Economies Beyond Agriculture In The Classical World:

Economies Beyond Agriculture in the Classical World David J. Mattingly, John Salmon, 2002-03-11 This book presents a challenge to the long held view that the predominantly agricultural economies of ancient Greece and Rome were underdeveloped It shows that the exploitation of natural resources manufacturing and the building trade all made significant contributions to classical economies It will be an indispensable resource for those interested in the period **The Ancient City** Arjan Zuiderhoek, 2017 This book provides a survey of modern debates on Greek and Roman cities and a sketch of the cities chief characteristics **The ^ADynamics of Ancient Empires** Ian Morris, Walter Scheidel, 2009-01-13 The Dynamics of Ancient Empires is designed to address the deficit in the comparative study of ancient empires in the western Old World and to encourage dialogue across disciplinary boundaries by examining the fundamental features of the successive and partly overlapping imperial states that dominated much of the Near East and the Mediterranean in the first millennia BCE and CE

The Ancient Economy Joseph Gilbert Manning, Ian Morris, 2005 Historians and archaeologists normally assume that the economies of ancient Greece and Rome between about 1000 BC and AD 500 were distinct from those of Egypt and the Near East However very different kinds of evidence survive from each of these areas and specialists have as a result developed very different methods of analysis for each region This book marks the first time that historians and archaeologists of Egypt the Near East Greece and Rome have come together with sociologists political scientists and economists to ask whether the differences between accounts of these regions reflect real economic differences in the past or are merely a function of variations in the surviving evidence and the intellectual traditions that have grown up around it The contributors describe the types of evidence available and demonstrate the need for clearer thought about the relationships between evidence and models in ancient economic history laying the foundations for a new comparative account of economic structures and growth in the ancient Mediterranean world *The Power of Individual and Community in Ancient Athens and Beyond* Zosia
