Economics And Politics Of World Sugar Policies:

The Economics and Politics of World Sugar Policies Steven V. Marks, Keith Eugene Maskus, 1993 Examination of trade in one of the most important agricultural products *Economics and Politics of World Sugar Policies* Stephen V. Marks, Keith E. Maskus, 2025-10-01 Around the world markets for producing and consuming sugar and related sweeteners are heavily distorted by trade barriers output controls price supports and government subsidies These policies have significant and identifiable impacts on the economic well being of different groups in various countries The net effect of these global distortions is to damage world welfare at the same time that the various national policies reduce economic well being in the countries that impose them Sugar policy is the perfect example of how the political imperatives of support for agricultural interests dominate considerations of national welfare or international relations The contributors provide rigorous analyses of world sugar markets and the distortions caused by policies in the major countries They employ several numerical modeling techniques to describe and assess the impacts of world sugar programs These calculations are buttressed by complementary discussions of the political and economic rationales underlying sugar protection and support The contributions to *The Economics and Politics of World Sugar Policies* combine survey evidence with new modeling results from econometric approaches and applied equilibrium simulations to provide new assessments of the current state of world sugar markets Several original results are presented that shed new light on the impacts of sugar protection This book should be of considerable interest to agricultural economists trade policy analysts and specialists in international relations and development economics It is highly relevant for understanding both the economics of agricultural protection and the politics of farm support *Agricultural Policy for the 21st Century* Luther G. Tweeten, Stanley R. Thompson, 2008-06-02 Agricultural policy reform has become a very hot topic Over the next couple of years we will see the funding for these programs being hotly debated The thesis of this book is that a better informed public is essential to bring rationality to farm policy This book provides telling evidence that markets work that competent commercial farmers will earn returns on their resources as high as those earned elsewhere in the absence of income transfer to farmers **Sugar: Refined Power in a Global Regime** B.

Richardson, 2009-09-23 Sugar is a commonplace product with a complex background mainly because of the high degree of protectionism given to the industry and the benefits of ensuring domestic producers stay in business This book asks why there are such disagreements over trade policy who profits within the current regime and where power ultimately lies

Agricultural Policy, Agribusiness, and Rent-seeking Behavior Andrew Schmitz, 2010-01-01 The second edition of the groundbreaking *Agricultural Policy Agribusiness and Rent Seeking Behaviour* expands upon its original analysis of the economic policies that affect agriculture and agribusiness Widening their lens to include information on the European Union the authors continue to emphasize the role of farmers and agribusiness in the formation of policy exploring the issues from

both economic and historical perspectives More theoretical than the first volume in its discussions of welfare economics and the theory of public choice the second edition also addresses the broad significance of agricultural policies such as biofuels nutrition multifunctionality genetically modified organisms and multinational firms The authors maintain and expand the empirical content to provide more practical examples suited to teaching and analyse specific problems including price and income stabilization science policy environmental policy and food quality and safety

The Regulation of Agricultural Biotechnology Robert E. Evenson,V. Santaniello,2004-03-29 The regulatory systems in place prior to the development and expansion of agricultural biotechnology are still responding to this new form of technology Such systems include trade law intellectual property law contract law environmental regulations and biosafety regulations This book reviews these regulatory changes and consists of 24 chapters developed from papers presented at a conference of the International Consortium on Agricultural Biotechnology Research held in Italy in July 2002 It primarily considers the relationship between these changes and innovation market development and international trade

Agricultural Trade Liberalization Marcos Sawaya Jank,Inter-American Development Bank,2004 Agricultural Trade Liberalization investigates key issues in the Western Hemisphere including potential scenarios for liberalization at the regional and multilateral levels the effects of U S and European Union agricultural policies on trade and the outcomes that a Free Trade Area of the Americas and a European Union Mercosur trade agreement might have on agricultural trade flows The book also examines the impact of sanitary and phytosanitary measures and biotechnology on agricultural trade integration of sugar and dairy markets in the Americas and a comparison of agri food industries in the United States and Brazil Finally the book provides and overview of agricultural liberalization in the U S Central American Free Trade Agreement and suggests a food security typology to be utilized by the World Trade Organization

The Making of Economic Policy Avinash K. Dixit,1998-09-01 The Making of Economic Policy begins by observing that most countries trade policies are so blatantly contrary to all the prescriptions of the economist that there is no way to understand this discrepancy except by delving into the politics The same is true for many other dimensions of economic policy Avinash Dixit looks for an improved understanding of the politics of economic policy making from a transaction cost perspective Such costs of planning implementing and monitoring an exchange have proved critical to explaining many phenomena in industrial organization Dixit discusses the variety of similar transaction costs encountered in the political process of making economic policy and how these costs affect the operation of different institutions and policies Dixit organizes a burgeoning body of research in political economy in this framework He uses U S fiscal policy and the General Agreement on Tariffs and Trade GATT as two examples that illustrate the framework and show how policy often deviates from the economist s ideal of efficiency The approach reveals however that some seemingly inefficient practices are quite creditable attempts to cope with transaction costs such as opportunism and asymmetric information Copublished with the Center for Economic Studies and the Ifo Institute
