**What's Wrong with Economics?** Robert Skidelsky, 2020-04-28 A passionate and informed critique of mainstream economics from one of the leading economic thinkers of our time This insightful book looks at how mainstream economics quest for scientific certainty has led to a narrowing of vision and a convergence on an orthodoxy that is unhealthy for the field not to mention the societies which base policy decisions on the advice of flawed economic models Noted economic thinker Robert Skidelsky explains the circumstances that have brought about this constriction and proposes an approach to economics which includes philosophy history sociology and politics Skidelsky's clearly written and compelling critique takes aim at the way that economics is taught in today's universities where a focus on modelling leaves students ill equipped to grapple with what is important and true about human life He argues for a return to the ideal set out by John Maynard Keynes that the economist must be a mathematician historian statesman and philosopher in equal measure

*The International Covenant on Economic, Social and Cultural Rights* Ben Saul, 2016-12-15 This book is the first collection of the drafting records of the one of the world's two foremost human rights treaties the International Covenant on Economic Social and Cultural Rights ICESCR of 1966 It makes an important contribution to understanding the origins and meaning of economic and social rights which were drafted over almost two decades years between 1947 and 1966 There is increasing global interest in the stronger protection of economic social and cultural rights which are vital to the survival dignity and prosperity of everyone Since 2013 individuals have been able to complain to the United Nations about violations of their rights and action can also often be taken through regional and national human rights procedures In this context many of the current debates surrounding economic and social rights can be best understood in the light of their drafting history This book judiciously selects and chronologically presents the most important drafting documents or extracts thereof between 1947 and 1966 The book contains an extensive annotated table of documents allowing researchers to track the progress of the key rights and issues in the drafting It also includes an original analytical introductory essay which summarises and analyses the main procedural and substantive developments during the drafting The essay charts the many

influences on the recognition of economic and social rights at a key moment in history the aftermath of the Second World War which demonstrated the need to eliminate the economic and social causes of threats to global peace and security This book is essential reading for scholars practitioners and students of international human rights law *The Crisis in Economics* Edward Fullbrook,2003-04-03 Charts the impact the PAE Network has had so far and constitutes a manifesto for a different kind of economics it features key contributions from all the major voices in heterodox economics including Tony Lawson Geoff Hodgson and Sheila Dow *Economic Principles for the Hospitality Industry* Ricardo C.S. Siu,2019-06-27 *Economic Principles for the Hospitality Industry* is the ideal introduction to the fundamentals of economics in this dynamic and highly competitive sector Applying economic theory to a range of diverse and global hospitality industry settings this book gives the theory real world context Looking at critical issues around sustainable economic development in the hospitality industry such as diversification technology determinants of demand and pricing it enables students to effectively conduct business analyses evaluate business performance and conduct effective improvements over time Written in an engaging style this book assumes no prior knowledge of economics and contains a range of features including international case studies and discussion questions to aid beginners in the subject This will be an essential introductory yet comprehensive resource on economics for all hospitality students **From Economics to Political Economy** Tim B. Thornton,2016-07-22 The discipline of economics has been increasingly criticized for its inability to illuminate the workings of the real world and to provide reliable policy guidance for the major economic and social challenges of our time A central problem in contemporary economics and a problem from which many of its other failings flow is its lack of plurality By a lack of plurality it is meant that contemporary economics lacks diversity in its methods theories epistemology and methodology It is also meant that economics has become far less interdisciplinary *From Economics to Political Economy* offers an explanation as to why economics has become so determinedly non pluralistic and also gives considerable attention to exploring and evaluating promising strategies for reform These strategies include developing a pluralist economics under the label of political economy within other social science departments such as departments of politics Along the way the reader will learn about the worldwide student movement seeking greater pluralism in economics encounter some dramatic case studies in intellectual suppression gain a fuller sense of the nature of contemporary economics and explore the relationship between economics and other social sciences This book is of interest to any social scientist particularly those with interests in economics and politics *Journal of Economic Literature* ,1986 *The Natural and the Social* Steve Hinchliffe,Kath Woodward,2000 This fascinating new book draws on insights from across the social sciences from psychology economics and geography as well as sociology to examine the changing character of society and nature **Economists in the Cold War** Alan Bollard,2023-05-31 *Economists in the Cold War* is an account of the economic drivers and outcomes of the Cold War told through the stories of seven international economists who were all closely involved in theory and policy in the period 1945-73

For them the Cold War was a battle of economic ideas a fight between central planning and market allocation exploring economic thinking derived from the battle between Marxist and Capitalist ideologies a fundamental difference but with many intricacies The book recounts how economic theory advanced how new economic tools were developed and how policies were tested Each chapter is based on the involvement of one of the selected economists It was a challenging but dangerous time in economics a time of economic recovery post war with industrial rebuilding economic growth and rising incomes But it was also a time of ideological warfare nuclear rivalry military expansion and personal conflict The narrative is approximately chronological ranging from the Potsdam Conference in Germany to the Pinochet Coup in Chile The selected economists include an American a Pole a Hungarian a German a British a Japanese and an Argentinian all very different economists but with interconnections among them Each chapter also features a dissenting economist who held a contrasting view and recounts the subsequent economic arguments that played out Business & Economics Abraham Kuyper,2021-02-24

Kuyper on the Positive Potential of Business In his vast treasury of writings Abraham Kuyper addressed nearly every sphere of society including politics science and the arts But his views on business and economics are often overlooked because he rarely engaged with that sphere directly Still his doctrine of common grace has great significance for showing how Christ is at work in the workplace In this anthology of essays speeches and reflections we see Kuyper s attempts to think positively and creatively about the calling and potential of business Included are his ideas about economic freedom the eternal value of earthly work stewardship and philanthropy economic globalization the workings of God s grace in business and the social function of money Greenhouse Gas Emission (GHG) Reduction and Economic Structural Transformation Rui Xue, Xiaojun Deng ,Zhangqi Zhong,An Pan ,Bao Zongke,2025-09-22 With the continuous increase in fossil fuel consumption by industrial sectors the world is confronted with climate change issues such as environmental pollution and ecological imbalance Consequently global environmental governance has become a crucial challenge that relevant stakeholders must address From the perspective of global governance it is essential to adhere to the commitments made in the Paris Agreement on Climate Change and implement the global greenhouse gas GHG reduction targets This necessitates the collective responsibility of all regions to reduce their GHG emissions prompting the need to accelerate the adjustment of the economic structure However it is important to acknowledge that participating in GHG reduction efforts can lead to economic emission reduction costs and increased uncertainties for the economic development of various countries These factors might hinder the sustainable growth of regional economies and potentially diminish the enthusiasm of each region to engage in GHG reduction initiatives Therefore alongside actively responding to climate change promoting the optimization and adjustment of regional economies has become a consensus among all countries The Origin of Economic Ideas Guy Routh,1989-09-01 An updated version of the classic economics textbook revised to include current developments in the field It traces the development of modern economics and assesses the work of many famous theorists A chronology of the principal works of all

economists mentioned in the text is included *Agricultural Economics Research*, 1968 **Economics as Worldly Philosophy** R. Blackwell, J. Chatha, E. Nell, 2016-07-27 These essays written by students of Robert Heilbroner develop central themes in his work the importance of historical perspective in economics the connection with the great questions of philosophy and the immediacy of politics They begin by criticizing the rational maximizing foundations of conventional theory finding no place there for history The essays first explore methodology then technology in relation to history the politics inherent in economics and finally turn to the great Classics interpreted in relation to modern questions Economic Stories For Undergrads Annavajhula J. C. Bose, 2022-05-10 Economics is the strangest and most dubious as also frustrating animal of social sciences and humanities The debate on what it is and what its strengths and weaknesses are in understanding and changing the economy and society for the better is never ending This book cuts through this noise for econ undergrads with social concerns It is crafted to be stuffed with peripatetic hops skips and intellectual and emotional jumps about the nature and character of the brain circuits of economics in terms of its methodological political sociological anthropological historical feminist ethical ecological spiritual literary technical corporate and other underpinnings Diverse stories are told as alerts or nudges for the undergrads who as aspirant youth have in general hyperbolic discounting attitude towards social change The mind and heart of the undergrad reading this book will hopefully be ignited so as to endeavour to find out the purpose of economic education and how economics should be learnt in order to rectify the failures of our current socio economic system The seriously academic undergrad may also be inspired to pursue the long range objective of doing integrated studies and research for maximised understanding and holistic policy making which is of course easier to say than do *The Economics of Waste and Pollution Management in Japan* Fumikazu Yoshida, 2013-03-09 On the threshold of the twenty first century the ordinary Japanese citizen has become acutely aware that various environmental hazards pose a serious threat to daily life such hazards include the problems of waste disposal dioxin and other substances that disturb humans endocrine balance Who a mere decade ago when these problems were first brought to our attention would have anticipated that these environmental problems would so quickly become so common and so serious At the same time environmental problems on a global scale such as ozone depreciation by chlorofluorocarbons CFCs global warming and climate change have become topics of everyday conversation The main objective of this book is to take in these environmental problems focus ing on the two locally important and interrelated issues of waste and pollution This will enable us to investigate the whole range of problems from regionally based pol lution caused by waste disposal and dioxin to the transboundary warming brought about by CO and CFCs We shall thus be able to analyze comprehensively the whole 2 extent of waste and pollution problems ranging from those caused by real garbage and domestic waste to the many kinds of technologically generated waste that result from the production circulation and consumption of industrial goods and services
