The Econometrics of Corporate Governance Studies Sanjai Bhagat, Richard H. Jefferis, 2005 An investigation of the relationships among takeovers takeover defenses management turnover corporate performance corporate capital structure and corporate ownership performance      *Corporate Governance* H. Kent Baker, Ronald Anderson, 2010-08-20 A detailed look at the importance of corporate governance in today's business world The importance of corporate governance became dramatically clear at the beginning of the twenty first century as a series of corporate meltdowns from managerial fraud misconduct and negligence caused a massive loss of shareholder wealth As part of the Robert W Kolb Series in Finance this book provides a comprehensive view of the shareholder manager relationship and examines the current state of governance mechanisms in mitigating the principal agent conflict This book also offers informed suggestions and predictions about the future direction of corporate governance Relies on recent research findings to provide guidance through the maze of theories and concepts Uses a structured approach to put corporate governance in perspective Addresses essential issues related to corporate governance including the idea of principal agent conflict role of the board of directors executive compensation corporate monitoring proxy contests and corporate takeovers and regulatory intervention Corporate governance is an essential part of mainstream finance If you need to gain a better understanding of this topic look no further than this book

*Corporate Governance in China* Jian Chen, 2005 The nature of corporate governance is a key determinant of corporate performance and therefore of a country's overall economic power This title examines key questions relating to corporate governance in China exploring differences between private and state owned companies      *Financial Microeconometrics* Marek Gruszczyński, 2019-11-23 This book explores new topics in modern research on empirical corporate finance and applied accounting especially the econometric analysis of microdata Dubbed financial microeconometrics by the author this concept unites both methodological and applied approaches The book examines how quantitative methods can be applied in corporate finance and accounting research in order to predict companies getting into financial distress Presented in a clear and straightforward manner it also suggests methods for linking corporate governance to financial performance and discusses what the determinants of accounting disclosures are Exploring these questions by way of numerous practical examples this book is intended for researchers practitioners and students who are not yet familiar with the variety of approaches available for data analysis and microeconometrics This book on financial microeconometrics is an excellent starting point for research in corporate finance and accounting In my view the text is positioned between a narrative and a scientific treatise It is based on a vast amount of literature but is not overloaded with formulae My appreciation of financial microeconometrics has very much increased The book is well organized and properly written I enjoyed reading it Wolfgang Marty Senior Investment Strategist AgaNola AG      **The Bibliographic Index** , 2005      **Forthcoming Books** Rose Army, 2003-04      **The New Palgrave Dictionary of Economics** , 2016-05-18 The award winning The New Palgrave
