Russia in the Changing International System Emel Parlar Dal, Emre Erşen, 2019-08-26 This volume seeks to explore Russia's perceptions of the changing international system in the twenty first century and evaluate the determinants of Russian motives roles and strategies towards a number of contemporary regional and global issues The chapters of the volume discuss various aspects of Russian foreign policy with regard to key actors like the U S EU and China international organizations such as the BRICS Shanghai Cooperation Organization Eurasian Economic Union and Collective Security Treaty Organization and a number of regional conflicts including Ukraine and Syria The contributors seek to understand how the discourses of anti Westernism and post Westernism are employed in the redefinition of Russia's relations with the other actors of the international system and how Russia perceives the concept of regional hegemony particularly in the former Soviet space and the Middle East

The Rise Of The New Economic Powers And The Changing Global Landscape Haico Ebberts, 2022-12-19 This book explores the catching up process of a group of large emerging markets the New Economic Powers This process is extremely robust and should be considered as the defining trend of our age resulting in a pivotal change in world economics and politics The outcome is that the West cannot dominate the world as it did in the previous 200 years Today's world is pluralistic and the larger emerging markets are becoming increasingly influential That is the new reality which at times caused and will cause further discomfort and uncertainty in the West In the eight chapters the viewpoints on globalization of nine New Economic Powers are discussed Each chapter is an essential element in understanding the process of globalization and the role the New Economic Powers play in it Essentially their views are guided by a fundamental different look about the role of the market and the government in society compared to what we see in the West The New Economic Powers understand the power of the market to create prosperity but at the same time emphasize the need for government interference This delicate balance is particularly visible with respect to their international trade and investment policies which bring them in conflict with Western countries and multilateral institutions such as the WTO and the IMF The book helps the reader to understand the fundamental choices made by policymakers in the New Economic Powers
