Economic Person Acting And Analyzing:

The Economic Person Peter L. Danner, 2002 This book emphasizes that analysis of broad economic changes treats people abstractly while a personalist view sees them as human agents who while needing and generating economic goods must still be responsive to others and be aware of values and goals beyond temporal well being Visit our website for sample chapters

VV., 2010-03-30 T00:00:00+02:00 363 81 *The Elgar Companion to Social Economics, Second Edition* John B. Davis, Wilfred Dolfsma, 2015-05-29 Social economics is a dynamic and growing field that emphasizes the key roles social values play in the economy and economic life This second edition of the Elgar Companion to Social Economics revises all chapters from the first edition and adds impo The Four Paradigms in Economics Kavous Ardalan, 2025-10-02 In The Four Paradigms in Economics Theories Concepts and Analytical Tools Kavous Ardalan demonstrates how these four paradigms explain any economics phenomenon differently and therefore together they provide a broader and deeper understanding of the economic phenomenon under consideration The main theme of The Four Paradigms of Economics is that social theory can usefully be conceived in terms of these four key paradigms functionalist interpretive radical humanist and radical structuralist The four paradigms are founded upon different assumptions about the nature of social science and society and therefore provide different explanations of any phenomenon The book also looks at the major prevailing schools of thought in economics Neo Classical Economics New Institutional Economics Behavioral Economics Austrian Economics Post Keynesian Economics Institutional Economics Social Economics Radical Economics and Marxist Economics from the point of view of the four paradigms and locates them within the four paradigm framework *Human Nature and the Discipline of Economics* Patricia Donohue-White, 2002-01-01 Foundations of Economic Personalism is a series of three book length monographs each closely examining a significant dimension of the Center for Economic Personalism s unique synthesis of Christian personalism and free economic market theory In the aftermath of the momentous geo political and economic changes of the late 1980s a small group of Christian social ethicists began to converse with free market economists over the morality of market activity This interdisciplinary exchange eventually led to the founding of a new academic subdiscipline under the rubric of economic personalism These scholars attempt to integrate economic theory history and methodology with Christian personalism s stress upon human dignity humane social structures and social justice This second volume in the series surveys the anthropological foundations to the disciplines of economics and moral theology The first part of the book presents an overview of the German French and Polish branches of personalist thought Particular attention is given to theological anthropology especially as it is developed by such thinkers as Emmanuel Mounier Max Scheler Gabriel Marcel Karol Wojtyla and Emil Brunner Part two surveys models of human nature that have been espoused by various schools of free market thought including mainstream neoclassical economics In conclusion the authors demonstrate how an expanded

Wealth of Persons John McNerney, 2016-08-31 Thomas Piketty's Capital in the Twenty First Century initiated a great debate not just about inequality but also regarding the failures found in the economic models used by theoreticians and practitioners alike Wealth of Persons offers a totally different perspective that challenges the very terms of the debate The Great Recession reveals a great existential rift at the core of certain economic reflections thereby showing the real crisis of the crisis of economics In the human sciences we have created a kind of Tower of Babel where we cannot understand each other any longer The breakdowns occur equally on the personal social political and economic levels There is a need for an about face in method to restore harmony among dissociated disciplines Wealth of Persons offers a key to such a restoration applying insights and analysis taken from different economic scholars schools of thought philosophical traditions various disciplines and charismatic entrepreneurs Wealth of Persons aims at recapturing an adequate understanding of the acting human person in the economic drama one that measures up to the reality The investigation is a passport allowing entry into the land of economic knowledge properly unfolding the anthropological meaning of the free economy

Law and Economics Margaret Oppenheimer, Nicholas Mercuro, 2015-06-01 The economic analysis of legal and regulatory issues need not be limited to the neoclassical economic approach The expert contributors to this work employ a variety of heterodox legal economic theories to address a broad range of legal issues They demonstrate how these various approaches can lead to very different conclusions concerning the role of the law and legal intervention in a wide array of contexts The schools of thought and methodologies represented here include institutional economics new institutional economics socio economics social economics behavioral economics game theory feminist economics Rawlsian economics radical economics Austrian economics and personalist economics The legal and regulatory issues examined include anti trust and competition corporate governance the environment and natural resources land use and property rights unions and collective bargaining welfare benefits work time regulation and standards sexual harassment in the workplace obligations of employers and employees to each other crime torts and even the structure of government Each contributor brings a different emphasis and provides thoughtful sometimes provocative analysis and conclusions Together these heterodox insights will provide valuable supplementary reading for courses in law and economics as well as public policy and business courses at both the graduate and undergraduate levels
