Economic Reforms and the Poor Alexandre Marc, Carol Graham, Mark Schacter, 2012 For many African countries and for developing countries in other regions the latter half of the 1980s was a turning point in the struggle to alleviate poverty In response to a marked deterioration in the living standards of the poor caused by an economic crisis and the austerity measures instituted to control it governments added explicit poverty alleviation objectives to their development policies In cooperation with external agencies they began to design and implement interventions such as social action programs SAPs and social funds SFs to protect the poor and some vulnerable groups from the harmful effects of the economic situation and from the transitory negative effects of economic reform There has been a growing acceptance of these interventions in Africa as the World Bank has placed greater emphasis on protecting the poor during adjustment The present study previewed in this brief reviews the experience of twelve SAPs and SFs in sub Saharan Africa Because a number of the programs are still in progress at this writing it is too soon to analyze their effects on poverty reduction in depth However performance information is increasingly available on the implementation of these programs This report is based on data gathered from project documents and task managers of the projects and on findings by the authors during field visits

Regional Development and Public Policy Challenges in India Rakhee Bhattacharya, 2015-07-09 This book emphasizes the need for experimenting with more deliberate and rigorous policy processes to attain balanced regional development which can promote both equity and efficiency in India s development discourse The institutional mechanisms for dealing with regional imbalance in India have not been very successful so far With rising discrepancies in development demand for autonomy continues along with a new dimension of regionalism arising from submerged identity along with political and economic aspirations which demanded new channels for solution So far attempts to create space for autonomy have possibly

not optimally accommodated the conceptual mechanisms like equity and democratic process Thus democratizing policy process using six pillars of voice knowledge objective fundamental values implementation framework and public awareness can ensure a better policy outcome for dealing with the persistent challenges of regional disparity in India This book further focuses on the need for democratizing the policy process for regional development through discussion and inclusion Such a transition needs innovation in policy regime which can be attained through following six pillars i Democratic voice of stakeholders in policy development and implementation ii Clear policy objectives that advance the common good based on voice iii Unbiased sound and comprehensive knowledge and data bases iv Consistency with constitutional values v A sound implementation framework ensuring user friendliness transparency and rationality of decision making processes effective grievance redress clear accountability and independent evaluation vi Public awareness and support of policies with relevant and public participation in implementation
