Economic Policy And Democratic Thought Pennsylvania 1776 186:

Tom Paine and Revolutionary America Eric Foner, 2005 Since its publication in 1976 *Tom Paine and Revolutionary America* has been recognized as a classic study of the career of the foremost political pamphleteer of the Age of Revolution and a model of how to integrate the political intellectual and social history of the struggle for American independence Foner skillfully brings together an account of Paine's remarkable career with a careful examination of the social worlds within which he operated in Great Britain France and especially the United States He explores Paine's political and social ideas and the way he popularized them by pioneering a new form of political writing using simple direct language and addressing himself to a reading public far broader than previous writers had commanded He shows which of Paine's views remained essentially fixed throughout his career while directing attention to the ways his stance on social questions evolved under the pressure of events This enduring work makes clear the tremendous impact Paine's writing exerted on the American Revolution and suggests why he failed to have a similar impact during his career in revolutionary France And it offers new insights into the nature and internal tensions of the republican outlook that helped to shape the Revolution In a new preface Foner discusses the origins of this book and the influences of the 1960s and 1970s on its writing He also looks at how Paine has been adopted by scholars and politicians of many stripes and has even been called the patron saint of the Internet

Deserter Country Robert M. Sandow, 2009-08-25 A balanced compelling study of one rural region in the North where war resistance flourished Civil War Times During the Civil War there were explosions of resistance to the war throughout the Union from the deadly draft riots in New York City to other less well known outbreaks In *Deserter Country* Robert M Sandow explores one of these least known inner civil wars the widespread sometimes violent opposition in the Appalachian lumber country of Pennsylvania Sparsely settled these mountains were home to divided communities that provided a safe haven for opponents of the war The dissent of mountain folk reflected their own marginality in the face of rapidly increasing exploitation of timber resources by big firms as well as partisan debates over loyalty One of the few studies of the northern Appalachians this book draws revealing parallels to the War in the southern mountains exploring the roots of rural protest in frontier development the market economy military policy partisan debate and everyday resistance Sandow also sheds new light on the party politics of rural resistance rejecting easy depictions of war opponents as traitors and malcontents for a more nuanced and complicated study of class economic upheaval and localism

essential Three major conclusions emerge from Philip L White s study of Beekmantown New York First the economic advantages of the frontier attracted a first generation of settlers relatively high in social and economic status but the disappearance of frontier conditions brought a second generation of settlers appreciably lower in status Second White rejects the romantic notion that the frontier fostered equality and argues instead that the frontier s economic opportunities fostered inequality Finally in contrast to revisionist arguments he affirms that in Beekmantown the Jacksonian period does indeed warrant characterization as the era of the common man This book represents a model in community history the narrative is full of human interest the scholarship is prodigious the applications are universal *The Visible Hand* Alfred Dupont Chandler,1977 The role of large scale business enterprise big business and its managers during the formative years of modern capitalism 1850s 1920s is delineated in this pathmarking book Alfred Chandler Jr sets forth the reasons for the dominance of big business in American transportation communications and central sectors of production and distribution
