International Economic Integration and Asia Michael G. Plummer, Erik Jones, 2006 Regional economic integration has become a key force in international commercial policy in the 2000s Europe has traditionally embraced regionalism the United States became actively involved in preferential trading arrangements only in the 1980s While Asia has been late in accepting formal regional economic integration accords all Asian countries are now in the process of creating various free trade areas and other forms of economic integration programs and some are already in place This volume analyzes the regionalism trend from an Asian perspective It considers the lessons from and the economic implications of various economic integration programs in the OECD mostly the EU but also NAFTA as well as the proposals for closer economic integration in the region itself Chapters deal with both real and financial integration issues Sample Chapter s Chapter 1 East Asian Economic Regionalism Progress and Challenges 1 660 KB Contents Introduction M G Plummer East Asian Economic Regionalism Progress and Challenges M Kawai Sequencing Regional Integration in Asia R Pomfret ASEAN 3 Is an Economic Community in Their Future J Angresano Stock Market Performance in ASEAN Is Institutional Integration Warranted R W Click The Institution of a Single Currency Area Lessons for Asia from the European Monetary Union S Rossi Deep Integration and Its Impacts on Non Members EU Enlargement and East Asia H Lee Small Change A Critical Examination of the Economic Relationship Between South Asia and the European Union J W Moses and Maggi Brigham The Effects of North South Regional Trade Policies A Comparison of Mediterranean Countries with ASEAN N P r ridy Reconciling the Tensions Between Regional Integration and Cohesion M Farrell Lessons for Asia Legitimacy and Quasi Democratic Mechanisms in European and American Market Integration C Parsons J D Richardson Readership Academics policymakers professionals and students interested in applied international economics and Asian economic integration **New Economic Partners** Organisation for Economic Co-operation and Development, 1994 **Economic Management And Transition Towards A Market Economy: An Asian Perspective** Anthony Theng Heng Chin, Hock Guan Ng, 1996-10-04 Much attention has been focused in recent years on the transformation of the economies of Eastern and Central Europe and the former Soviet Union However a growing demand for policy advice technical assistance and expertise is also coming from Asian reforming countries such as China Mongolia Vietnam Laos and Cambodia In addition business communities abroad are increasingly interested in exploring investment and marketing opportunities in these reforming countries Such developments are too important to overlook or ignore The transformation of socialist economies towards market based systems entails an unusually wide range

of problems Studies of related topics are complicated by the speed of the changes and the lack of clear historical precedents Although the structural features of Asian reforming economies are in important ways different from those of the Eastern European economies all socialist economies share similar fundamental conditions on the eve of economic reform which raise a similar set of reform issues This volume brings together a rich collection of expertise and information in an attempt to shed some light on the transitional process in Asia The contributions are by no means exhaustive However they provide the reader and analyst with an excellent starting point to the problems and prospects which are specific to Asian transforming East Asian Regionalism from a Legal Perspective Tamio Nakamura, 2009-06-08 Plenty has been written about the political and economical aspects of regionalism but the legal perspective has been neglected East Asian Regionalism From a Legal Perspective is unique in synthesizing legal economic and political analyses In the first part the book investigates the current features of regionalism from a comparative perspective looking at economic and currency cooperation and comparing Asian regionalism with Europe and Latin America In the second part the contributors go on to look at the present legal features of regionalism covering institutional frameworks trade diversity and regional integration The third part of the book is truly unique in proposing an essential groundwork for the institutionalisation of an East Asian Community It conceives a draft East Asian Charter an essential document that distils what East Asian nations have achieved and also includes integral principles and fundamental rules for future cooperation among countries and peoples in the region This book will be of interest to graduates and academics interested in regionalism international relations international law and Asian studies European Economic Integration as a Challenge to Industry and Government Richard Tilly, Paul J.J. The prerequisite for the development of the central market mentioned was the establishment of sound public fInances based on the state s widely accepted power to tax
