environmental problems and the moral values they implicate the casebook provides a structural overview of the regulatory system. It considers how environmental law seeks to protect public health and the environment from climate change, toxic chemicals, hazardous wastes, and air and water pollution. This casebook also covers land use regulation, protection of biodiversity, environmental impact assessment, environmental enforcement, and international environmental law. Written in a style accessible to the non-specialist, this casebook affords instructors flexibility in organizing courses. Effective teaching and study aids include outlines of the structure of each environmental statute, real world based problems and questions, pathfinders explaining where to find crucial source materials for every major topic, an extensive glossary, and a list of acronyms. The casebook is kept current with annual statutory and case supplements. New to the Tenth Edition: West Virginia v. EPA and the amorphous major questions doctrine; Sackett v. EPA narrows the reach of the Clean Water Act's protection of wetlands; State climate and environmental rights litigation; The Inflation Reduction Act of 2022 and the green energy transition; 2023 amendments to the National Environmental Policy Act; Papal climate encyclical Laudato Si updated by Pope Francis. Professors and students will benefit from comprehensive and up to date coverage in a style accessible to the non-specialist. Self-contained chapters for flexibility in organizing courses; a detailed examination of policy focus on environmental statutes; how statutes translate into regulations; factors that affect real world behavior; effective teaching and study aids; outlines of the structure of each environmental statute; real world based problems and questions; pathfinders explaining where to find crucial source materials for every major subject area; extensive glossary; list of acronyms.

**The First Decade of NAFTA: The Future of Free Trade in North America** Kevin Kennedy, 2021-10-25 This volume provides practitioners, academics, and students with the first definitive coverage of NAFTA investment arbitration. Given the level of foreign direct investment within the NAFTA countries, the issue of redress for states in investment cases is a major one. The state dispute settlement mechanisms within NAFTA's Chapter Eleven are recognized as a model worthy of close examination. The experts and scholars who have contributed to this work present a comprehensive overview of the first ten years of practice in the area of investment disputes under the NAFTA provision. As in any nascent undertaking, the successes, failures, and controversies that have been the experience of the state parties involved in NAFTA are keenly reflected in the Chapter 11 cases. It is in these experiences, as described by in the chapters of this timely volume, that the readers will find substantive and procedural insights into an emerging new area of public international economic law. Many see the workings of the NAFTA agreement, particularly Chapter 11, as a Rorschach test for how state parties can approach and effectively adjudicate investment disputes. For this reason, all practitioners and scholars concerned with international trade and foreign direct investment issues should consult this book. Published under the Transnational Publishers imprint.

**Baptized in PCBs** Ellen Griffith Spears, 2014-04-07 In the mid 1990s residents of Anniston, Alabama, began a legal fight against the agrochemical company Monsanto over the dumping of PCBs in the city's historically African American and white working

class west side Simultaneously Anniston environmentalists sought to safely eliminate chemical weaponry that had been secretly stockpiled near the city during the Cold War In this probing work Ellen Griffith Spears offers a compelling narrative of Anniston s battles for environmental justice exposing how systemic racial and class inequalities reinforced during the Jim Crow era played out in these intense contemporary social movements Spears focuses attention on key figures who shaped Anniston from Monsanto s founders to white and African American activists to the ordinary Anniston residents whose lives and health were deeply affected by the town s military industrial history and the legacy of racism Situating the personal struggles and triumphs of Anniston residents within a larger national story of regulatory regimes and legal strategies that have affected toxic towns across America Spears unflinchingly explores the causes and implications of environmental inequalities showing how civil rights movement activism undergirded Anniston s campaigns for redemption and justice
