**A Semiotic Theory of Theology and Philosophy** Robert S. Corrington, 2000-11-09 The concern of this work is with developing an alternative to standard categories in theology and philosophy especially in terms of how they deal with nature Avoiding the polemics of much contemporary reflection on nature it shows how we are connected to nature through the unconscious and its unique way of reading and processing signs Spinoza's key distinction between *natura naturans* and *natura naturata* serves as the governing framework for the treatise Suggestions are made for a post Christian way of understanding religion Robert S Corrington's work represents the first sustained attempt to bring together the fields of semiotics depth psychology pragmatism and a post Monotheistic theology of nature Its focus is on how signification functions in human and non human orders of infinite nature Our connection with the infinite is described in detail especially as it relates to the use of sign systems

Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom      **Concerning Creativity** John H. and method through an abyss In his writings Tillich expressed the ambiguity and groundlessness of being the depth structure of the human condition and the reality of God as an abyss The more we gaze into this abyss the more we encounter the faults in our various foundations This book outlines how Tillich s concept of the abyss creates greater opportunities for complexity and liminality and opens up a space where life and death destruction and construction fecundity and horror womb and tomb can coincide
