Pizarro,2008 In an age when the buzzword is sustainability why do we continue to build unsustainable cities and regions Are there alternatives to car clogged streets sterile suburban McMansions and a degraded natural environment This book brings planners back to the centre of the debate It shows that sustainability can no longer just apply to the sub field of planning called environmental planning but has to permeate all aspects housing economic development transport regional coordination and urban design Showcasing cutting edge research from academics and doctoral research candidates at the University of Sydney this latest edition of the Dialogues in Urban Planning series is recommended reading for professional planners students and policy makers We need to find a way to make our regions sustainable for this generation and for generations to come **From Dichotomies to Dialogues** Lei Qu,Machiel van Dorst,2023-06-13 Urbanism is a way of thinking and acting needed for sustainable development urbanists are becoming inter and transdisciplinary bringing science technology and design into their field As the world is in a cascading of crises related to e g health energy food and water as well as issues of e g traffic housing and services integrated approaches become increasingly relevant as most of these challenges are related Having a holistic urbanism viewpoint is the path to resilience and sustainability Here we are not referring to a longer list of notions but particularly encouraging dialogues between

possibly perceived conflicting discourses This book is the proceedings of the 14th IFoU conference a stepping stone towards a new culture of working together It includes papers in five tracks representing five types of debates over a set of dichotomies Urban rural Integration and Areas In Between The City is an Object and a City is in Transition Political Ecology and Adaptive and Transformative Framework Metropolization and the Right to the City Human centred and Nature based Approaches in Cities

Regenerative Dialogues for Sustainable Futures Fabio Scarano, 2024-03-13 This book is about sustainability in its broadest sense It argues that the ongoing science policy dialogue on sustainable development as framed by the United Nations Sustainable Development Goals is insufficient to drive the planet to desired sustainable futures This conversation followed by transformative action must be inclusive of other forms of interpretation of reality arts spirituality and ancestral knowledge and non modern cosmovisions This is more a book about dialogues than about the common dualism problem solution and such dialogues are approached as an essential trigger of regeneration The book takes the reader from a historical perspective of the human nature relationship through to a discussion on sustainable futures as utopias The optimism conveyed by the book is justified by a plethora of global examples of such regenerative dialogues

Rethinking Free Trade, Economic Integration and Human Rights in the Americas María Belén Olmos Giupponi, 2017-01-26 This monograph offers the first systematic overview of the protection of human rights in trade agreements in the Americas Traditionally trade agreements in the Americas were concerned with economic questions and paid little attention to human rights However in the wake of the new regionalism which emerged at the end of the last century more clauses addressing social issues such as labour rights and environmental standards were inserted in trade agreements As economic integration increased a framework for the protection of human rights evolved This book argues that this framework allows for human rights protection on a transnational level while constructing regional identities Looking at the four key regional integration processes namely the Caribbean Community the Central American Integration System the Andean Community of Nations and the Southern Common Market and also at the North American Free Trade Agreement it

shows how the integration process has reached a considerable degree of consolidation Writing on key sources in English for the first time this book will be essential reading for all free trade and human rights scholars *Water System Science and Policy Interfacing* Philippe Quevauviller, 2009-11-20 Recent discussions among scientists and policy makers have highlighted that knowledge generated by many research and demonstration projects is not reaching policymakers in an efficient way Conversely the consideration of research results by the policy making community is not straightforward and difficulties arise in integrating the latest research developments in legislation The difficulty is enhanced by the fact that the policy making community is not defining its role as client sufficiently well and the dialogue and communication channels are far from ideal to ensure an efficient flow of information An increasing number of experts consider that improvements could be achieved through the development of a science policy interface so that R D results are synthesised in a way to efficiently feed policy implementation and that short medium and long term research needs may be identified This book examines the issue of integrating science into policy with an emphasis on water system knowledge and related policies An important feature of the book is the discussion of science policy interfacing needs illustrated by examples from authors from different countries in relation to water system management This publication is timely in that the science policy interfacing is now identified as a key challenge worldwide with regard to integrated water resource management and therefore the book will be of great interest to scientists water managers and stakeholders Readers will also benefit from a better understanding of the needs benefits and drawbacks of an established transfer mechanism of scientific outputs to policies *The Routledge International Handbook of Economic Sociology* Milan Zafirovski, 2023-05-12 This handbook presents a systematic and comprehensive overview of economic sociology an exemplary interdisciplinary field which draws on theoretical frameworks and empirical findings from both economics and sociology to present a unique lens on the interdependence of the economy and society The handbook is arranged in four parts which together present the current state of the art of economic sociology as well as pointing toward future directions for research The first part outlines the theoretical foundations of economic sociology and its relations to other fields particularly with regard to other alternative approaches to economics and looks at conceptions and definitions of economic sociology vary The second part provides an overview of the historical development of economic sociology from classical political economy to the present day The third part explores the main problematics of economic sociology analyzing the economy in relation to particular social institutions the state ideology culture and art religion gender race ethnicity and more The fourth part focuses on the principal branches including sociology of the market industrial organization and work uncertainty distribution and inequality money and finance and the environment The stellar international cast of contributors is drawn from both economics and sociology therefore presenting a holistic view of the field and contributing to a rejuvenation of economic sociology within economics It is an indispensable reference work for researchers and students across a broad range of sociological and economic disciplines **Handbook of Nigerian Labour**

Relations Dafe Otobo,2025-09-24 We attempt here to bring together a practical blend of essential theorising in the broad area of industrial relations or labour relations or employment relations depending on one's preference with practical issues and challenges facing trade unions public and private employers regulatory agencies and concerned interests in the Nigerian economy The Handbook is also a quick access resource pool of basic facts essential official policies basic national laws on and all international labour conventions relevant to Nigerian tripartite labour relations Employers and their associations labour organisations regulatory agencies relevant local and international experts and academics consultants researchers and students among others should find this book useful
