investigations that meet the changed assessment requirements **Deterritorialised Identity and Transborder Movement in South Asia** Nasir Uddin, Nasreen Chowdhury, 2019-01-31 This volume is about migration across South Asia and the complex negotiation of borders by people and the states in the process A border is understood as a form of demarcation but it also opens up the flow of people goods and ideas of legality and illegality Borders are dynamic and dyadic in the interface of state and non state actors involved in border operations Consequently transborder movement becomes a complex web involving concerns of security trade militancy and questions of citizenship along with discourses of ghettoisation belonging and otherness Since the mid 20th century the South Asian region has witnessed growing social and political instability and breakdown of regional cooperation In this context the volume casts a wide interdisciplinary lens across South Asia and discusses economic migration as well as forced migration due to persecution and natural disasters It looks at how understandings of territoriality and border become blurred due to increasing transborder migration in the region how states in South Asia address transborder movements at both policy level and on the ground and how borderlands become spaces for illegal trade and informal economy in South Asia and for negotiations between states and refugees on identity and citizenship This highly topical volume is for a wide group of scholars and students interested in South Asia ranging from sociology anthropology political science history to interdisciplinary fields like migration studies peace and conflict studies and development studies **Moving for Prosperity** World Bank, 2018-07-13 Migration presents a stark policy dilemma Research repeatedly confirms that migrants their families back home and the countries that welcome them experience large economic and social gains Easing immigration restrictions is one of the most effective tools for ending poverty and sharing prosperity across the globe Yet we see widespread opposition in destination countries where migrants are depicted as the primary cause of many of their economic problems from high unemployment to declining social services Moving for Prosperity Global Migration and Labor Markets addresses this dilemma In addition to providing comprehensive data and empirical analysis of

migration patterns and their impact the report argues for a series of policies that work with rather than against labor market forces Policy makers should aim to ease short run dislocations and adjustment costs so that the substantial long term benefits are shared more evenly Only then can we avoid draconian migration restrictions that will hurt everybody Moving for Prosperity aims to inform and stimulate policy debate facilitate further research and identify prominent knowledge gaps It demonstrates why existing income gaps demographic differences and rapidly declining transportation costs mean that global mobility will continue to be a key feature of our lives for generations to come Its audience includes anyone interested in one of the most controversial policy debates of our time
