publication devoted to environmental taxation issues on a worldwide basis. It seeks to provide insights and analysis for achieving environmental goals through tax policy. By sharing the perspectives of the authors in response to the diverse challenges posed by environmental taxation issues, effective approaches used in one country may be considered and possibly implemented by governmental authorities in other countries. Each volume contains pioneering and thought-provoking articles contributed by the world's leading environmental tax scholars. This seventh volume focuses on the special problems of the urban environment and the challenges which confront cities and mega-cities. It examines tax issues relating to congestion and pollution control, road pricing and other forms of transportation management, housing and the construction industry, energy generation and consumption, trade, carbon taxes and new eco-service markets, research and development taxes. It contains case studies from developed as well as developing countries. Contributors come from various disciplines, particularly law, accounting and economics. The countries examined include Australia, Brazil, Canada, China, Hong Kong, Japan, Kenya, Pakistan, Singapore, Spain, Uganda and the United States.

Law's Indigenous Ethics John Borrows, 2019-05-06. Law's Indigenous Ethics examines the revitalization of Indigenous peoples' relationship to their own laws and, in so doing, attempts to enrich Canadian constitutional law more generally. Organized around the seven Anishinaabe grandmother and grandfather teachings of love, truth, bravery, humility, wisdom, honesty, and respect, this book explores ethics in relation to Aboriginal issues including title, treaties, legal education and residential schools. With characteristic depth and sensitivity, John Borrows brings insights drawn from philosophy, law and political science to bear on some of the most pressing issues that arise in contemplating the interaction between Canadian state law and Indigenous legal traditions. In the course of a wide-ranging but accessible inquiry, he discusses such topics as Indigenous agency, self-determination, legal pluralism and power. In its use of Anishinaabe stories and methodologies drawn from the emerging field of Indigenous studies, Law's Indigenous Ethics makes a significant contribution to scholarly debate and is an essential resource for readers seeking a deeper understanding of Indigenous rights, societies and cultures.

Trade Related Aspects of Intellectual Property Rights Carlos Correa, 2020-07-23. The TRIPS Agreement is the most comprehensive and influential international treaty on intellectual property rights. It brings intellectual property rules into the framework of the World Trade Organization, obliging all WTO Member States to meet minimum standards of intellectual property protection and

enforcement This has required massive changes in some national laws particularly in developing countries This volume provides a detailed legal analysis of the provisions of the TRIPS Agreement as well as elements to consider their economic implications in different legal and socio economic contexts This book provides an in depth analysis of the principles and of the substantive and enforcement provisions of the TRIPS Agreement the most influential international treaty on intellectual property currently in force It discusses the legal context in which the Agreement was negotiated the objectives of their proponents and the nature of the obligations it created for the members of the World Trade Organization In particular it examines the minimum standards that must be implemented with regard to patents trademarks industrial designs geographical indications copyright and related rights integrated circuits trade secrets and test data for pharmaceutical and agrochemical products Trade Related Aspects of Intellectual Property Rights A Commentary on the TRIPS Agreement elaborates on the interpretation of provisions contained in said Agreement in the light of the customary principles for the interpretation of international law The analysis which is supported by a review of the relevant GATT and WTO jurisprudence identifies the policy space left to such members to implement their obligations in accordance with their own legal systems and public policy objectives including in respect of complex issues such as patentability criteria compulsory licenses exceptions and limitations to copyright border measures injunctive relief and the protection of test data under the discipline of unfair competition
