**Research in Education**, 1969 **A Liberal Education** Brendan Apfeld, Emanuel Coman, John Gerring, Stephen Jessee, 2024-01-18 Enlisting a natural experiment global surveys and historical data this book examines the university's evolution and its contemporary impact Its authors conduct an unprecedented big data comparative study of the consequences of higher education on ideology democratic citizenship and more They conclude that university education has a profound effect on social and political attitudes across the world greater than that registered by social class gender or age A university education enhances political trust and participation reduces propensities to crime and corruption and builds support for democracy It generates more tolerant attitudes toward social deviance enhances respect for rationalist inquiry and scientific authority and usually encourages support for Leftist parties and movements It does not nurture support for taxation redistribution or the welfare state and may stimulate opposition to these policies These effects are summarized by the co authors as liberal understood in its classic nineteenth century meaning

***Cultural Sustainability and Arts Education*** Benjamin Jörissen, Lisa Unterberg, Tanja Klepacki, 2023-01-01 This book is based on the topics questions and results of the international conference Aesthetics of Transformation Arts Education Research and the Challenge of Cultural Sustainability It aims to foster and sharpen the understanding of the potential role of arts education and arts education research for cultural sustainability In an ever more complex and interconnected world culture is a

valuable resource for sustainable development Based on the thesis that the change towards sustainability has to be a change that starts with cultural practices of perception and knowledge this book makes an important contribution to the broad discourse on cultural sustainability which has begun to emerge in recent years In this context the volume first deals with Intangible Cultural Heritage and how aesthetic practices and certain forms of art are changing through cultural transformation processes Subsequently it focuses on issues such as arts and cultural education in times of neoliberalism post migration and post coloniality as well as on arts and cultural education under conditions of digital transformation These theoretical and empirical contributions are complemented by insights into field trips to institutions and exemplary places of practice showing different representations of educational art practices cultural heritage and cultural sustainability Against this background the book finally offers responses and commentaries that can form the starting point for a far reaching interactive dialogical process on the utmost importance of cultural aesthetic and arts education as part of a global endeavor for sustainable development

**Educational Administration in a Pluralistic Society** Colleen A. Capper, 1993-07-01 In this bold provocative supplemental text for the field of educational administration Colleen Capper and contributors challenge administrators policymakers practitioners and communities to confront the realities of schools and students in a pluralistic society The book examines recent educational initiatives aimed at addressing the needs of students and staff from traditionally underrepresented groups marginalized on the basis of race language gender sexual orientation social class or disability Each chapter critically reviews the literature and research to probe the current characteristics of a nondominant group including such information as its demographic characteristics its role in school reform its representation in organizational theory and behavior its presence within curriculum and instruction and its relationship with the school as community Capper argues for the adoption of a multiparadigmatic framework from which to approach educational leadership for today s schools Book jacket

**Education and Development in India** Jandhyala B.G. Tilak, 2018-09-15 Drawing on empirical interdisciplinary research this book presents a critical review of some of the major issues that are of interest to researchers policymakers and planners in developing as well as advanced countries including specifically in India It provides an in depth review of some of the major development policy issues in education in general and in India in particular over the past 2 3 decades Besides presenting an overview of the educational developments in India that reflects issues such as growth equity efficiency foreign aid decentralization center state relations financing and cost recovery the book puts forward in depth analyses of education poverty interrelations between education and poverty low level of outcomes in elementary education effects of structural adjustment policies and approaches on education south south cooperation etc It also critically discusses changes in policies relating to financing higher education external assistance for education and how the growth of private higher education is affecting society at large The dichotomy between public policy and action is also highlighted in many chapters On the whole while the importance of education is being increasingly recognized the state does not seem to

be as willing to foot the bill for education as the households and even the private sector Occasionally contrasting with international evidence on for example financing higher education private higher education or the effects of neo liberal policies the book offers an interesting read for a wider audience      *Resources in Education* ,2001-04      **The Political Economy of Education** Martin Carnoy,2024-02-15 The Political Economy of Education provides academically rigorous yet clear explanations of the economics and politics driving today s educational systems and how economists analyze them The book covers a host of topics central to teaching about education and crucial to educational policy These include how to use the tools of economic and political theory to take critical measure of education s role in social mobility and economic growth whether good teachers can overcome social class and race achievement gaps the effectiveness of early childhood and vocational education and debates on school accountability and whether increasing spending on schooling improves quality The book also explores worldwide changes in higher education especially massification and increased stratification and privatization Written for upper undergraduate and graduate students in economics public policy and education and packed with real world examples this is an essential text for anyone interested in gaining fresh and international perspectives on education      **Educational Technology** D.D. Aggarwal,2004
