Information Systems and the Environment

National Academy of Engineering, 2001-09-13 Information technology is a powerful tool for meeting environmental objectives and promoting sustainable development. This collection of papers by leaders in industry government and academia explores how information technology can improve environmental performance by individual firms collaborations among firms and collaborations among firms government agencies and academia. Information systems can also be used by nonprofit organizations and the government to inform the public about broad environmental issues and environmental conditions in their neighborhoods. Several papers address the challenges to information management posed by the explosive increase in information and knowledge about environmental issues and potential solutions including determining what information is environmentally relevant and how it can be used in decision making. In addition case studies are described and show how industry is using information systems to ensure sustainable development and meet environmental standards. The book also includes examples from the public sector showing how governments use information knowledge systems to disseminate best practices beyond big firms to small businesses and from the world of the Internet showing how knowledge is shared among environmental advocates and the general public

Environmental Information Systems Oliver Günther, 2013-03-09

Environmental information systems EIS are concerned with the management of data about the soil the water the air and the species in the world around us. This first textbook on the topic gives a conceptual framework for EIS by structuring the data flow into 4 phases data capture storage analysis and metadata management. This flow corresponds to a complex aggregation process gradually transforming the incoming raw data into concise documents suitable for high level decision support. All relevant concepts are covered including statistical classification data fusion uncertainty management knowledge based systems GIS spatial databases multidimensional access methods object oriented databases simulation models and Internet based information management. Several case studies present EIS in practice

Advanced Technologies and

Methodologies for Risk Management in the Global Transport of Dangerous Goods

Azedine Bouhmakoul, Emmanuel Garbolino, 2008-09-15 In the last few years logistics has become a strategic factor for development and competition. In fact research and development activities have traditionally faced the management of supply chain and international transport focussing on two main aspects speed and efficiency. However several vulnerabilities have recently been highlighted under a safety and security viewpoint. The weakness of the logistic chains has become more evident with the beginning of the new millennium. Terrorist attacks such as the 11th of September 2001 in the USA have caused the introduction of new rules and procedures which affect the overall logistics showing the vulnerability of the global economy. So nowadays it would appear anachronistic to carry out an exhaustive research activity on the supply chain with no relation to the various typologies of risk which may affect it. This book aims to effectively represent the current status of research on dangerous goods transport

Environmental Informatics Nicholas M. Avouris, Bernd Page, 2013-03-09 Environmental informatics is a field of applied computer science that develops and uses the techniques of information processing for environmental protection research and engineering. The multidisciplinary nature of environmental problems needs environmental informatics as a bridge and mediator between many disciplines and institutions. The present book presents a wide range of topics currently being pursued in the area including basic methodological issues and typical applications. A significant number of recognised experts have contributed to the volume discussing the methodology and application of environmental monitoring, environmental databases and information systems, GIS modeling software, environmental management systems, knowledge based systems and the visualisation of complex environmental data. For scholarly and professional practitioners of environmental management who wish to acquire well founded knowledge of environmental information processing and specialists in applied computer science who wish to learn more about the contribution of their field to the solution of our urgent environmental problems.

Environmental Software Systems Ralf Denzer, David A. Swayne, Gerald Schimak, 2016-03-24 Environmental Informatics is a fast growing field which deals with all methods from computer science, environmental planning, ecology and related subjects. As well as being an interdisciplinary area Environmental Informatics provides an interface between all involved professional groups. Monitoring the state of the environment, analysing existing data, presenting the data to scientists and the public as well as providing decision support are only some of the topics involved. Environmental Informatics is therefore a good foundation for the computer assisted protection of the environment.

Qualitative Research in IS: Issues and Trends Trauth, Eileen M., 2000-07-01 This book addresses the need for materials that can help the IS researcher determine which qualitative methods are most appropriate for addressing their particular research questions. It draws upon the collective expertise of distinguished scholars to explore concrete issues they have encountered in the use of a particular qualitative method. The details of specific research projects provide the backdrop for the discussion of methodological issues. The audience for this book includes students, scholars and researchers. Anyone currently engaged in conducting IS research who would like to learn more about employing qualitative methods will be interested in Qualitative Research in IS: Issues and Trends to learn more about the latest issues and challenges facing IS researchers throughout the world.
