Philanthropy and the Business Corporation Marion R. Fremont-Smith, 1972-11-30 Attempts to study corporation philanthropy inevitably prove frustrating for it is a subject surrounded by rhetoric and almost entirely devoid of hard facts Marion R Fremont Smith s concise appraisal of corporation philanthropy takes a close look at the donative policies of corporations and their methods of giving Concentrating on the legal and historical setting as well as corporation philanthropy in practice the author analyzes recent expansion in the field of traditional philanthropy and the accompanying shift in public attitude toward the responsibility of business corporations The book shows how this new attitude has brought with it a reappraisal of the philosophical and legal bases for corporate action in the social sphere In conclusion Mrs Fremont Smith calls for a more imaginative and independent definition of the objectives of corporate philanthropic policies and not merely a continuing series of ill considered defensive reactions Economic Factors in the Growth of Corporation Giving ,1991

**Statistical Abstract of the United States** ,1976 **The Economics of Art Museums** Martin Feldstein, 2009-05-15 The National Bureau of Economic Research organized a project to explore the economic issues facing the major art museums of the United States For this purpose NBER defined economics broadly to include not only the financial situation of the museums but also the management and growth of museum collections the museums relationship with the public and the role of the government in supporting art museums This volume brings together nontechnical essays on these issues by economists associated with the NBER and personal statements by leaders of America s major national art

museums and related foundations It can be read not only by economists but also by museum officials and trustees Museum directors generally come to their responsibilities with a background in art history and curatorial work but without experience in thinking about the management and public policy aspects of museum administration Trustees who serve on museum boards generally have a background in business or law but have not previously tried to apply their experience to the unusual economic problems of museums The background papers the panelists remarks and the summary of the discussion will help them to approach their responsibilities with a better understanding of the problems and possibilities of the museum

Federal Tax Policy and Charitable Giving Charles T. Clotfelter, 2007-12-01 The United States is distinctive among Western countries in its reliance on nonprofit institutions to perform major social functions This reliance is rooted in American history and is fostered by federal tax provisions for charitable giving In this study Charles T Clotfelter demonstrates that changes in tax policy effected through legislation or inflation can have a significant impact on the level and composition of giving Clotfelter focuses on empirical analysis of the effects of tax policy on charitable giving in four major areas individual contributions volunteering corporate giving and charitable bequests For each area discussions of economic theory and relevant tax law precede a review of the data and methodology used in econometric studies of charitable giving In addition new econometric analyses are presented as well as empirical data on the effect of taxes on foundations While taxes are not the most important determinant of contributions the results of the analyses presented here suggest that charitable deductions as well as tax rates and other aspects of the tax system are significant factors in determining the size and distribution of charitable giving This work is a model for policy oriented research efforts but it also supplies a major and very timely addition to the evidence that must inform future proposals for tax reform **Foundation News**, 1971 *Monthly Labor Review*, 1970 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews **Americanizing Japanese Firms** Yukio Yotsumoto, 2010-05-10 Americanizing Japanese Firms examines the concept of corporate social responsibility in Japanese manufacturing companies within the United States The study compares the corporate philanthropy of Japanese companies against American and British companies Specifically the study investigates characteristics of Japanese companies that influence the level and nature of the corporate philanthropy undertaken The relationship between size of the company and the level and nature of corporate social responsibility is also examined Finally the study explores how Japanese corporations learn about the American approach of corporate philanthropy In his investigations the author considered two contexts first the constitutions of Japan and the United States are analyzed at a national level to determine the position or importance of corporate philanthropy within the societies comparatively and second the communities in which corporations are located and act for social contribution are investigated **Historical Statistics of the United States, Colonial Times to 1970** United States.
