Environmental Planning Policies And Politics In Eastern And Southern Africa:

Environmental Planning, Policies and Politics in Eastern and Southern Africa M.A. Mohamed Salih, Shibru Tedla, 2016-07-27 Caught between underdevelopment poverty and environmental degradation and the need for exploiting their natural resources for development Africa has during the last two decades been engaged in a serious effort to integrate environment and development The nine case studies Botswana Ethiopia Kenya Lesotho Malawi Tanzania Sudan Uganda and Zambia presented in this book explore the complexity involved in environmental planning and policy in one of the World's poorest regions The authors articulate an informed debate with new conclusions and alternative policy recommendations

Environmental Planning, Policies and Politics in Eastern and Southern Africa M. A. M. (Mohamed Abdel Rahim Mohamed); Tedla Salih (S. (Shibru)), 1999 **A Handbook of Globalisation and Environmental Policy, Second Edition** Frank Wijen, K. Zoeteman, J. Pieters, Paul van Seters, 2012-01-01 Acclaim for the first edition This is undoubtedly a useful collection of essays for environmental policy makers and anyone interested in the relationship between national government and transnational forces the collection brings together some interesting perspectives and should prove a useful complement to the existing political sociology of the environment International Sociology Review of Books The Handbook of Globalisation and Environmental Policy is a very important book More than 40 experienced authors including some of the most important international thought leaders of our time have confronted a crucial question How can and should national governments come to grips with the need for global action on a wide range of increasingly urgent environmental challenges that exceed their authority and capability Through close examination of numerous case studies a balanced perspective that takes government business and civil society into account and fresh interdisciplinary thinking about a range of policy tools the Handbook offers a treasure trove of new concepts and new perspectives The authors conclude that by acknowledging the ongoing erosion of national sovereignty and accepting the growing need to work together in supranational forums national governments can in fact increase their capacity to shape their own destiny Lawrence Susskind Massachusetts Institute of Technology US In an increasingly interdependent world global forces affect both the design and effectiveness of environmental policy This Handbook provides an unusually creative and comprehensive guide not only to the nature of these forces and their impacts but also to how a better understanding of these forces can provide a foundation for improving the effectiveness of environmental policy Tom Tietenberg Colby College US In the current era of globalisation national governments are increasingly exposed to international influences that present new constraints and opportunities for domestic environmental policies This comprehensive revised Handbook pushes the frontiers of theoretical and empirical knowledge and provides a state of the art examination of the multifaceted effects of globalisation on environmental governance Including substantially revised as well as new contributions from leading authorities the Handbook offers an insightful overview of recent developments at the intersection of globalisation and national environmental policy It covers themes including national

regimes trade rules types of goods federalism innovation standards citizen consumers developing countries policy networks partnerships and carbon trading The Handbook's depth and scope will appeal to a broad and varied readership across academics students and policy makers interested in public and private governance environmental economics international relations environmental politics and law sociology and political science

Local Environmental Change and Society in Africa M.A. Salih, 2012-12-06 The Organization for Social Science Research in Eastern and Southern Africa OSSREA is a network of social scientists in the sub region established in 1980 Its main objectives are to encourage and promote interest to engage in collaborative research to facilitate scholarly exchange of ideas and publication between individuals and institutions engaged in the study and research in the social sciences OSSREA also aims to promote the training of social scientists from the sub region in the study of and research in the social sciences and to encourage establishment of institutions dedicated to this goal In pursuance of and consistent with its objectives OSSREA established a fund to provide research grants and training fellowships to social scientists from the sub region Every year OSSREA offers on a competitive basis two limited types of research grants the first on topics related to the social sciences in general and the second on gender issues in particular The grants assist the social scientists to conduct field research in an eastern or southern African country society institutions sector or problem area The objectives of the social science competition are intended to encourage and promote upcoming scholars from the sub region to conduct research in the social economic political or other problems Moreover it aims to strengthen and raise the capacity of faculty members and students in field research and promote the subsequent availability of research findings for teaching as well as to inform individuals and institutions

Human Impact on Environment and Sustainable Development in Africa Michael B.K. Darkoh, 2018-12-20 This title was first published in 2003 Based on a blend of knowledge and perspectives from a variety of disciplines this volume examines the human environment interaction in Africa with a focus on the economic social and political processes that generate environmental change and problems in this region Currently there are controversies over and challenges to such concepts and issues as environment human relationships ecological resilience decertification sustainable development globalization and North South dialogue This book draws upon past and present research findings to discuss these issues It features an examination of the characteristics processes and patterns of environmental crises an analysis of the principal issues and challenges facing policy makers and implementers and the promotion of awareness of theoretical empirical and comparative research The volume not only seeks to answer some of the old questions but also open up new ones for further discussion

The Environmental Rights Revolution David R. Boyd, 2011-11-29 The right to a healthy environment is the subject of extensive philosophical debates that revolve around a key question Should rights to clean air water and soil be entrenched in law This pioneering book answers this by moving beyond theoretical debate to measure the practical effects of enshrining the right in constitutions David Boyd analyzes 193 constitutions and the laws and court decisions of more than 100 nations in Europe

Latin America Asia and Africa He reveals that nations with constitutional protections have stronger environmental laws enhanced enforcement greater government accountability and better access to justice information and public participation in decision making than nations without such provisions As a result they demonstrate superior environmental performance and have smaller ecological footprints Boyd not only demonstrates that constitutionalizing environmental protection has the power to make sustainability a priority he tells inspiring stories about the difference the right to a healthy environment is making in people s lives

Better Governance and Public Policy Dele Olowu, Soumana Sako, 2002 Written by prominent scholars and practitioners of African development policy Describes recent governance changes in Africa Analyzes consequences of these changes for institutional reform Highlights challenges of capacity building for economic liberalization and democratization This is an ideal volume for both students and scholars of African development as well as anyone interested in the current issues of African governance Published in association with the African Capacity Building Foundation this book answers such questions as What is the relationship between governance and institutional reforms What is the impact of these reforms on public policy processes And what is the link between economic governance and policy research

Democracy and Delivery Udes Pillay, Richard Tomlinson, Jacques Du Toit, 2006 Democracy and Delivery Urban Policy in South Africa tells the story of urban policy and its formulation in South Africa As such it provides an important resource for present and future urban policy processes In a series of essays written by leading academics and practitioners Democracy and Delivery documents and assesses the formulation evolution and implementation of urban policy in South Africa during the first ten years of democracy The contributors describe the creation of democratic local governments from the time of the 1976 Soweto uprising and the intense township struggles of the 1980s the formulation of developmental planning and financial frameworks and the delivery of housing and services by the new democratic order They examine the policy formulation processes and what underlay these debate the role of research and the influence of international development agencies and assess successes and failures in policy implementation Looking to the future the contributors make suggestions based on experience with implementation and changing political priorities Academics students policy makers and government officials as well as an informed public will find this book an enlightening read

Non-governmental Organizations (NGOs) and Sustainable Development in Sub-Saharan Africa Robert A. Dibie, 2008-01-01 Written to provide guidance for civil society organizations and their client groups this book examines the role of NGOs in the development processes on the African continent It raises questions about the influence of funding agencies over the NGOs they support and explores the challenges NGOs face The book argues that increased knowledge and cooperation on all parts is essential to achieve sustainable development This book also concludes that sustainable development activities are not beneficial to every community in Africa Taking into consideration globalization and studies of sub Saharan countries this book concludes that news models of leadership are necessary for the success of Africa and NGOs are a vital part of achieving that development

Encyclopedia of World Geography: Southern Africa, 2002 Each volume focuses on a specific geographic region covering its physical geography economics government and peoples

Profiles of Donors Supporting Environment and Development Initiatives in Southern Africa, 1997 African Pastoralism M. A. Mohamed Salih, Ton Dietz, Abdel Ghaffar Mohamed Ahmed, 2001-07-20 Although many countries in Africa are devastated by poverty and famine and are desperately in need of aid it is generally recognised that programmes of aid and development in Africa are imposed upon local communities with little regard for their traditional values and way of life This book provides a fresh look at these intricate issues and explores the way in which farming and traditional pastoral livelihoods have strengthened rather than weakened in the face of government reforms It reveals how traditional institutions and resource management strategies within local African communities continue to endure in spite of the enormous pressure that development programs assert as pastoralists resolve to confront coercive state policies designed to privilege the interests of the wealthy and powerful elite The book introduces thirteen case studies from Botswana Ethiopia Eritrea Kenya Somalia Sudan and Uganda and various other parts of the African continent

Business and Climate Change Governance T. Börzel, R. Hamann, 2013-09-12 How and why do business organisations contribute to climate change governance The contributors findings on South Africa Kenya and Germany demonstrate that business contributions to the mitigation and adaptation to climate change vary significantly

The Uganda Journal, 2007 Abstracts of Public Administration, Development, and Environment, 1999

Globalisation, Poverty and Conflict Max Spoor, 2005-12-29 Is development pass Is it merely a by product or a trickle down effect of economic growth spurred by globalisation Will poverty simply diminish with increased global markets This state of the art critical development reader deals with these and related questions Globalisation Poverty and Conflict examines the inter relationships between globalisation poverty and conflict It complements current debates in the field of development studies and in an era in which development fatigue seems to have become more profound than ever before it brings the importance of development once again to the forefront Achieving the Millennium Development Goals by 2015 is a concrete target which many governments have agreed to work towards Whether these goals can be realised is another issue Nonetheless the Millennium Development Goals have brought more focused attention to development in the past few years and renewed debate about the relationships between the process of globalisation and widespread poverty and the emergence of violent conflicts The authors in this edited volume discuss these inter related and highly controversial topical elements of development in a number of chapters organised around three sets of issues 1 globalisation inequality and poverty 2 governance civil society and poverty and 3 resource degradation institutions and conflict The contributions represent current thinking on and practice of development policy poverty reduction the need for multi level democratic institutions and the containing and prevention of conflicts The authors confront the predominant mainstream ideas on development and propose alternatives The chapters written by a select group of scholars and development practitioners will be of direct interest to

those involved in this field of social sciences and in development practice but they are composed in such a way as to remain accessible for the generally interested reader *Handbook of Research on Environmental Policies for Emergency Management and Public Safety* Eneanya, Augustine Nduka, 2018-01-05 In a world of earthquakes tsunamis and hurricanes it is evident that emergency response plans are crucial to solve problems overcome challenges and restore and improve communities affected by such negative events Although the necessity for quick and efficient aid is understood researchers and professionals continue to strive for the best practices and methodologies to properly handle these significant events The *Handbook of Research on Environmental Policies for Emergency Management and Public Safety* is a pivotal reference source for the latest research findings on the examination of environmental policies and its interface with management and public safety from various country s perspectives its local impacts and global lessons Featuring extensive coverage on relevant areas such as public private partnership disaster management and natural resource management this publication is an ideal resource for academicians practitioners and researchers interested in understanding the effects of environmental policies on emergency management International Environmental Law and Policy in Africa B. Chaytor, K.R. Gray, 2013-11-11 C O OKID1 I welcome the opportunity to prepare a Foreword to the book on Environmental Policy and Law in Africa edited by Kevin R Gray and Beatrice Chaytor It is a pleasure to do that because the book is a contribution to the cause of capacity building for development and implementation of environmental law in Africa a goal towards which I have had an undivided focus over the last two decades There is still some belief in and outside Africa that for developing countries in general and Africa in particular development and implementation of environmental law is not a priority This belief prevails strongly in many quarters of the industrialised countries In fact the view is held either out of blatant ignorance or by some renegade industrialists who fail to appreciate Michael Royston s 1979 thesis that Pollution Prevention Pays 2 That group for obvious reasons must have their correspondent counterparts in Africa to provide hope that industries rejected as derelict in the West or inoperable due to rigorous environmental regulation can find homes to which they can escape and dump their polluting industries *Decentralized Governance of Adaptation to Climate Change in Africa* Esbern Friis-Hansen, 2017-07-12 Two perspectives have dominated the social science discourse on climate change adaptation Firstly an international narrative among UN and donor agencies of technical and financial support for planned climate change adaptation Secondly a significant volume of studies discuss how local communities can undertake their own autonomous adaptation Effective and sustainable climate adaptation requires a third focus understanding of the political processes within sub national institutions that mediate between national and local practices This book address the knowledge gap that currently exists about the role of district level institutions in Sub Saharan Africa in providing an enabling institutional environment for rural climate change adaptation **Development Planning in South Africa** John Reynolds, 2018-06-15 Celebrated as a beacon of democracy and reconciliation many people in South Africa continue to live in severe poverty particularly in the Eastern Cape Province

Backed by the United Nations Development Programme the Eastern Cape's provincial government consequently launched an historically ambitious programme the Provincial Growth and Development Plan aimed at tackling the province's poverty unemployment and inequality over a ten year period in a radical policy overhaul Drawing on the author's first hand engagement with the planning process *Development Planning in South Africa* is an empirically rich study that utilises a strategic relational approach to explore the ways in which this unprecedented challenge was negotiated and eventually undermined by the South African state The first work of its kind the book provides an indispensable micro level study with profound implications for how state power is understood to be organised and expressed in state policy Relevant beyond South Africa to policy implementation in both developing and developed states globally the book is essential reading for students and scholars of government studies political economy development policy studies and social movements

Getting the books **Environmental Planning Policies And Politics In Eastern And Southern Africa** now is not type of inspiring means. You could not isolated going subsequent to ebook addition or library or borrowing from your links to contact them. This is an very simple means to specifically acquire lead by on-line.
