**Elinor Ostrom and the Bloomington School** Jayme Lemke, Vlad Tarko, 2021-08-04 Elinor Ostrom was the first female winner of the Nobel Prize in economics and her achievement has generated renewed interest in the Bloomington School research program in institutional economics and political economy These essays showcase Ostrom s extensive and lasting influence throughout economics and the wider social sciences Contributors contextualize the Bloomington School within schools of economic thought and show how Ostrom s distinct methodology has been used in policy making and governance Case studies illustrate the value of civic involvement within public policy a method pioneered by Ostrom and the Bloomington School Elinor Ostrom and the Bloomington School provides a valuable resource for those keen to understand Ostrom s approach especially when applied to policy making and wider use in the social sciences Readers new to the Bloomington School will be introduced to its central areas of research while those already familiar with the school will appreciate its subtle connections to other disciplines and research agendas

**The New Institutional Economic History of Douglass C. North** Matthijs Krul, 2018-08-28 This book offers a comprehensive assessment of Douglass North s contribution to economics and the social sciences by examining the origins and structure of his New Institutional Economic History NIEH Informed by contemporary debates in the philosophy of economics Krul describes the evolution of North s theory from mainstream economics to an increasingly heterodox form of New Institutionalism He also examines what North s original aims were in developing the NIEH research programme and how well it has achieved these aims By exploring major themes in North s NIEH with an emphasis on the final stage of his theory Krul sheds new light on the strengths and weaknesses of North s work He also discusses the

implications of this critical interpretation for the New Institutionalism in economics and other fields of social science

**Evolving Approaches to the Economics of Public Policy** Jean Kimmel, 2016-11-15 For policymakers economics is a useful tool in the development and evaluation of public policy And like many sciences economics is evolving to become more interdisciplinary in its approach Today economic theory is often used in conjunction with insights gleaned from psychology and sociology to create a more inclusive real world approach to implementing public policy In this book five award winning economists tackle a diverse range of topics and show how applied economics has evolved to give policymakers a more nuanced approach to policy development The award winning economists included in this volume are Erica Field Nancy Folbre Avner Grief David M Kreps and Michael J Piore and the topics they discuss include microfinance human capital societal institutions worker motivation and workplace regulation

The Economic Structure of International Law Joel P. Trachtman, 2008-11 The Economic Structure of International Law presents a rationalist analysis of the structure of international law It employs social scientific techniques to develop an understanding of the role of law in international society In doing so it delves into the question of compliance and reveals the real world circumstances under which states might adhere to or violate international law Joel P Trachtman explores such topics as treaty making and jurisdiction the rise stability and efficiency of custom the establishment of international organizations and the structure and role of international legal dispute settlement At the core of the book lies the question of the allocation of legal power to states The Economic Structure of International Law presents policymakers and scholars with an over arching analytical model of international law one that demonstrates the potential of international law but also explains how policymakers should choose among different international legal structures

The International Economic Law Revolution and the Right to Regulate Joel P. Trachtman, 2006 A collection of 13 previously published articles

*Economics As a Science of Human Behaviour* Bruno S. Frey, 2013-06-29 This book champions the view that economics is a social science and that moreover it may serve as a new paradigm for the social sciences Economics is taken to be part of those sciences which deal with actual problems of society by providing insights improving our understanding and suggesting solutions I am aware that the way problems are addressed here has little in common with economics as it is generally understood today most economists make strong efforts to imitate the exact sciences Economics tends to become a branch of applied mathematics the majority of all publications in professional journals and books are full of axioms lemmas and proofs and they are much concerned with purely formal deductions Often when the results are translated into verbal language or when they are applied empirically disappointingly little of interest remains The book wants to show that another type of economics exists which is surprisingly little known This type of economics has its own particular point of view It centres on a concept of man or a model of human behaviour which differs from those normally used in other social sciences such as sociology political science law or psychology I do not however claim that economics is the only legitimate social science On the vii viii PREFACE contrary economics can provide useful

insights only in collaboration with the other social sciences an aspect which has been disregarded by mathematically oriented economics      *Developing Property Rights Theory* Shaoan Huang,2023-11-08 This book aims to interpret China's property rights reform since 1978 on theory level Property rights reform is no doubt the essential for economic system reform which led to China's economic miracle in the past 40 years Neither modern property rights theory nor Marxism can explain all issues around Chinese complex economic system reform The book sheds light on the theory development through comparative study and China focused research      Law and Economic Performance in the Roman World ,2022-09-26 This

book offers critical analyses of the dynamic relation between legal regulations institutions and economic performance in the Roman world It studies how law and legal thought affected economic development and vice versa Inspired by New Institutional Economics scholars the past decades used ancient law to explain economic growth There was however no natural selection process directing legal changes towards macro economic efficiency Ancient rulers and jurists modified institutions to serve or safeguard particular interests political social or economic Nevertheless both economic performance and legal scholarship peaked at unprecedented levels These were momentous historical developments How were they related
