Environmental Justice In South Africa

Jasper Knight, Christian M. Rogerson

Environmental Justice In South Africa:

Environmental Justice in South Africa David A. McDonald, 2002 In 11 articles reprinted from a 1999 journal and a 1998 anthology South African social scientists and those from elsewhere who have worked there provide an overview of the environmental justice movement in the country which blossomed only after the battle against apartheid was won in the early 1990s They trace its history and describe the key theoretical and practical issues it faces after a decade what has changed and what remained the same the most and least effective strategies and future directions Annotation copyrighted by Book News Inc Portland OR

Environmental Justice in Developing Countries Rhuks Ako, 2013-08-15 The evolving environmental justice paradigm is conceptualized differently based on political economic and historical factors In developed countries emphasis is placed on the role of individuals in environmental decision making and the protection of their access to the prerequisite environmental information and capacity to challenge environmental decisions is the main focus However in developing countries access to land and natural resources are considered integral elements of environmental justice paradigm This book focuses on the conceptualization recognition and protection of environmental justice in developing countries It explores the situation by engaging an analytical discourse of relevant legal provisions in four case study countries including Nigeria South Africa India and Papua New Guinea The comparative analysis of environmental justice in these countries present a framework within which to appreciate the conceptualization of the environmental justice paradigm

Environmental Justice Gordon Walker, 2012-03-15 The book will provide readers with a wide ranging and critical view of the evolving field of environmental justice scholarship and encourages careful thinking and analysis of what is at issue and provides a framework for understanding the claim making of environmental justice in spatial temporal and political context

Environmental Justice Context, Challenges and National Approaches OECD, 2024-05-28 There is mounting evidence that depending on social and economic circumstances some communities and groups may face disproportionate exposure to environmental hazards bear an inequitable share of the costs associated with environmental policies or face more barriers to participating in environmental decision making As countries increase their efforts to tackle environmental degradation pollution and climate change the concept of environmental justice can shed light on how to ensure fairness in the processes and outcomes of environmental policymaking This report examines the plurality of the concept of environmental justice its underlying conceptual pillars and how it has emerged in different contexts around the world The report also provides the first policy stocktake of how governments across the OECD and beyond are seeking to redress environmental justice concerns building upon insights from 26 responses to the OECD Environmental Justice Survey as well as complementary desk analysis across a broader set of countries

The Routledge Handbook of Environmental Justice Ryan Holifield, Jayajit Chakraborty, Gordon Walker, 2017-09-14 The Routledge Handbook of Environmental Justice presents an extensive and cutting edge introduction to the diverse rapidly growing body of research on pressing issues of

environmental justice and injustice With wide ranging discussion of current debates controversies and questions in the history theory and methods of environmental justice research contributed by over 90 leading social scientists natural scientists humanists and scholars from professional disciplines from six continents it is an essential resource both for newcomers to this research and for experienced scholars and practitioners The chapters of this volume examine the roots of environmental justice activism lay out and assess key theories and approaches and consider the many different substantive issues that have been the subject of activism empirical research and policy development throughout the world The Handbook features critical reviews of quantitative qualitative and mixed methodological approaches and explicitly addresses interdisciplinarity transdisciplinarity and engaged research Instead of adopting a narrow regional focus it tackles substantive issues and presents perspectives from political and cultural systems across the world as well as addressing activism for environmental justice at the global scale Its chapters do not simply review the state of the art but also propose new conceptual frameworks and directions for research policy and practice Providing detailed but accessible overviews of the complex varied dimensions of environmental justice and injustice the Handbook is an essential guide and reference not only for researchers engaged with environmental justice but also for undergraduate and graduate teaching and for policymakers and activists

Environmental Justice in the New Millennium F. Steady, 2009-06-22 Environmental Justice is one of the most important human rights challenges today It refers to inequitable environmental burdens born by groups such as racial minorities residents of economically disadvantaged areas or residents of developing nations This book explores this subject with case studies from various parts of the world

Environmental justice in Africa: Cultural and economic impacts on the legal systems Dennis Oghenerobor Agelebe, 2025-05-26 This book's overarching theme is to discern the role of law in shaping environmental justice in Africa Simultaneously it delves into the intricate interplay of economic and cultural factors that can either facilitate or impede the pursuit of justice Acknowledging that environmental justice transcends legal frameworks alone the book emphasises its recognition as a social pillar integral to sustainable development In this holistic perspective environmental justice is positioned on equal footing with environmental protection and economic sustainability highlighting its multifaceted nature in Africa

Environmental Justice and Oil Pollution Laws Eloamaka Carol Okonkwo, 2020-02-13 This book explores the relationship between oil pollution laws and environmental justice by comparing and contrasting the United States and Nigeria Critically this book not only examines the fluidity of oil pollution laws but also how effective or ineffective enforcement can be when viewed through the lens of environmental justice Using Nigeria as a case study and drawing upon examples from the United States it examines the legal and institutional challenges impacting upon the effective enforcement of laws and provides a contrasting view of developed and developing countries Focusing on the oil and gas industry the book discusses the laws and internationally acceptable standards IAS in these industries the principles behind their application the existing barriers to their effective implementation and how to overcome those barriers Utilising an

environmental justice framework the book demonstrates the synergy between policy making human rights and justice in oil producing regions as well as addressing the importance of protecting the rights of minorities Through a comparative analysis of the United States and Nigeria this book draws out enforcement approaches and mechanisms for tackling oil related pollution with a view to reducing environmental injustice in developing countries Examining the role of NGOs in pursuing environmental justice matters the book showed the regional courts as one avenue of overcoming the enforcement challenges faced by the developing countries This book will be of great interest to students and scholars of environmental law environmental justice minorities rights business and human rights energy law and natural resource governance

Environmental Justice, Popular Struggle and Community Development Anne Harley, Eurig Scandrett, 2019-06-05

Struggles for environmental justice involve communities mobilising against powerful forces which advocate development driven increasingly by neoliberal imperatives In doing so communities face questions about their alliances with other groups working with outsiders and issues of class race ethnicity gender worker community and settler indigenous relationships Written by a wide range of international scholars and activists contributors explore these dynamics and the opportunities for agency and solidarity They critique the practice of community development professionals academics trade union organisers social movements and activists and inform those engaged in the pursuit of justice as community development and environment interact

Sport Stadiums and Environmental Justice Timothy Kellison, 2022-12-14 This book explores the local environmental impact of sports stadiums and how that impact can disproportionately affect communities of color Offering a series of review articles and global case studies it illustrates what happens when sport organizations and other public and private stakeholders fail to factor environmental justice into their planning and operations processes It opens with an historical account of environmental justice research and of research into sport and the natural environment It then offers a series of case studies from around the world including the United States Canada Kenya South Africa and Taiwan These case studies are organized around key elements of environmental justice such as water and air pollution displacement and gentrification soil contamination and transportation accessibility They illustrate how major sports stadiums have contributed positively or negatively or both to the environmental health of the compact neighborhoods that surround them to citizens quality of life and in particular to communities that have historically been subjected to unjust and inequitable environmental policy Placing the issue of environmental justice front and center leads to a more complete understanding of the relationship between stadiums the natural environment and urban communities Presenting new research with important implications for practice this book is vital reading for anybody working in sport management venue management mega event planning environmental studies sociology geography and urban and regional planning The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Environment, Power, and Justice Graeme Wynn, Jane Carruthers, Nancy J. Jacobs, 2022-07-26 Spanning the

colonial postcolonial and postapartheid eras these historical and locally specific case studies analyze and engage vernacular activist and scholarly efforts to mitigate social environmental inequity This book highlights the ways poor and vulnerable people in South Africa Lesotho and Zimbabwe have mobilized against the structural and political forces that deny them a healthy and sustainable environment Spanning the colonial postcolonial and postapartheid eras these studies engage vernacular activist and scholarly efforts to mitigate social environmental inequity Some chapters track the genealogies of contemporary activism while others introduce positions actors and thinkers not previously identified with environmental justice Addressing health economic opportunity agricultural policy and food security the chapters in this book explore a range of issues and ways of thinking about harm to people and their ecologies Because environmental justice is often understood as a contemporary phenomenon framed around North American examples these fresh case studies will enrich both southern African history and global environmental studies Environment Power and Justice expands conceptions of environmental justice and reveals discourses and dynamics that advance both scholarship and social change Contributors Christopher Konz Marc Epprecht Mary Galvin Sarah Ives Admire Mseba Muchaparara Musemwa Matthew A Schnurr Cherryl Walker

Environmental Justice in African Philosophy Munamato Chemhuru, 2022-04-07 This book focuses on environmental justice in African philosophy highlighting important new perspectives which will be of significance to researchers with an interest in environmental ethics both within Africa and beyond Drawing on African social and ethical conceptions of existence the book makes suggestions for how to derive environmental justice from African philosophies such as communitarian ethics relational ethics unhu ubuntu ethics ecofeminist ethics and intergenerational ethics Specifically the book emphasises the ways in which African philosophies of existence seek to involve everyone in environmental policy and planning and to equitably distribute both environmental benefits such as natural resources and environmental burdens such as pollution and the location of mining industrial or dumping sites This extends to fair distribution between global South and global North rich and poor urban and rural populations men and women and adults and children These principles of humaneness relationships equality interconnectedness and teleologically oriented existence among all beings are important not only to African environmental justice but also to the environmental justice movement globally The book will interest researchers and students working in the fields of environmental ethics African philosophy and political philosophy in general

Critical Realism, Environmental Learning and Social-Ecological Change Leigh Price, Heila Lotz-Sistka, 2015-12-14 Southern Africa where most of these book chapters originate has been identified as one of regions of the world most at risk of the consequences of environmental degradation and climate change At the same time it is still seeking ways to overcome the century long ravages of colonial and apartheid impositions of structural and epistemic violence Research deliberations and applied research case studies in environmental education and activism from this region provide an emerging contextualized engagement that is related to a wider internationally articulated quest to achieve social ecological justice

resilience and sustainability through educational interventions This book introduces a decade of mainly southern African critical realist environmental education research and thinking that asks the question How can we facilitate learning processes that will lead to the flourishing of the Earth s people and ecosystems in more socially just ways The environmental education research topics represented in this book are wide ranging However they all exhibit the common theme of social justice and wanting to create change towards a better future All the authors have used critical realist or critical realist influenced research methodologies Offering contributions from a small but growing community of researchers working with critical realism in the global South this book will be of interest to students scholars and practitioners in the areas of environmental education sustainability development and the philosophy of critical realism in general **Environmental**

Justice David E. Newton,2009-07-08 *Environmental Justice A Reference Handbook Second Edition* offers a current overview of the environmental inequities faced by poor and minority communities and the development of the grassroots movement working to address them Building on the original edition s focus on the link between social inequalities and the uneven distribution of environmental hazards in the air water and soil *Environmental Justice A Reference Handbook Second Edition* presents a contemporary look at the convergence of the environmental movement and civil rights activism *Environmental Justice Second Edition* follows the rise and maturation of the movement focused on environmental racism describes solutions that have been implemented and examines issues that remain unresolved The book offers a wealth of new data and information particularly in its expanded coverage of environmental disparities in developing countries and its rich bibliography of print and online resources *What is Critical Environmental Justice?* David Naguib Pellow,2025-05-14

Human societies have always been deeply interconnected with our ecosystems but today those relationships are witnessing greater frictions tensions and harms than ever before These dynamics mirror those experienced by marginalized communities across the planet but they also provide a foundation for transformative thinking and action to address these challenges In this updated edition of his innovative contribution David Naguib Pellow introduces a new framework for critically analyzing Environmental Justice scholarship and activism In doing so he extends the field s focus to topics not usually associated with environmental justice including policing incarceration the Israel Palestine conflict and the Black Lives Matter movement In doing so he reveals that ecological violence is first and foremost a form of social violence driven by and legitimated by social structures and discourses He enriches this radical approach to Environmental Justice by drawing on Indigenous Studies the Black Radical Tradition Disability Studies Queer and Transgender Studies and Multi Species Justice among others Those already familiar with the discipline will find themselves invited to think about the subject in entirely new ways This book is a vital resource for students scholars and policy makers interested in innovative approaches to one of the greatest challenges facing humanity and the planet **Governing Natural Resources for Sustainable Peace in Africa**

Obasesam Okoi,Victoria R Nalule,2023-12-18 This book examines the dynamics of natural resource conflicts in Africa and

explores the different governance approaches for securing sustainable peace. One of the most prominent challenges facing Africa today is the consequences of natural resource extraction. While these resources hold the potential for economic transformation across Africa, their extraction also comes with a range of environmental, social, and economic consequences, including issues related to governance. This book assembles a unique cohort of peacebuilding, environmental justice, and sustainable development scholars and practitioners from Africa and beyond to examine the dynamics of natural resource conflict and explore the governance approaches that offer pathways for sustainable peace in Africa. Drawing on case studies and empirical lessons from the Horn of Africa, Southern Africa, West Africa, East Africa, and the Central Sahel region, along with the African Union, the multidisciplinary contributors offer fresh insights into the nature of natural resource conflict in Africa, delve deeper into the complexities of natural resource governance, and highlight the interplay between resource governance and sustainable peace. By shedding light not only on Africa's experiences and vulnerabilities but also on the challenges of natural resource governance, this book fills a crucial gap in understanding the connection between natural resource governance, conflict, and pathways for sustainable peace in Africa. Drawing on a range of disciplinary perspectives, this book will be of interest to students and scholars of natural resource governance, peace and conflict studies, environmental policy, and justice, sustainable development, security studies, and African studies more widely.

The Geography of South Africa Jasper Knight, Christian M. Rogerson, 2018-10-03. This edited collection examines contemporary directions in geographical research on South Africa. It encompasses a cross section of selected themes of critical importance not only to the discipline of Geography in South Africa but also of relevance to other areas of the Global South. All chapters are original contributions providing a state-of-the-art research baseline on key themes in physical, human, and environmental geography and in understanding the changing geographical landscapes of modern South Africa. These contributions set the scene for an understanding of the relationships between modern South Africa and the wider contemporary world, including issues of sustainable development and growth in the Global South.

The Quest for Environmental Justice Robert Doyle Bullard, 2005. A new collection of essays capturing the voices of frontline warriors who are battling environmental injustice and human rights abuses at the grassroots level around the world.

A Case for Environmental Justice Edwin Etieyibo, 2022-11-28. Issues of the environment and its sustainability are linked to those of global warming, climate change, and loss of biodiversity. This is so because there is a general consensus in the scientific community that the long-term shift or alteration of temperature and weather patterns, both locally and globally, are the result of human activities, not the least those of burning of fossil fuels, deforestation, agricultural practices, land use changes, pollution. Accordingly, questions of environmental justice arise because of the threat that anthropogenic climate change poses to our planet. This book examines these issues using as its point of departure environmental justice, where environmental justice is concerned with environmental sustainability and the equitable treatment and involvement of people of all races, cultures, incomes, and educational levels in the development.

implementation and enforcement of environmental programs laws rules and policies The book discusses among other things the population and consumption debate with regard to resource depletion and loss of biodiversity problems of global policing of environmental pollution and greenhouse gas emissions by nation states in the context of the tragedy of the commons and possible solutions to some of these problems from African and Native American philosophies and worldviews

Environmental Justice and the Rights of Unborn and Future Generations Laura Westra, 2012-05-04 1 The child's rights to health and the environment and the role of the World Health Organization 2 The status of the preborn in civil law instruments 3 The status of the child and the preborn in common law instruments and cases 4 Supranational governance the European Court of Human Rights and the WTO WHO conflict 5 The impact of consumerism and social policy on the health of the child 6 Future generations rights linking intergenerational and intragenerational rights in ecojustice 7 Ecojustice and consideration for the future the persistence of ecofootprint disasters 8 Ecojustice and industrial operations irreconcilable conflict or possible coexistence 9 Developmental and health rights of children in developing countries towards a model legislation for the rights of the child to health
