Economics Meets Sociology In Strategic Management:

Economics Meets Sociology in Strategic Management Joel Baum, Frank Dobbin, 2000-07-20 There is a growing interaction between economists and sociologists engaged in the study of organizations strategies This volume moves the discussion to the next level by focusing the discussion and taking a step toward systematizing some of the relationships between economic and sociological approaches to strategic management *Introduction* Frank Dobbin, Joel A. C. Baum, 2014 Why do firms do what they do Why does one cut prices while its neighbor buys out competitors Why does one diversify into new industries while its neighbor spins off subsidiaries to focus on its core competence Why do some strategies rise while others fall These are central concerns of both strategic management theorists and economic sociologists We bring the two fields together to discuss their approaches to these questions with the goal of encouraging dialogue and cross fertilization Each field provides a snapshot of firm behavior from a particular vantage point When these snapshots are integrated something closer to a three dimensional view of the firm appears Multiunit Organization and Multimarket Strategy Noel A.C. Baum, H.R. Greve, Joel Baum, 2001-06-15 A conspicuous feature of the modern economy is the multitude of multiunit systems that operate in several markets an organizational form that arguably rivals the M form as the 20th century's most successful This text draws various ideas together to present possible developments *The Paradoxical Foundation of Strategic Management* Andreas Rasche, 2007-10-25 This book offers a systematic critique of the scientific discourse of strategic management It uncovers scholars unquestioned assumptions and shows that by upholding these assumptions researchers obscure the paradoxical nature of strategic reasoning To uncover the paradoxes of strategic management the author refers to the philosophy of Jacques Derrida He exposes the paradoxes that inevitably occur when theorizing about corporate strategy along the dimensions strategy context process and content and shows how these paradoxes can enrich future thinking about strategic problems The analysis is completed by a discussion of theoretical and practical implications which highlight the need to research strategy not as something an organization has but as something an organization does Such a practice perspective gives reference to the paradoxical ground that strategic management rests on and enriches scholars ability to reflect on practitioners tasks while doing strategy in organizations **Higher Education and the Evolution of Management, Applied Sciences, and Engineering Curricula** Machado, Carolina F., Davim, J. Paulo, 2019-02-01 In an increasingly complex competitive and global world organizations require highly skilled professionals who have the capacity to proactively answer challenges Thus educational institutions must update the curricula of their courses to better contribute to the training and development of professionals in order to ensure that they are prepared to face increasing levels of organizational competitiveness Higher Education and the Evolution of Management Applied Sciences and Engineering Curricula is a collection of innovative research that fosters discussion on the evolution of higher education in management applied sciences and engineering with an emphasis on curriculum development pedagogy didactic

aspects and sustainable education This publication presents models theories and tools that allow individuals to take a more strategic role in their organizations It is ideally designed for managers engineers human resource officials academicians researchers administrators and lecturers *Human-Centred Technology Management for a Sustainable Future* Ricardo Zimmermann, José Coelho Rodrigues, Ana Simoes, Gustavo Dalmarco, 2025-02-18 This proceedings volume contains selected papers from the 33rd International Association for Management of Technology IAMOT Conference held from July 8 11 2024 in Porto Portugal It is the second volume of a three volume set of conference proceedings focused on technologies for a sustainable future The book explores the challenges and opportunities in today s social and business landscapes delving into innovative and disruptive concepts With a special emphasis on the role of technologies it sheds light on how they enable novel approaches to address current issues The volume demonstrates that following the principles of Industry 5 0 technologies can go far beyond productivity and economic gains contributing to the benefit and comfort of human workers It also elucidates the necessity of adopting a human centered approach in utilizing technology to adapt production processes to workers needs while ensuring that the implementation of new technologies does not infringe upon the fundamental rights of workers *Principles of Marketology, Volume 2* Hashem Aghazadeh, 2017-04-28 Principles of Marketology Volume 2 focuses on the practical aspect and demonstrates the applications of marketology referring to market orientation internal marketing business market and competitive analysis concepts and techniques Then the modern marketology and its developments in the future are discussed At the of this volume as the appendix a handbook of marketology is presented in which a practical manual including simple and summarized descriptions of different needed parts and worksheets for executing marketology in an organization is depicted *Orchestra Management* Arne Herman, 2022-08-01 Every orchestra in the world oscillates between crisis and survival This perpetual movement makes innovation both in organizational form and in artistic product vital to the sustainability of the symphony orchestra Based on case study research in Flanders Amsterdam and London this book reflects on the sustainability crisis of the orchestra by framing it as a legitimacy crisis that affects both the orchestra s artistic and organizational identity The aim of this book is to explore the dynamics between various and often conflicting factors in the orchestra s quest for survival and to show how these organizational dynamics relate to the orchestra s repertoire By highlighting the importance of every organization s specific environment to which it needs to adapt this book illustrates that the orchestra field is not a field that relies on best practices The book reflects on conventional as well as innovative orchestra models making the comparative point of view relevant for academic or practice based researchers orchestra managers policymakers and subsidizing bodies interested in sustainable and future oriented orchestra management *Service in the AI Era* Jim Spohrer, Paul P.
