Economic Origins of Dictatorship and Democracy Daron Acemoglu, James A. Robinson, 2005-12-19 This book develops a framework for analyzing the creation and consolidation of democracy Different social groups prefer different political institutions because of the way they allocate political power and resources Thus democracy is preferred by the majority of citizens but opposed by elites Dictatorship nevertheless is not stable when citizens can threaten social disorder and revolution In response when the costs of repression are sufficiently high and promises of concessions are not credible elites may be forced to create democracy By democratizing elites credibly transfer political power to the citizens ensuring social stability Democracy consolidates when elites do not have strong incentive to overthrow it These processes depend on 1 the strength of civil society 2 the structure of political institutions 3 the nature of political and economic crises 4 the level of economic inequality 5 the structure of the economy and 6 the form and extent of globalization

Territoriality, Citizenship and Peacebuilding Kelechi A. Kalu, 2013-06-29 Civil conflicts in Africa range from few interstate wars to several intrastate conflicts characterized by secessionist movements irredentism coups and counter coups genocide wars of liberation to resource based wars The varied causes of conflicts in the continent s diverse and complex social formations are seen in ethnic terms and include struggles for economic environmental resources poor institutions of governance and issues of identity such as religion language and racial differences The core issue addressed in this volume is how to understand and explain the structural and analytical reasons for persistent civil conflicts in Africa The core assumption is that most civil conflicts in Africa erupt largely because of the nature of state formation in the continent Other significant variables that are explored as explanations for the persistent instances of civil conflicts in sub Saharan Africa and the slow efforts at nation building across the continent include issues of territoriality climate change ethnicity ideological incongruities institutional problems the nature of postcolonial state unreformed governance and economic structures and corruption This book also examines some sources of unresolved issues of territoriality and explains their connections to political violence and socio political and cultural tensions across sub Saharan Africa It offers suggestions on how scholarly research and policies could help mediate if not mitigate future territorially based conflicts in Africa

The Oxford Handbook of Political Economy Barry R. Weingast, Donald Wittman, 2008-06-19 Over its lifetime political economy has had different meanings This handbook views political economy as a synthesis of the various strands of social science treating it as the methodology of economics applied to the analysis of political behaviour and institutions

Polarized America, second edition Nolan McCarty, Keith T. Poole, Howard Rosenthal, 2016-02-26 Updated analysis of how the increasing polarization of American politics has been accompanied and accelerated by greater income inequality The idea of America as politically polarized that there is an unbridgeable divide between right and left red and blue states has become a cliché What commentators miss however is that increasing polarization has been closely accompanied by fundamental social and economic changes most notably a parallel

rise in income inequality In this second edition of Polarized America Nolan McCarty Keith Poole and Howard Rosenthal use the latest data to examine the relationships of polarization wealth disparity immigration and other forces They find that inequality feeds directly into political polarization and polarization in turn creates policies that further increase inequality Paul Krugman called the first edition of Polarized America Important Essential reading for anyone who wants to understand what s happening to America The second edition has been thoroughly brought up to date All statistical analyses tables and figures have been updated with data that run through 2012 or 2014 and the text has been revised to reflect the latest evidence The chapter on campaign finance has been completely rewritten with Adam Bonica as coauthor the analysis shows that with so much soft money coming from very wealthy ideological extremists there is even greater campaign contribution inequality than income inequality

International Politics Scott P. Handler, Robert T. Person, 2020-12-10 Why do states do what they do Who are the relevant nonstate actors in international politics and why do they do what they do What causes conflict and cooperation in the international system These are some of the most basic questions that the discipline of International Relations IR seeks to answer they are also the questions that drive the objectives organization and content of this book International Politics Classic and Contemporary Readings Second Edition seeks to help students engage critically with some of the world's most challenging questions through the use of leading classic and contemporary scholarship in the field of international relations The first five chapters of the book explore the leading theoretical traditions in international relations while subsequent chapters explore the themes of international security international political economy and contemporary challenges in international relations This organization makes the book easy to use as standalone text or alongside core text Class tested on over 10 000 students in the last decade this text was built from the ground up to introduce students to the traditions and new foundations of international relations as well to the principles of intellectually rigorous thought [Kings as Judges](#) Deborah Boucoyannis, 2021-07-15 How did representative institutions become the central organs of governance in Western Europe What enabled this distinctive form of political organization and collective action that has proved so durable and influential The answer has typically been sought either in the realm of ideas in the Western tradition of individual rights or in material change especially the complex interaction of war taxes and economic growth Common to these strands is the belief that representation resulted from weak ruling powers needing to concede rights to powerful social groups Boucoyannis argues instead that representative institutions were a product of state strength specifically the capacity to deliver justice across social groups Enduring and inclusive representative parliaments formed when rulers could exercise power over the most powerful actors in the land and compel them to serve and especially to tax them The language of rights deemed distinctive to the West emerged in response to more effectively imposed collective obligations especially on those with most power [The Handbook of Political, Social, and Economic Transformation](#) Wolfgang Merkel, Raj Kollmorgen, Hans-Jürgen Wager, 2019-01-25 Political social and economic transformation is a complex historical phenomenon It can adequately be analysed only by a multidisciplinary approach The Handbook brings together an international team of scholars who are specialists in their respective research fields It introduces the most important areas theories and methods in transformation

research with particular attention placed on the historical and comparative dimension Although focussing on post communist and other democratic transformations in our epoch the Handbook therefore presents and discusses not only their problems paths and developments but also deals with the antecedent waves beginning with the Meiji Restoration in Japan in 1868 and its aftermath The book is structured into six parts Starting with basic concepts as systems actors and institutions Section I it gives an overview over major theoretical approaches and research methods Sections II and III The connection of theory and method with their application is essential allowing special insights into the past and opens analytical avenues for transformation research in the future Section IV provides a historically oriented description or interpretation of particular waves or types of societal transformation With a clear focus on present transformations the contributions to Section V provide a description and discussion of the problems structures actors and courses of the transformations within different spheres of civil society politics law and economics Finally brief lexicographic entries in Section VI delineate research perspectives and facts about relevant issues of societal transformation Each of the 79 contributions contains a concise list of the most important research literature
