Current Environmental Issues and Challenges Giacomo Cao, Roberto Orrù, 2014-04-29 Few books currently exist that cover such a wide spectrum of topics The chapters dealing with air pollution from mobile sources air pollution and health effects and air quality modelling fall into the air pollution category while the ones related to microalgae for carbon dioxide sequestration biofuels production fuel cells and solar energy technology respectively can be ascribed to the energy topic Several technologies to handle a wide spectrum of environmental pollutants are taken into account in numerous chapters The chapter on biodiversity is clearly related to the conservation issue while the water pollution subject is tackled by the chapter on water quality monitoring Finally a general analysis on green business as well as a chapter on grid cloud computing technology for collaborative problem solving and shared resources management conclude the work Because of its breadth of coverage this book is particularly useful as a graduate text

Environmental Condition of the Mediterranean Sea F.B. de Walle, M. Nikolopoulou-Tamvakli, W.J. Heinen, 1993-08-31 The Environmental Program for the Mediterranean EPM assesses the nature and the extent of the environmental problems in the Mediterranean Basin It leads to recommendations for short to medium term actions Policies institutional measures technical assistance and investment project proposals are necessary to ameliorate such problems The EPM emphasizes the economic and financial implications of environmental protection It suggests ways in which the countries of the region can achieve the high priority environmental investments that are recommended The case is made for greater efforts from the international aid community to assist the Mediterranean countries in this endeavor The EPM is a common initiative launched in 1988 by the European Investment Bank and by the World Bank The World Bank has economic development as its main objective The Bank has lent for development projects since 1946 primarily in the developing countries of the Third World The EIB's main task under Article 130 of the Treaty of Rome is to contribute to the balanced development of the European Community another of its priorities is the protection of the environment The Netherlands Organization for Applied Scientific Research TNO derives its legal status from an Act of Parliament of 1930 on applied scientific research in the Netherlands It is a fully independent R D organization and currently has a staff of about 5 100 and a turnover of more than 370 million U S dollars a year Studies by TNO are carried out in a number of institutes and laboratories located throughout the Netherlands TNO's primary task is to support technological innovation in trade and industry government agencies and community groups TNO also assists clients and sponsors in solving problems It conducts consultancy and transfers knowledge and know how to individual companies and sector groups

Know how is obtained from TNO's own research or is generated through collaboration with universities and third parties. The present study is sponsored by the European Investment Bank in the framework of the EPM. The TNO report gives an overview of the environmental condition of the Mediterranean, especially that of EC Mediterranean countries. It also estimates the environmental investment requirements for sewage treatment plants, river basin management, port reception facilities, other environmental protection measures.

Governing Europe's Marine Environment Michael Gilek, 2016-03-03. Governing Europe's Marine Environment is a coherent, up-to-date multidisciplinary analysis of current approaches and challenges to the sustainable governance of Europe's marine environment. Structured in three parts: Part 1 outlines general theoretical ideas about governance, governing and governability and serves as a starting point for analysing the development of marine governance in Europe from the perspective of different disciplines; Part 2 includes studies of EU marine governance; Part 3 focuses on Europe's regional seas, namely the Baltic Sea, the North Sea, the Black Sea and the Mediterranean Sea. This book presents a better understanding of the fragmented governance of marine governance in Europe and, in particular, the tension between the Europeanization of regional seas and the regionalization of EU policies.

Coping with Global Environmental Change, Disasters and Security Hans Günter Brauch, Úrsula Oswald Spring, Czesław Mesjasz, John Grin, Patricia Kameri-Mbote, Béchir Chourou, Pál Dunay, Joern Birkmann, 2011-02-03. Coping with Global Environmental Change: Disasters and Security Threats, Challenges, Vulnerabilities and Risks reviews conceptual debates and case studies focusing on disasters and security threats, challenges, vulnerabilities and risks in Europe, the Mediterranean and other regions. It discusses social science concepts of vulnerability and risks, global, regional and national security challenges, global warming, floods, desertification and drought as environmental security challenges, water and food security challenges and vulnerabilities, vulnerability mapping of environmental security challenges and risks, contributions of remote sensing to the recognition of security risks, mainstreaming early warning of conflicts and hazards and provides conceptual and policy conclusions.

Parliamentary Assembly Council of Europe, 2011-07-01 The Parliamentary Assembly of the Council of Europe publishes a volume of adopted texts for each of its four part sessions and Standing Committee meetings The Assembly or the Standing Committee on its behalf can adopt three different types of texts opinions recommendations and resolutions Opinions are mostly expressed by the Assembly on questions put to it by the Committee of Ministers such as the admission of new member

states to the Council of Europe but also on draft conventions or the budget Recommendations contain proposals addressed to the Committee of Ministers the implementation of which is within the competence of governments Resolutions embody decisions by the Assembly on questions which it is empowered to put into effect or expressions of views for which it alone is responsible They can also be addressed to national parliaments References to committees the Bureau of the Assembly decides whether communications in particular from the Committee of Ministers and Facing Global Environmental Change Hans Günter Brauch, Navnita Chadha Behera, Patricia Kameri-Mbote, John Grin, Úrsula Oswald Spring, Béchir Chourou, Czesław Mesjasz, Heinz Krummenacher, 2009-06-04 The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth assessment Report AR4 of the Intergovernmental Panel on Climate Change IPCC which were disseminated on a large scale and reported extensively by the media This was the result not only of a heightened interest on the part of the public on various aspects of climate change but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the IPCC and former Vice President of the US Al Gore By taking this decision in favour of a leader who has done a great deal to create awareness on climate change and a body that assesses all scientific aspects of climate change and disseminates the result of its findings the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world

Environmental Policy in an International Context Pieter Glasbergen, Andrew Blowers, 1995-10-19 The three volumes of Environmental Policy in an International Context have been developed by the Dutch and UK Open Universities as part of the International Environmental Series They accompany a workbook and six videos The first volume takes a critical and analytical look at contemporary environmental issues built around the key questions what are international and environmental problems and why have they become important politically These questions are examined from a variety of viewpoints science sociology politics law and economics A multi disciplinary approach is emphasised and it shows how both technical and scientific solutions need to be sought alongside

Routledge Handbook of Ocean Resources and Management Hance D. Smith, Juan Luis Suárez de Vivero, Tundi S. Agardy, 2015-10-16 This comprehensive handbook provides a global overview of ocean resources and management by focusing on critical issues relating to human development and the marine environment their interrelationships as expressed through the uses of the sea as a resource and the regional expression of these themes The underlying approach is geographical with prominence given to the biosphere political arrangements and regional patterns all considered to be especially crucial to the human understanding required for the use and management of the world's oceans Part one addresses key themes in our knowledge of relationships between people and the sea on a global scale including economic and political issues and understanding and managing marine environments Part

two provides a systematic review of the uses of the sea grouped into food ocean space materials and energy and the sea as an environmental resource Part three on the geography of the sea considers management strategies especially related to the state system and regional management developments in both core economic regions and the developing periphery Chapter 23 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license <https://www.routledgehandbooks.com/doi/10.4324/9780203115398.ch23>
