Moral Science and Moral Order James M. Buchanan, 2001 This volume presents a representative sampling of James M Buchanan's philosophical views as he deals with fundamental problems of moral science and moral order As one might expect Buchanan always goes back to fundamental principles first From there his observations and conclusions range far and wide from his own discipline The thirty essays collected in Moral Science and Moral Order are divided into these categories Methods and Models Belief and Consequence Moral Community and Moral Order Moral Science Equality and Justice Contractarian Encounters In his foreword Hartmut Kliemt says The British and Scottish Moralists of the Enlightenment period would have felt very comfortable with James Buchanan Like them Buchanan may be seen as a man of letters who concerns himself with fundamental problems of moral science and moral order But also like them Buchanan is not a secondhand dealer in old ideas On the contrary taking as inspiration classical philosopher economists in particular Adam Smith Buchanan not only proposes new applications of the neoclassical economic paradigm he also addresses in innovative ways fundamental issues of his discipline and beyond Kliemt's lengthy foreword highlights some of the major philosophical currents with which Buchanan is engaged in the papers collected in this volume His introduction to these philosophies provides an excellent grounding for economists and all readers who may not be familiar with the philosophical and fundamental issues Buchanan undertakes James M Buchanan 1919 2013 was an eminent economist who won the Alfred Nobel Memorial Prize in Economic Sciences in 1986 and was considered one of the greatest scholars of liberty in the twentieth century

J. Rushdoony, 2019-08-26 Faith and Action is the complete collection of the essays of R. J. Rushdoony written for the Chalcedon Report between 1965 and 2001 along with several transcripts of his recorded talks The large volume The Roots of Reconstruction only contained his Chalcedon Report essays up until 1985 so most of the essays included in Faith Action were unavailable to readers for many years until now In order to make the author's knowledge more accessible this three-volume collection features some of the most extensive indexing we've ever done including a General Index a History Index a Scripture Index a Works Cited Index and a Chalcedon Report Directory A total of 183 pages of indexing This handsome set of books is a must-have for any serious library The central theme of this collection of essays is Christian Reconstruction which to Rushdoony meant the responsibility of Christian citizenship in the Kingdom of God For him his central drive behind his research and writing was to move men to faith and action Rushdoony was primarily an essayist who vigorously and prolifically wrote on a multiplicity of subjects issues and disciplines Despite his being critical of both the contemporary church for its compromise and the humanistic state for its will to be as God these essays are replete with Rushdoony's undying faith in the victory of God in history Rushdoony's big idea was Christian Reconstruction which centered not on a pursuit of political power but rather an equipping of Christians to take back government by means of self-government in terms of God's law This three-volume collection will no doubt serve the larger church for many generations as they seek first the Kingdom of God in their spheres and in their times *Nationalism, Social Theory and Durkheim* J. Dingley, 2008-01-17 Ethno-national and religious identity and violence dominate modern politics from Northern Ireland to terrorism in Sri Lanka the former Yugoslavia or Afghanistan and Iraq This book shows that social theory should be a major tool in helping explain national religious and identity problems *Practice Methodologies in Education Research* Julianne Lynch, Julie Rowlands, Trevor Gale, Stephen Parker, 2019-10-08 Practice Methodologies in Education Research offers a fresh approach to researching practice in education Addressing a major gap in research methodology scholarship it highlights how integral practice theory is to the transformational agendas of education research introducing a theory of activist practice methodologies informed by expansive theories of practice With contributions from leading education researchers drawn from across the world the book confronts onto epistemological dilemmas for doing research that arise from taking practice theory seriously including the theories of Bourdieu de Certeau Deleuze Haraway Latour Taylor and Vygotsky A defining feature of the chapters is their activist axiologies and their experimental approach to researching practice in education in fields as diverse as educational leadership schooling higher education adult and workplace education and training professional practice and informal learning Practice Methodologies in Education is essential reading for

education academics and postgraduates engaged in critical research using practice theory **Economic Sociology of Work** Nina Bandelj, 2009-04-16 Economic sociology is a vibrant area of research investigating how social structures power allocations and cultural understandings shape the production consumption distribution and exchange of goods and services This title intends to apply the economic sociology perspective to issues of work broadly defined *Method and Morals in Constitutional Economics* Geoffrey Brennan, Hartmut Kliemt, Robert D. Tollison, 2013-03-09 This Festschrift was presented in electronic form to Buchanan on the occasion of his eightieth birthday on October 3 1999 after dinner in Fairfax Virginia As one might have expected the response to our call for papers was so luminous In looking over the many contributions we felt that a published Festschrift was also possible and fitting for the eightieth birthday of so prodigious and influential a scholar as Professor Buchanan To that end we have assembled the following volume In selecting the papers to be included here we have basically tried to choose those papers which in some way bear on Buchanan's contributions Perfectly good papers about issues not related to Buchanan's research agenda or not referring directly to Buchanan's work were not included Space constraints did not allow universal coverage so choices had to be made It should be stated clearly that these were our choices based on the criterion that the contribution be relevant to Buchanan's work Buchanan had nothing whatsoever to do with the selection of papers for this volume Once choices had been made we arranged the papers by subject matter ranging from various aspects of Buchanan's work in economics political science philosophy and related areas to some more personal recollections of Jim as a professor friend and colleague Including the latter material was also our decision and this probably represents a choice with which Jim would not have agreed We think however that the reader will find these pieces interesting and informative Economic Ethics and Chinese Culture Xuanmeng Yu, 1997 Capitalism, Culture, and Economic Regulation Leigh Hancher, Michael Moran, 1989 Regulation is a universal feature of modern economic life However regulating the economies of advanced capitalist nations is a uniquely complex activity crossing the boundaries between law politics and economics and involving problems which affect both the regulator and the regulated For this book eminent lawyers and political scientists have contributed essays which analyse these problems by examining in detail the experience of regulation in different economies and diverse industries in capitalist Western Europe **Fides and Secularity** Emilio Di Somma, 2018-11-15 This book wishes to talk about two main topics the Canadian political philosopher Charles Taylor and faith Taylor in his philosophical arguments on religion and secularity has adopted what I call the great prejudice on religion and secularity the two belong to utterly different spheres of human mind and sociality In this prejudice faith is used as a synonym of religion or belief and is understood as something that does not belong to the sphere of secularity My argument contradicts precisely this common belief Is faith more of an anthropological attitude towards reality than a religious one Can we criticize Taylor's philosophy on these grounds To develop my argument I will attempt to develop a dialogue between continental and Anglo American philosophers and theologians in the hope of convincing the readers that we should change

radically the way we discuss faith religion and secularism *Seven Deadly Economic Sins* James R. Otteson, 2021-04-08 You have heard of the Seven Deadly Sins pride greed lust envy gluttony wrath and sloth Each is a natural human weakness that impedes happiness In addition to these vices however there are economic sins as well And they too wreak havoc on our lives and in society They can seem intuitively compelling yet they lead to waste loss and forgone prosperity In this thoughtful and compelling book James Otteson tells the story of seven central economic fallacies explaining why they are fallacies why believing in them leads to mistakes and loss and how exorcizing them from our thinking can help us avoid costly errors and enable us to live in peace and prosperity **The Ethics and Economics of Agrifood Competition** Harvey S. James, Jr., 2013-03-19 This edited volume presents ethical and economic analyses of agrifood competition By systematically examining fairness and openness in agricultural markets it seeks to answer the question of whether there is adequate competition in the agrifood industry and whether the system is fair to all participants It outlines ethical and economic principles important for understanding agrifood competition presents arguments for and against consolidation globalization and the integration of agrifood industries and looks at the implications of globalization on the nature of competition in specific agricultural contexts *Political Economy of Reform and Change (Routledge Revivals)* Jan Winiecki, 2013-04-03 First published in 1997 this collection of articles and essays analyses the political economy of reform and change in Eastern Europe during the years of Gorbachev's perestroika and the years immediately following the fall of the Berlin wall and the collapse of the Soviet Union Written by Polish economist Jan Winiecki between 1984 and 1996 this work explores the issue of the feasibility of reform and change during the period of decline and collapse of communist economic order and later the emergence of the capitalist economic order in the post communist Eastern Europe Split into three parts the work considers firstly the failures of Gorbachev's political economy of reform secondly the determining factors in the collapse of the Soviet system and finally the feasibility of the systematic change which began in the wake of its collapse
