Trends in European Defense Spending, 2001-2006 Wan-Jung Chao, Greg Sanders, Guy Ben-Ari, 2008. Since 2001 Europe finds itself increasingly involved in international military operations. NATO responded to the attacks of 9/11 by invoking for the first time in its history Article 5 of the Washington Treaty, the alliance's collective defense clause, and European military assets were deployed to the United States, the Mediterranean Sea, and Afghanistan. Deployable rapid response forces were created by NATO, the NATO Response Force, and by the European Union, the Battle Groups. The EU Security Strategy formulated in 2003 lists combating terrorism, countering the spread of weapons of mass destruction, dealing with failed and failing states, and responding to regional emergencies as scenarios that may require military intervention. National governments also increased their commitments to international security and stabilization efforts. They have deployed military forces to operations in the Democratic Republic of Congo, East Timor, Darfur, and Chad, as well as contributed troops to UN peacekeeping operations worldwide. And at home and overseas, European militaries are stepping up efforts to prepare for and respond to natural disasters and humanitarian crises. In light of this upsurge in military preparations and deployments, it is important to track trends in European defense spending. Doing so can help answer many critical questions: for example, have defense budgets in Europe grown or declined, and by how much? How have European defense budgets fared given changes in national economies? How much are European governments spending on defense procurement and research and development (R&D)? Ultimately, if government spending is an indicator of the priority given to policy areas, understanding trends in defense spending can shed light on whether Europe is indeed serious about improving its military capabilities. This report seeks to provide the data and analysis needed to answer these questions. It presents the defense spending trends of all European countries, including the 25 EU member states as well as Albania, Bosnia Herzegovina, Bulgaria, Croatia, Macedonia, Moldova, Norway, Serbia, and Montenegro, Romania, Switzerland, and Turkey. The data were gathered from various sources in an attempt to present broad European trends as well as in-depth analyses of specific countries.

Goh Keng Swee: A Legacy Of Public Service Emrys Myles Khean Aun Chew, Chong Guan Kwa, 2012-04-19. Dr Goh Keng Swee's extensive career as a public servant was dynamic as well as distinguished in many ways, decisively instrumental in the making of the Republic of Singapore. This distinctive collection of essays attempts an assessment of the long-term influence and significance of Dr Goh's major contributions. Envisaged as a companion volume to *Goh Keng Swee: A Public Career Remembered*, this volume brings together an exceptional team of Singaporean scholars.

whose interdisciplinary expertise and cross generational perspectives offer a balanced analysis and nuanced appraisal of Dr Goh's lifetime of public service. The book's contributors argue that Dr Goh's past endeavours bequeathed an enduring legacy meriting fresh examination and careful evaluation in order to appreciate the heroic scale of such achievement. Particularly instructive are the examples of Dr Goh's thinking: patriotism, fiscal prudence, strategic pragmatism and creative imagination at work, technocracy at its finest, which could be of immediate practical benefit to a wider nation of technocrats. Further illumination comes from the insights of those contributors who had worked with the former Deputy Prime Minister and knew him personally. For a half century that witnessed key turning points and phases of development in Singapore's transformation from colonial port city to independent global city, Dr Goh played a leading role in the crafting and conduct of public policy as with the creation of public institutions which made the difference between survival and success. The organization of this volume reflects both a thematic approach and a chronological arrangement of material: the focus and the order of chapters corresponding to the historical sequence of public offices that Dr Goh held: social welfare, political and constitutional evolution, development, economics and finance, the armed forces and defence industry, the education system from schools through higher education to the research institutes, Chinese studies from Confucianism to China watching and cultural development, with special emphasis on the creation of the Singapore Symphony Orchestra.

Goh Keng Swee: A Legacy of Public Service will be read by present and future generations of public servants by Singaporeans in general and by all students and laypersons with an interest in the modern history of Singapore: social, economic, political, military and cultural, to which a characteristically simple and frugal Dr Goh contributed both decisively and unreservedly. *Goh Keng Swee* Emrys Chew, Chong Guan Kwa, 2012.

The Rise of Israel Jonathan Adelman, 2008-03-25. The state of Israel is one of the most controversial countries in the world. Yet its unique creation and rise to power in 1948 has not been adequately explained either by its friends, mainstream Zionists, nor by its detractors, Arabists and post Zionists. Using a variety of comparative

methodologies from contrasting the Jewish state to other minorities in the Ottoman Turkish Empire to the rise of the four Tigers in Asia to newly independent countries and revolutionary socialist countries in Europe and Asia Jonathan Adelman examines how Israel has gained the strength to overcome great obstacles and become a serious regional power in the Middle East by 2007 Themes addressed include how the creation of Israel is strikingly different from that of most new states as undetermined by the major structural forces in the world in the twentieth century how voluntarist forces those of individual choice will and strategy played a major role in its creation and success in depth analysis of the creation of a revolutionary party government army and secret police as critical to the success of the socialist revolution 1881 1977 the enormity of the forces aligned against the state from major international and religious organizations representing billions of people international reluctance to helping Israel in crisis and internal Israeli and Jewish issues the tremendous impact of revolutionary socialist and semi capitalist nationalist factors in giving Israel the strength to survive and become a significant regional power over time Jonathan Adelman provides a fresh perspective to view one of the most controversial states in the world and avoids the highly charged ideological descriptions that often plague such discussions Understanding the rise of Israel a central state in the region helps to explain a great deal about the Middle East today

The Globalization of Israel

Uri Ram, 2013-10-18 This book focuses on how globalization is impacting contemporary Israel It is a concise and originally argued introduction to Israel but the author Uri Ram is careful to frame his analysis in a broader discussion of Israeli history and broader social currents Focusing in particular on two defining and conflicting contemporary trends one toward advanced liberal democracy with a cosmopolitan edge and the other toward ethno religious traditionalism and rejection of the secularism associated with market driven globalization The cosmopolitan high tech driven city of Tel Aviv represents the former trend and Jerusalem a city increasingly dominated by orthodox Jews represents the latter Using Benjamin Barber's Jihad versus McWorld thesis to good effect Ram's book will stand as an ideal introduction to contemporary Israel and its place in the world

Defending the Holy Land Zeev Maoz, 2009-04-15 Defending the Holy Land is the most comprehensive analysis to date of Israel's national security and foreign policy from the inception of the State of Israel to the present Author Zeev Maoz's unique double perspective as both an expert on the Israeli security establishment and esteemed scholar of Mideast politics enables him to describe in harrowing detail the tragic recklessness and self made traps that pervade the history of Israeli security operations and foreign policy Most of the wars in which Israel was involved Maoz shows were entirely avoidable the result of deliberate Israeli aggression flawed decision making and misguided conflict management strategies None with the possible exception of the 1948 War of Independence were what Israelis call wars of necessity They were all wars of choice or worse folly Demonstrating that Israel's national security policy rested on the shaky pairing of a trigger happy approach to the use of force with a hesitant and reactive peace diplomacy Defending the Holy Land recounts in minute by minute detail how the ascendancy of Israel's security establishment over its foreign policy apparatus led to unnecessary wars and missed opportunities for peace A scathing and brilliant revisionist history Defending the Holy Land calls for sweeping reform of Israel's foreign policy and national security establishments This book will fundamentally transform the way readers think about Israel's troubled history Zeev Maoz is Professor of Political Science at the University of California Davis He is the former head of the Graduate School of Government and Policy and of the Jaffee Center for Strategic Studies at Tel Aviv University as
