Ahmad Bhat,Muneeb Ahmad Malik**

Economics Of Food Management In Jammu And Kashmir A Chronology Of Mismanagement:

Economics of Food Management in Jammu and Kashmir Mohammad Shafi Dar, 1999 **Novel Approach to**

Sustainable Temperate Horticulture Gulzar Ahmad Nayik, Sajad H. Wani, Vajahat Khursheed, Mohammad Javed

Ansari, 2024-08-27 In the current scenario marked by a continual improvement in living standards it becomes imperative to boost the productivity as well as the efficiency of agriculture especially horticulture which holds the potential for significant economic prosperity aligning with Sustainable Development Goal number 8 Decent Work and Economic Growth Modern technological interventions such as geospatial technology and geographic information system GIS technology can be harnessed to yield effective results in addressing challenges and providing enhanced decision support particularly in the planning of horticultural resource management Cultivation and production of fresh produce face several challenges including prolonged juvenile phases and reproductive cycles with extended breeding periods creating bottlenecks in the process The evolving trends in biotechnology offer promising solutions for improving the selection of desirable traits Biotechnological techniques aimed at improving fruit efficiency encompass tissue culture induction of genetic variability germplasm conservation and molecular breeding genomics These methods involve the study of genetic diversity DNA fingerprinting and Quantitative Trait Loci QTL analysis for marker assisted selection Over the past few decades the global population has consistently risen raising concerns about the ability of the current food system to adequately feed the anticipated 10 billion people in the next 30 years While this challenge is deemed achievable certain changes in both food production and consumption systems are essential to ensure sustainability reduce food loss and waste and contribute to a global shift toward healthier and more sustainable diets Implementing sustainable models of crop production represents a significant undertaking To address the growing food demand amid deteriorating production environments there is a need for promising technologies and effective management options to enhance productivity This book is poised to be a valuable resource for horticultural scientists operating in universities government agencies and research centers offering insights into achieving sustainable cultivation practices for fruits It stands out as the first of its kind providing in depth knowledge on environmentally friendly methods for cultivating temperate fruit crops to reduce harmful emissions and pollution This book will delve into the application of geographic information system GIS for estimating horticulture area expansion and crop yield Additionally it will encompass recent biotechnological interventions in horticulture circular agriculture models and emerging non thermal food preservation techniques as significant components Features Aims to provide a comprehensive and integrated overview of current techno statistical techniques employed in horticulture delving into the associated livelihood benefits derived from the practice Explores the novel geographical trends to identify the site suitability indices of several temperate fruits Offers a comprehensive and integrated exploration of recent trends in biotechnological approaches aimed at enhancing food production quality and safety *Integrated Waste Management Approaches for Food and Agricultural*

Byproducts Tawheed Amin, Omar Bashir, Shakeel Ahmad Bhat, Muneeb Ahmad Malik, 2023-06-23 Food wastage has become a major problem with about one third of all food produced for human consumption going to waste leading to major socioeconomic and environmental consequences in an increasingly resource constrained world This volume embraces integrated management as a solution to food and agricultural wastage It presents methods to lessen reuse recycle and manage wastage by merging and employing a variety of suitable methods equipment and organizational plans The volume begins with a global overview of the characterization of food and agricultural wastes It then delves into using food processing applications that use byproducts as sources of valuable bioenergy and recoverable products It explores methods for reducing reusing and recycling waste along with basic and modern environmental practices for food and agricultural waste management Chapters discuss food waste management in conjunction with enhancing food security and sustainability and management strategies that offset the impact of food and agricultural wastes on the environment Finally the book looks at the challenges and opportunities that are associated with food and agricultural waste management across the globe

Bibliography of Agriculture with Subject Index ,1985 **Contesting Conservation** Saloni Gupta, 2018-02-03 This book explores today's changing intellectual climate wherein understanding politics at different levels from global to local is considered mandatory in order to appraise the outcome of nature conservation interventions By carefully examining two such processes the ban on shahtoosh trade and the National Afforestation Programme in the Indian state of Jammu and Kashmir the book reveals how these processes are influenced by politics at different levels from their introduction at the macro level to their implementation at the micro level and in turn become coloured by the agendas and interests of the various stakeholders involved Throughout the book one priority is to give a voice to the poor resource users who have been traditionally dependent on wildlife and forest resources for mere subsistence Yet these same people are who bear the brunt of nature conservation costs rather than those actors who are responsible for the most serious violations in pursuit of greater profits Contemporary Environmental Sociology is chiefly characterised by its focus on power relations in resource conservation and management In political ecology literature too especially after recognising the paradoxes and limitations of approaches such as sustainable development sustainable livelihoods and community based natural resource management there is a growing concern for critical analyses of multi level politics in connection with nature conservation The purpose of the book is not to challenge the gravity of environmental concerns but to question the dominance of conservation interests over the subsistence needs of local communities and to strike a balance between environmental and social justice It argues that unless and until more just accountability for the affected populations is ensured conservation policies are unlikely to meet the goals of sustainable resource management Given its critical engagement with human nature conflicts in Jammu and Kashmir the book offers a unique resource for students and scholars of Environmental Sociology Political Ecology Natural Resources Management Conflict Studies and Human Rights Studies **Fundamental of Watershed Management** Mr.

Economic & Social Dimensions: Engine for Growth Dr. Rayeesa Akhter, Shakeel Manzoor,2019-11-11 The promotion of competitiveness has been seen as a way of achieving desirable changes in economy and society at the cost of growth and development However it should be noted that productivity and growth that is accompanied by increasing social imbalance to achieve desirable changes in economy and society has sometimes negative consequences for the growth and development The chapters compiled in this book from economical and social science researchers have generated awareness about the sustainable amalgam of these three subjects This book contains 12 chapters from different scholars within the country In fact these chapters will be quite helpful for students who are keen to learn the multidisciplinary approach in these fields Since the growth and development is taking place at a very fast rate there is a need to promote such type of studies so that people will not adopt the measures to gain economy at the cost of environment This book can be used as a reference book for future researchers for their multidisciplinary approach We do not intend for this book to be scientifically and technically complete In fact many complex multidisciplinary issues have been simplified by using this approach *The Indian National Bibliography*,2018 *Epilogue, Vol 3, Issue 12*, **Bibliography of Agriculture**,1973 *Bulletin of the Atomic Scientists*,1986-04 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world Case Studies in Marketing Management S. Ramesh Kumar,2012 *Accessions List, South Asia* Library of Congress.
