population groups This book will be of interest students preparing for examinations such as those approved by the Business and Technician Education Council BTEC the Institute of Chartered Secretaries and Administrators ICSA the Institute of Health Service Management the Institute of Housing and similar professional and examining bodies **Learning to Teach in the Secondary School** Susan Capel, Marilyn Leask, Tony Turner, Sarah Younie, 2013-08-15 A sound and practical introduction to the skills needed to qualify as a teacher Learning to Teach in the Secondary School is designed to help develop the qualities that lead to good practice and a successful future in education Learning to Teach Geography in the Secondary School Mary Biddulph, David Lambert, David Balderstone, 2015-05-20 Learning to Teach Geography in the Secondary School has become the widely recommended textbook for student and new teachers of geography It helps you acquire a deeper understanding of the role purpose and potential of geography within the secondary curriculum and provides the practical skills needed to design teach and evaluate stimulating and challenging lessons It is grounded in the notion of social justice and the idea that all students are entitled to a high quality geography education The very practical dimension provides you with support structures through which you can begin to develop your own philosophy of teaching and debate key questions about the nature and purpose of the subject in school Fully revised and updated in light of extensive changes to the curriculum as well as to initial teacher education the new edition considers the current debates around what we mean by geographical knowledge and what s involved in studying at Masters level Key chapters explore the fundamentals of teaching and learning geography Why we teach and what to teach Understanding and planning the curriculum Effective pedagogy Assessment Developing and using resources Fieldwork and outdoor learning Values in school geography Professional development Intended as a core textbook and written with university and school based initial teacher education in mind Learning to Teach Geography in the Secondary school is essential reading for all those who aspire to become effective reflective teachers Praise for previous editions of Learning to Teach Geography in the Secondary School This is a practical and visionary book as well as being superbly optimistic It has as much to offer the experienced teacher as the novice and could be used to reinvigorate geography departments everywhere Practical activities and ideas are set within a carefully worked out authoritative conceptual framework The Times Educational Supplement This is a modern powerful relevant and comprehensive work a standard reference for many beginning teachers on geography initial teacher training courses Educational Review **The Psychology Of Economic Inequality** Jim Orford, 2025-08-19 This open access book interrogates psychology s contributions to our understanding of economic inequality In the UK the US and in many other countries a high level of economic inequality is now one of the major problems facing society but it seems the political will to restore greater equality is slight The purpose of this proposed book is therefore to develop a psychological understanding of how economic inequality is tolerated and justified Do we as citizens understand how unequal our society has become Are our beliefs in merit desert and individual autonomy standing in the way of dealing with the problem of high inequality Is a

conspiracy of the rich and powerful to blame or have we simply accepted a distorted form of economic theory Finally what if anything can be done Including relevant insights from epidemiologists economists journalists and others this book provides an example to students and others of how psychology has relevance to some of the most pressing issues of our time The UK is the central focus throughout followed closely by the US and other high income nations All of the book s conclusions however should be of relevance for all countries and their citizens as divides between the economically better and worse off remain or worsen with damaging effects for individuals and their communities
