states pride themselves on their acceptance of sexual diversity the image of European tolerance and the reality faced by LGBTQ migrants and asylum seekers are often quite different To engage with these conflicting discourses Queer Migration and Asylum in Europe brings together scholars from politics sociology urban studies anthropology and law to analyse how and why queer individuals migrate to or seek asylum in Europe as well as the legal social and political frameworks they are forced to navigate to feel at home or to regularise their status in the destination societies The subjects covered include LGBTQ Latino migrants relationship with queer and diasporic spaces in London diasporic consciousness of queer Polish Russian and Brazilian migrants in Berlin the role of the Council of Europe in shaping legal and policy frameworks relating to queer migration and asylum the challenges facing bisexual asylum seekers queer asylum and homonationalism in the Netherlands and the role of space faith and LGBTQ organisations in Germany Italy the UK and France in supporting queer asylum seekers Model Immigrants and Undesirable Aliens Christina

Gerken, 2013-10-01 During 1995 and 1996 President Bill Clinton signed into law three bills that altered the rights and responsibilities of immigrants the Antiterrorism and Effective Death Penalty Act the Personal Responsibility Act and the Illegal Immigration Reform and Immigrant Responsibility Act Model Immigrants and Undesirable Aliens examines the changing debates around immigration that preceded and followed the passage of landmark legislation by the U S Congress in the mid 1990s arguing that it represented a new neoliberal way of thinking and talking about immigration Christina Gerken explores the content and the social implications of the deliberations that surrounded the development and passage of immigration reform analyzing a wide array of writings from congressional debates and committee reports to articles and human interest stories in mainstream newspapers The process she shows disguised its underlying racism by creating discursive strategies that shaped and upheld an image of desirable immigrants those who could demonstrate personal responsibility and an ability to contribute to the U S economy Gerken finds that politicians linked immigration to complex

issues poverty welfare reform so called family values measures designed to combat terrorism and the spiraling costs of social welfare programs Although immigrants were often at the center of congressional debates politicians constructed an elaborate abstract terminology that appeared to be unrelated to race or gender Instead politicians promoted neoliberal policies as the avenue to a postracist postsexist world of opportunity for every rational consumer with an entrepreneurial spirit Still Gerken concludes that the passage of pathbreaking legislation was characterized by a useful tension between neoliberal assumptions and hidden anxieties about race class gender and sexuality

Pathways of Desire Héctor Carrillo, 2018-01-09 With Pathways of Desire Héctor Carrillo brings us into the lives of Mexican gay men who have left their home country to pursue greater sexual autonomy and sexual freedom in the United States The groundbreaking ethnographic study brings our attention to the full arc of these men's migration experiences from their upbringing in Mexican cities and towns to their cross border journeys to their incorporation into urban gay communities in American cities and their sexual and romantic relationships with American men These men's diverse and fascinating stories demonstrate the intertwining of sexual economic and familial motivations for migration Further Carrillo shows that sexual globalization must be regarded as a bidirectional albeit uneven process of exchange between countries in the global north and the global south With this approach Carrillo challenges the view that gay men from countries like Mexico would logically want to migrate to a more sexually enlightened country like the United States a partial and limited understanding given the dynamic character of sexuality in countries such as Mexico which are becoming more accepting of sexual diversity Pathways of Desire also provides a helpful analytical framework for the simultaneous consideration of structural and cultural factors in social scientific studies of sexuality Carrillo explains the patterns of cross cultural interaction that sexual migration generates and

at the most practical level shows how the intricacies of cross cultural sexual and romantic relations may affect the sexual health and HIV risk of transnational immigrant populations Socially Undocumented Amy Reed-Sandoval,2020 What does it really mean to be undocumented particularly in the contemporary United States Political philosophers immigration policy makers and others have tended to define the term undocumented migrant legalistically that is in terms of lacking legal authorization to live and work in one s current country of residence In Socially Undocumented Reed Sandoval challenges this legalistic understanding by arguing that being socially undocumented is to possess a real visible and embodied social identity that does not always track one s legal status She further argues that achieving immigration justice in the U S and elsewhere requires a philosophical understanding of the racialized class based and gendered components of socially undocumented identity and oppression Socially Undocumented offers a new vision of immigration justice by integrating a descriptive and phenomenological account of socially undocumented identity with a normative and political account of how the oppression with which it is associated ought to be dealt with as a matter of social justice It also addresses concrete ethical challenges such as the question of whether open borders are morally required the militarization of the Mexico U S border the perilous journey that many migrants undertake to get to the United States the difficult experiences of the women who cross U S borders seeking prenatal care while pregnant and more Militarizing the Border Miguel Antonio Levario,2012-09-01 As historian Miguel Antonio Levario explains in this timely book current tensions and controversy over immigration and law enforcement issues centered on the US Mexico border are only the latest evidence of a long standing atmosphere of uncertainty and mistrust plaguing this region Militarizing the Border When Mexicans Became the Enemy focusing on El Paso and its environs examines the history of the relationship among law enforcement military civil and political institutions and local communities In the years between 1895 and 1940 West Texas experienced intense militarization efforts by local state and federal authorities responding to both local and international circumstances El Paso s Mexicanization in the early decades of the twentieth century contributed to strong racial tensions between the region s Anglo population and newly arrived Mexicans Anglos and Mexicans alike turned to violence in order to deal with a racial situation rapidly spinning out of control Highlighting a binational focus that sheds light on other US Mexico border zones in the late nineteenth and early twentieth centuries Militarizing the Border establishes historical precedent for current border issues such as undocumented immigration violence and racial antagonism on both sides of the boundary line This important evaluation of early US border militarization and its effect on racial and social relations among Anglos Mexicans and Mexican Americans will afford scholars policymakers and community leaders a better understanding of current policy and its potential failure **Latinas/os in the United States** Havidan Rodriguez,Rogelio Saenz,Cecilia Menjivar,2007-11-29 The Latina o population in the United States has become the largest minority group in the nation Latinas os are a mosaic of people representing different nationalities and religions as well as different levels of education and income This edited volume uses a multidisciplinary approach to

document how Latinas and Latinos have changed and continue to change the face of America It also includes critical methodological and theoretical information related to the study of the Latino a population in the United States
