

## NEEDS FOR PLANNING IN UNDERDEVELOPED COUNTRIES

- Principal objectives of planning in underdeveloped countries is **to increase the rate of economic development.**
- D.R.Gadgil, "Planning for economic development implies external direction or regulation of economic activity by the planning authority which is in most cases, identified with the government of the state."
- It means increasing the rate of capital formation by raising the levels saving and investment. But increasing the rate of capital nation in underdeveloped economies is be set with a number of difficulties. People are poverty-ridden

## **Economic Planning In Underdeveloped Area:**

Economic Planning in Underdeveloped Areas: Government and Business Edward Sagendorph Mason,1958      Economic Planning in Underdeveloped Areas Paul de Mayo,1958      *Economic Planning in Underdeveloped Areas* Edward Sagendorph Mason,1958      *Economic Planning in Underdeveloped Areas* Michael E. Binchy,1960      **Planning and Budgeting in Poor Countries** Naomi Caiden,Aaron B. Wildavsky,1980-01-01 This substantial treatment of budgeting in poor countries and discussion of the relationship between planning and budgeting covers over eighty nations and three fourths of the worlds population While there are many treatments of planning the approach of this study is radically different The authors argue that the requisites of comprehensive economic planning do not exist in poor countries and that in the effort to create them planners merge into the environment they have set out to change Caiden and Wildavsky provide a unique and thorough examination of planning and budgeting by governments of poor countries throughout the world and recommend reforms that are workable and realistic for these countries They analyze the political economic and social developments that influence budgeting and planning in developing countries      *Problems and Processes of Economic Planning in Underdeveloped Economics (with Special Reference to India)*. H. C. Gupta,1958      **The Three Laws of International Investment** Jeswald W. Salacuse,2013-02-14 There are three legal frameworks applicable to international investments the laws of the host state and the investor s country the contract between the host state and the investor and the rules of international investment law This book assesses how these three bodies of law interact in investment agreements and dispute arbitration      **The Soviet Model and Underdeveloped Countries** Charles K. Wilber,2018-06-15 This book constructs the model of economic development implicit in the historical experience of the Soviet Union and the agricultural industrial and social strategies followed are shown to fit into a logical and coherent pattern Those strategies are then evaluated for the positive and negative answers they hold for underdeveloped countries today Originally published 1969 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value      **External Research List** ,1959      **Liberalization in the Process of Economic Development** Lawrence B. Krause,Kim Kihwan,2023-11-15 Economic growth in all developing countries is guided and often accelerated by generally intrusive policies implemented by governments intent on playing an active role in furthering development As economies have grown and become more complex however even small market distortions are magnified and the tendency is to rely more heavily on the market for continued growth In this volume leading experts in economic development examine the variety of issues that arise as governments in some of the newly industrializing countries of Southeast Asia such as South Korea Taiwan and Singapore grapple with this difficult process of liberalization This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek

out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1991      **Development Administration and Assistance** Richard W. Gable,1963      **Capital Exports to Less Developed Countries** W. Guth,2013-03-09 There is little need today for an author publishing a work on less developed countries to emphasise the importance of this question In view of the large and increasing number of publications on this subject and in fairness to the reader it seems appropriate however to outline briefly what the book sets out to describe As the title conveys I have concentrated on the financial side of the problem without neglecting altogether the important political social and human aspects I have primarily dealt with the problems of capital formation capital transfer capital employment and the associated balance of payments considerations The attempt is made to set out in an integrated analysis the problems of capital exports to less developed countries both from the point of view of the creditor and of the debtor be they countries or individuals This method appeared all the more appropriate since the provision of long term funds for capital exports and the question of their employment in the capital importing countries are so closely interconnected that they could hardly be treated separately      *Research on International Affairs* United States. Department of State. External Research Division,1952 Beginning in 1954 Apr issue lists studies in progress Oct issue completed studies      External Research. ER List United States. Department of State. External Research Division,1958      From Classical Economics to Development Economics G. Meier,1994-05-15 Most development economists are versed only in the post World War II period of their subject But economic growth was a major concern in the 18th century and colonial economics and policy commanded much attention in the 19th and first half of the 20th centuries A return to these earlier concerns can now provide present day development economists with a greater appreciation of the intellectual history of their subject Even more such a return might strengthen the conceptual and empirical foundations of the subject These are this book s objectives      *The Problems of Underdeveloped Areas* S. Sundaraganapathy,1960      External Research United States. Department of State. External Research Division,      **Directory of Planning Resources** United States. Agency for International Development,1967      Developing Areas Vijayan Pillai,Lyle Shannon,2024-11-01 With subjects ranging from the global challenge of the AIDS epidemic to the role of family planning in developing nations and the link between Central America s forests and North America s hamburgers this interdisciplinary introduction by some of the world s foremost experts in development studies will be an essential text for courses in this area It provides an exhaustive overview of the social political economic and population problems of countries in what is usually referred to as the Third World and more recently the Fourth World Although colonialism is considered as a contributing factor to underdevelopment emphasis in this volume is placed on the interrelation of major social institutions their impact on economic and social development and the effect of rapidly expanding industrialization on the ecosystem      **Development: Doctrines of development** Stuart Corbridge,2000 Brings together

more than one hundred articles dealing with the discipline of development in all its diversity Key topics include the transformation of peasant economies agribusiness rural urban relations markets industrialization workers trade aid and structural adjustment A unique set in its comprehensiveness and diversity it also considers four key challenges for development theory and practice relating to capabilities ethics sustainability and regulation
