## **Environmental Protection Agency Asking The Wrong Questions From Nixon To Clinton:**

*The Environmental Protection Agency* Marc Karnis Landy, Marc J. Roberts, Stephen Richard Thomas, 1990 Expanded to cover the Bush administration and the beginnings of the Clinton administration this exploration of one of the most critical problems of modern government and democratic politics is now more timely than ever Through careful analysis of representative cases it evaluates the Environmental Protection Agency's performance over its entire existence uncovers the mistaken premises that have clouded and distorted debate about environmental policy and shows how public officials might better preserve and promote constitutional democracy

**The War on the EPA** William M. Alley, Rosemarie Alley, 2020-01-30 As the U S Environmental Protection Agency EPA passes the half century mark the public is largely apathetic towards the need for environmental protections Today's problems are largely invisible and to many people's eyes the environment looks like it's doing just fine The crippling smog and burning rivers of yesteryear are just a memory In addition Americans are repeatedly told that the EPA is hurting the economy destroying jobs and intruding into people's private lives The truth is far more complicated The War on the EPA America's Endangered Environmental Protections examines the daunting hurdles facing the EPA in its critical roles in drinking water air and water pollution climate change and toxic chemicals This book takes the reader on a journey into some of today's most pressing environmental problems toxic forever chemicals known as PFAS pervasive agricultural pollution dead zones in the Gulf of Mexico and widespread air and water pollution from use of fossil fuels Delving into the science politics and human dimension of these and other problems the book illustrates the challenges of regulation through the EPA's first fifty years how today's war on science is undermining the scientific foundation upon which the agency's legitimacy rests and why a strong U S Environmental Protection Agency is more important than ever before

Bureaucrats, Politics And the Environment Richard W. Waterman, Amelia A. Rouse, Robert Wright, 2004-03-21 The bureaucracy in the United States has a hand in almost all aspects of our lives from the water we drink to the parts in our cars For a force so influential and pervasive however this body of all nonelective government officials remains an enigmatic impersonal entity The literature of bureaucratic theory is rife with contradictions and mysteries Bureaucrats Politics and the Environment attempts to clarify some of these problems The authors surveyed the workers at two agencies enforcement personnel from the U S Environmental Protection Agency and employees of the New Mexico Environment Department By examining what they think about politics the environment their budgets and the other institutions and agencies with which they interact this work puts a face on the bureaucracy and provides an explanation for its actions

**Varieties of Comparative Criminology**, 2021-10-18 According to Durkheim comparative sociology is sociology itself Comparative criminology goes back to the days of Durkheim but today it is possible to conduct group comparisons in many settings and with an incredible array of data This book represents a variety of approaches making comparisons The emphasis is on creative methods challenging theory and unusual subject matter Topics range from Micro

the Logjam** David Schoenbrod, Richard B. Stewart, Katrina M. Wyman, 2010-04-06 After several decades of significant but  
incomplete successes environmental protection in the United States is stuck Administrations under presidents of both parties

have fallen well short of the goals of their environmental statutes Schoenbrod Stewart and Wyman distinguished scholars in the field of environmental law identify the core problems with existing environmental statutes and programs and explain how Congress can fix them Based on a project the authors led that incorporated the work of more than fifty leading environmental experts this book is a call to action through public understanding based on a nonpartisan argument for smarter more flexible regulatory programs to stimulate the economy and encourage green technology Implementation of the Small Business Regulatory Enforcement Fairness Act of 1996 United States. Congress. Senate. Committee on Small Business,1996

**Living in a Contaminated World** Ellen Omohundro,2019-06-04 Originally published in 2004 Using innovative methodology which considers both social and biophysical parameters to examine a range of mining and mineral production sites including the controversial Superfund sites in the USA this book focuses on how environmental regulators local residents and other stakeholders work together to define the communities affected by environmental hazards and to assess the associated health impacts It also questions the social factors which frame community level decision making about environmental risks such as shared history community identity control in local decisions distribution of power among local institutions and participation in decisions about environmental risks and mitigation The book argues that a better understanding of such factors would not only permit the development of more informed policies but would also provide opportunities to improve community involvement in mitigation efforts **Politics and the Environment** Michael Howes,Griffith University,Australia,2013-10-31 An evenhanded realistic and thoughtful approach to identifying environmental problems and management goals Stephen Zavestoski Assistant Professor of Sociology and Environmental Studies University of San Francisco a theoretically advanced yet accessible treatment of environmental governance drawing on an impressive range of material to investigate the roles of states and industries in addressing environmental problems Harriet Bulkeley Department of Geography University of Durham Written in the vein of critical optimism this book is pitched at the right level to inspire people trying to make pragmatic changes to their governmental and industrial systems trying to make a difference where it counts Timothy Doyle Associate Professor in Geographical and Environmental Studies University of Adelaide What is the future for our environment We face serious risks of major industrial accidents and global environmental degradation yet new technological developments promise a standard of living unimaginable only a few generations ago Michael Howes outlines the ways in which governments have responded to environmental risk over the past four decades He examines the key environmental issues and the claims of envirosceptics offering a new strategy for making major administrative decisions in the face of uncertainty He explains how governments have developed environmental policy and the ongoing tensions between science industry the state social movements and electoral politics In a clear straightforward manner he shows how to use the work of theorists Ulrich Beck Michel Foucault and John Dryzek to analyse environmental policy He also develops a new method of measuring the effectiveness of environmental governance in

developed countries Howes draws on a wide array of sources from business government environment groups academic research and NGOs to illustrate his arguments with comparisons between the environmental policies of the UK the USA and Australia

**The Environment Since 1945** Marcos Luna,2012 Examines numerous controversies in environmental politics and policy since 1945 including the Donora smog event of 1948 building dams in national parks the passage of the National Environmental Protection Act the banning of DDT the Love Canal crisis the Exxon Valdez oil spill the Makah whale hunt and environmental racism

**Toxic Loopholes** Craig Collins,2010-03-08 The EPA was established to enforce the environmental laws Congress enacted during the 1970s Yet today lethal toxins still permeate our environment causing widespread illness and even death Toxic Loopholes investigates these laws and the agency charged with their enforcement to explain why they have failed to arrest the nation s rising environmental crime wave and clean up the country s land air and water This book illustrates how weak laws legal loopholes and regulatory negligence harm everyday people struggling to clean up their communities It demonstrates that our current system of environmental protection pacifies the public with a false sense of security dampens environmental activism and erects legal barricades and bureaucratic barriers to shield powerful polluters from the wrath of their victims After examining the corrosive economic and political forces undermining environmental law making and enforcement the final chapters assess the potential for real improvement and the possibility of building cooperative international agreements to confront the rising tide of ecological perils threatening the entire planet

**Environmental Politics and Policy** James P. Lester,1995 Completely revised throughout and including five new chapters this second edition of Environmental Politics and Policy provides an updated review and synthesis of the political science literature on the subject of environmental politics and policy Various chapters by leading scholars in the field analyze and describe the role of public opinion interest groups political parties Congress the Executive Branch the Courts and elites as they have influenced the formation of U S environmental policies over the past twenty five years The book also provides ideas for future research and will stimulate thinking about the subject in the 1990s and beyond From reviews of the First Edition All the authors in this collection of essays are well known in the field of environmental policy Their breadth of knowledge and diversity of perspectives permit a rich and comprehensive coverage of the scholarly work in this field Daniel McCool Journal of Politics An excellent collection of readings with a strong emphasis on institutional analysis as an approach to environmental policy in the United States Robert Paehlke Natural Resources and Environmental Administration No better review of the political science of environmental policy making has yet been published Christopher J Bailey Environmental Politics Contributors David Colnic Douglas Costain John S Dryzek Riley E Dunlap Helen M Ingram Sheldon Kamieniecki Michael E Kraft James P Lester Dean E Mann Evan J Ringquist Walter A Rosenbaum Mark E Rushefsky Gerald B Thomas Lettie M Wenner

**The Tyranny of Good Intentions** Paul Craig Roberts, Lawrence M. Stratton,2008-03-25 In this updated and expanded edition of The Tyranny of Good Intentions Paul Craig Roberts and Lawrence M Stratton renew their

valiant campaign to reclaim that which is rightly ours liberty protected by the rule of law They show how crusading legislators and unfair prosecutors are remaking American law into a weapon wielded by the government and how the erosion of the legal principles we hold dear such as habeas corpus and the prohibition against self incrimination is destroying the presumption of innocence A new introduction and new chapters cover recent marquee cases and make this provocative book essential reading for anyone who cringes at the thought of unbridled state power and sees our civil liberties slowly slipping away in the name of the War on Drugs the War on Crime and the War on Terror
