**Entrepreneurship, Environment and Education** Alain Fayolle, 2008-01-01 The book does exactly what the editors say it does it delivers a rich variety of European research it comprehensively inspires important and worthwhile dialogue Anne M J Smith International Journal of Entrepreneurship Innovation This overview of the current research in the field will provide academics researchers and policy makers with new insights through which to understand the contextual dimensions and the broadening aspects of the current state of the art in European research International Journal of Sustainability in Higher Education The authors of the chapters offer a broad variety of topics and approaches that significantly contribute to the understanding of changes in society and the diversity of the contexts in which entrepreneurship occurs I am convinced that the book will inspire a dialogue not only among researchers but also between research and policy makers in order that the changes and dynamics of society be better understood From the foreword by Hans Landström Lund University Sweden This book introduces the expanding European dialogue between entrepreneurship environment and education It considers the shape dimensions and horizon of this multidisciplinary landscape in entrepreneurship research The striking differences and contradictions in entrepreneurial activities readiness and innovativeness within European countries and the proactive attitude and activities of European competitors impose a demand for a better understanding of the complex dynamics The Dynamics between Entrepreneurship Environment and Education reflects how the European landscape of entrepreneurship research is now more complex than ever It presents an overview of the current state of entrepreneurship research in Europe and also reflects on the future directions of research in this field The dynamics between entrepreneurship and society are evaluated and the discussion is then continued from an education perspective The authors also focus on the ability and capability of different kinds of ventures to compete in different contexts This comprehensive overview of the current research in the field will provide academics researchers and policy makers with new insights through which to understand the contextual dimensions and the broadening aspects of the current state of the art in European research *Sustainable Entrepreneurship* Adam Lindgreen, Christine Vallaster, François Maon, Shumaila Yousafzai, Beatriz Palacios Florencio, 2016-04-30 The way organizations manage entrepreneurship has changed dramatically over the past decade Today organizations take account of economic issues but they also adopt a broader perspective of their purpose including social and

environmental issues i.e sustainability Yet despite its global spread sustainable entrepreneurship remains an uncertain and poorly defined ambition with few absolutes This book reaffirms the important need to improve comprehension and explore the subtleties of how individuals groups and organizations can discover create and seize opportunities for blended value generation by designing and operating sustainable ventures It examines in an interdisciplinary fashion and across sectoral and geographical boundaries how entrepreneurial activities can be developed to be generally consistent with sustainable development goals as well as by whom for what reasons and with what implications The Editors comprehensively review key dimensions of the sustainable entrepreneurship phenomenon to establish an essential definition and up to date picture of the field The 19 chapters cover 4 main topics Understanding the intentions and motivations for sustainable entrepreneurship Fostering and enacting sustainability through entrepreneurial action Leading and inspiring sustainable entrepreneurial action Finding the contextually grounded implications of and challenges to sustainable entrepreneurship and blended value generation This book is an important resource for entrepreneurs and policy makers as well as students in the fields of entrepreneurship innovation and sustainability

Fresh Perspectives: Entrepreneurship ,2006      **The Impact of Personal and Environmental Factors on Entrepreneurship** Markus Fischer,2007-08-10 Diploma Thesis from the year 2005 in the subject Business economics Company formation Business Plans grade very good A Aachen University of Applied Sciences School of Management George Mason University 22 entries in the bibliography language English abstract In dependence on the definition of entrepreneurship as the creation of a new enterprise as suggested by Low MacMillan 1988 141 this paper focuses on factors influencing the individual or a group of individuals to start a new company An extensive review of the literature suggests that the decision to create a new venture is influenced by a number of variables that are examined in this paper First the role of the individual in the venture creation process will be portrayed It is found that personal factors are directly related to the venture creation decision Second as the individual faces several unforeseen challenges when deciding to start up a new business environmental support plays a crucial role in compensating for the inherent risks of starting a new business Thirdly the role of culture will be appraised by showing that culture can have both a direct and a moderating effect on the individual s role in the creation decision process The final part of the paper will integrate these three described factors into a new theoretical framework It will be shown that the creation to start a new business depends on the individual environmental support and the overarching culture In addition this new framework will introduce an individual s self efficacy motivation and networking activities as necessary and critical components of the venture creation process Based on empirical evidence from prior research it will be illustrated that networking plays a fundamental part in the venture creation decision process and that it follows a similar pattern across different cultures

Entrepreneurship and Economic Development Steven G. Koven,2021-06-28 The U S is home to some of the largest corporations on the planet American entrepreneurs spawned massive companies such as Facebook Google Apple Amazon and Oracle Founders of these companies

became very wealthy Government entities and consumers benefited from the unmarketable products entrepreneurial visionaries developed Entrepreneurship and Economic Development The People and their Environment provides in depth case studies of contemporary entrepreneurs that are building the future The author argues that the famous billionaire entrepreneurs of today such as Gates Bezos Zuckerberg Bloomberg Page Brin Ellison and others possessed individual drive and talent However it is also argued that talent may not be enough Talent withers or thrives in its social cultural political and legal environment The environment of the U S and its entrepreneurial ecosystem has been conducive to innovators and entrepreneurs of the past such as Benjamin Franklin Levi Strauss Henry Ford and Andrew Carnegie and Thomas Edison This book explores how both talent and context influence entrepreneurial development **NEP Fundamentals of**
