Economics Of The Madhouse Capitalism And The Market Today:

Economics of the Madhouse Chris Harman, 1995 In this accessible and jargon free book Chris Harman gets to grips with the underlying forces which drive world capitalism **Ibss: Economics: 1995** Compiled by the British Library of Political and Economic Science at the London School of Economics, 1996 The IBSS is the essential tool for librarians university departments research institutions and any public or private institutions whose work requires access to up to date and comprehensive knowledge of the social sciences *Contagion Capitalism* Sean Creaven, 2023-12-15 Contagion Capitalism situates the COVID 19 pandemic within the systems of global political economy and their attendant cultural modes and theorizes that these systems act as facilitators and drivers of global pandemic risk Contagion Capitalism therefore critiques the institutionalized corporate capitalist control of the economy the state and science and the grave consequences this has on global public health policy the ecological crisis of sustainability and zoonotic pandemic events such as COVID 19 In doing so this book addresses the failings of what may be termed as state science or establishment science in managing the pandemic as personified especially by those elements of the scientific elite placed in the service of the neoliberal state This book also explores the limitations of corporate pharmacological technoscience in safeguarding public health arguing that Big Pharma offers only partial remedies for problems of human illness and well being poses its own dangers to public health and obfuscates the social bases of public ill health and of pandemic risk Contagion Capitalism further argues that COVID 19 will not be the last or even the most dangerous such epidemiological event This is because the social production and global dissemination of zoonotic diseases is integral to contemporary capitalism by virtue of its instrumental mode of science its central dynamic of production for the sake of accumulation and the consumer mode this sustains as its own condition of existence These are the drivers of what may be termed as zoonotic accelerationism Contagion Capitalism will appeal to scholars in the humanities and social sciences with interests in neoliberal ideology and global political economy and their impact upon social political and cultural life *Henryk Grossman Works, Volume 3* Henryk Grossman, 2021-11-01 Long awaited the first full translation of Henryk Grossman s *The Law of Accumulation and Breakdown of the Capitalist System* Being also a *Theory of Crisis* has been published in English It was the most important influential and yet most denounced of Grossman s works and recovers not only Marx s primary explanation of capitalism s economic crises and breakdown tendency but also his method in *Capital* Marxism and Realism Sean Creaven, 2012-12-06 This book rethinks Marx s sociology as a form of realist social theory extending Roy Bhaskar s philosophical realism into the social sciences By constructing historical materialism as realist social theory it becomes possible to resolve many long standing dilemmas in Marxist discourse such as voluntarism versus determinism and humanism versus economism Emergentist Marxism Sean Creaven, 2013-04-15 In tackling emergentist Marxism in depth this well written volume demonstrates that critical realism and materialist dialectics are indispensable to theorizing the functioning of complex social and physical systems Author Sean

Creaven investigates Marx's dialectics of being and consciousness forces and relations of production base and superstructure class structure and class conflict and demonstrates how they allow the social analyst to conceptualize geo history as embodying a tendential evolutionary directionality rather than as simply random or indeterminate in terms of its outcomes For those interested in social and political theory Marxism and communism and contemporary social theory this outstanding volume is an important read and a valuable resource

Neoliberalism and Imperialism: Dissecting the Dynamics of Global Oppression Tatah Mentan, 2016-08-06 Today's neoliberal imperialism crushes all unfavourable conditions through multiple forms of oppression to ensure the creation of a world in its own image The systemic and structural oppression birthed by neoliberal imperialism once again reproduces and implements colonialism armed robbery on a global scale The difference between the old form and the new form is the scale of destruction and the overt use of Weapons of Mass Destruction Hence the militarization of the globe is a natural outcome In this book Professor Tatah Mentan argues that United Fruit Company for instance could not have flourished without the strong support of the Marines the U S State Department and all of its resources In fact the French the German the British and the Belgian financiers could not have been able to suck the blood out of their colonies without their legionnaires soldiers mercenaries preachers merchants and generals Specifically the Western colonial empires in the nineteenth century presented their penetration pillage and rape of Africa Asia and Latin America as modernization and tutelage aided by the ideology of survival of the fittest This conceit pervaded the entire Western bourgeois social science educational and religious institutions And today there is the same clear symbiotic relationship between business and the military Empirical realities demonstrate that companies like Microsoft could not enjoy its overwhelming prosperity without having the strong military that America has This is precisely why neoliberal imperialism operates alongside oppressive militarism war and dictatorship and must be disrupted to liberate mankind from its death grip
