Blair,Laura A. Reese,1999 This Reader presents a selection of articles from Economic Development Quarterly the premier journal for practitioners and academics of local economic development The pieces chosen cover both the breadth and the cutting edge of real world economic development practices **Economic Research Studies of the Economic Development Administration** United States. Economic Development Administration,1974 Resources in Education ,1998 **Economic Development, Poverty, And Income Distribution** William Loehr,2019-04-10 The increasing inequality and poverty that seem inevitably to accompany economic growth in developing countries have become more and more evident in recent years The search for development paths that lead to growth with equality all too difficult to find is now an area of central concern for development economists One result of their concern is this volume in which internationally known representatives of a range of disciplines address themselves to ways in which growth with equity might be successfully achieved The book begins with both empirical and theoretical background to the development issues involved and with an overview of the experience of the international development assistance community focuses on operational definitions of the poor that will permit analytical policy oriented research to

lead to useful conclusions Specific concern is expressed for small business owners women peasants and recent migrants from rural to urban areas The basic question of course is what can be done about poverty and inequality includes suggestions for specific measures and provides a comprehensive comparison across a wide range of policy options The book does not solve the problem but it does point to directions that promise a reasonably high probability of success And throughout suggestions are made for the kind of interdisciplinary research required to raise that probability even further
