Economics Of Insurgency In The Mekong:

The Economics of Insurgency in the Mekong Delta of Vietnam Robert L. Sansom, 1970 Much of the material for this book was obtained through interviews with farmers landlords moneylenders and laborers in the Delta The author discusses general economic conditions in the area agricultural productivity capital and labor land tenure fertilizer use and a subsistence innovation involving the use of an intermediate technology The analysis focuses not only on the theoretical issues of development economics such as disguised unemployment innovation and investment decisions but also upon their larger social and political implications Several chapters are devoted to a detailed examination of the Viet Cong and South Vietnamese government economies at war Particularly significant is the role that economic issues and policies played in the successful efforts by the Viet Cong from 1960 to 1964 to gain the support of the peasant Land reform rent reduction and even a minimum rural wage policy were employed The author provides the first documentary evidence that the Viet Cong were a major force for constructive economic and social change in the Delta On the other hand by 1967 massive U S economic assistance had gone some distance toward putting the Vietnamese government in a more favorable position with regard to economic benefits associated with dependence on its economy No doubt however long standing economic and social grievances are still a potent force for the Viet Cong and there is as yet no complete assurance that the revolutionary social and economic changes wrought by the Viet Cong would not be reversed if the Vietnamese government gained complete control in the countryside

People's Wars in China, Malaya, and Vietnam Marc

Oppenheimer, 2019-11-08 *People's Wars in China, Malaya and Vietnam* explains why some insurgencies collapse after a military defeat while under other circumstances insurgents are able to maintain influence rebuild strength and ultimately defeat the government The author argues that ultimate victory in civil wars rests on the size of the coalition of social groups established by each side during the conflict When insurgents establish broad social coalitions relative to the incumbent their movement will persist even when military defeats lead to loss of control of territory because they enjoy the support of the civilian population and civilians will not defect to the incumbent By contrast when insurgents establish narrow coalitions civilian compliance is solely a product of coercion Where insurgents implement such governing strategies battlefield defeats translate into political defeats and bring about a collapse of the insurgency because civilians defect to the incumbent The empirical chapters of the book consist of six case studies of the most consequential insurgencies of the 20th century including that led by the Chinese Communist Party from 1927 to 1949 the Malayan Emergency 1948 1960 and the Vietnam War 1960 1975 *People's Wars* breaks new ground in systematically analyzing and comparing these three canonical cases of insurgency The case studies of China and Malaya make use of Chinese language archival sources many of which have never before been used and provide an unprecedented level of detail into the workings of successful and unsuccessful insurgencies

The book adopts an interdisciplinary approach and will be of interest to both political scientists and historians **Foreign Economic Development Report** ,1971 **The Primary Sector in Economic Development (Routledge Revivals)** Mats Lundahl,2015-05-08 It is a major problem for less developed countries to make their primary sectors sufficiently profitable in order to be able to build up their manufacturing and service sectors This edited collection first published in 1985 examines the nature of the primary sector and its role in economic development Chapters consider problems of stagnation and income distribution in such countries as Chile and Brazil trade in national primary products and exports in Africa and the Middle East and reform and policies of development in countries such as Peru An interesting volume with an international scope this title will be of value to economics students with a particular interest in the role of the primary sector in developing economies **Embers of War** Fredrik Logevall,2012 A history of the four decades leading up to the Vietnam War offers insights into how the U S became involved identifying commonalities between the campaigns of French and American forces while discussing relevant political factors **Environment, Development and Change in Rural Asia-Pacific** John Connell,Eric Waddell,2006-12-05 This volume examines the economic political social and environmental challenges facing rural communities in the Asia Pacific region as global issues intersect with local contexts Such challenges from climatic change and volcanic eruption to population growth and violent civil unrest have stimulated local resilience amongst communities and led to evolving regional institutions and environment management practices changing social relationships and producing new forms of stratification Bringing together case studies from across mainland Southeast Asia and the Island Pacific an expert team of international contributors reveal how communities at the periphery take charge of their lives champion the virtues of their own local systems of production and consumption and engage in the complexities of new structures of development that demand a response to the vacillations of global politics economy and society Inherent in this is the recognition that development as we have come to know it is far from over Each chapter emphasizes the growing recognition that ecological and environmental issues are key to any understanding and analysis of structures of sustainable development Providing diverse multidisciplinary theoretical and empirical perspectives Environment Development and Change in Rural Asia Pacific makes an important contribution to the revitalization of development studies and as such will be essential reading for scholars in the field as well as those with an interest in Asia Pacific studies economic geography and political economy *Seeds of Stability* Ethan B. Lockhart,William J. Duiker,2010-04-14 Vietnam became part of French Indochina in 1887 and did not regain its independence again until after the Vietnam War However despite a relatively peaceful two decades the country experienced little economic growth because of conservative leadership policies In an effort to change this stagnation

The Environment and World History Edmund Burke III,Kenneth Pomeranz,2009-04-08 Since around 1500 C E humans have shaped the global environment in ways that were previously unimaginable Bringing together leading environmental historians and world historians this book offers an overview of global environmental history throughout this remarkable 500 year period In eleven essays the contributors examine the connections between environmental change and other major topics of early modern and modern world history population growth commercialization imperialism industrialization the fossil fuel revolution and more Rather than attributing environmental change largely to European science technology and capitalism the essays illuminate a series of culturally distinctive yet often parallel developments arising in many parts of the world leading to intensified exploitation of land and water The wide range of regional studies including some in Russia China the Middle East India Southeast Asia Latin America Southern Africa and Western Europe together with the book s broader thematic essays makes The Environment and World History ideal for courses that seek to incorporate the environment and environmental change more fully into a truly integrative understanding of world history CONTRIBUTORS Michael Adas William Beinart Edmund Burke III Mark Cioc Kenneth Pomeranz Mahesh Rangarajan John F Richards Lise Sedrez Douglas R Weiner
