The Economic Development of France J. H. Clapham, 2015-06-17 Excerpt from *The Economic Development of France And Germany 1815 1914* For some years now I have lectured at Cambridge over the ground covered by this book In 1907 I published in Vol x of the Cambridge Modern History a chapter part of which corresponds in matter and I daresay sometimes in words with the earlier chapters which follow I was urged by friends to put all my material into book form for the use of the growing body of those at Cambridge and elsewhere who now study European economic history and are handicapped by the lack of books in English and of comprehensive books in any language I have written with an eye to them but I hope what I have written may interest others At first I planned a history of West European economic development in the nineteenth century but I abandoned this notion after discussion for fear that such a book would be either outrageously long or overcrowded with dry and unexplained detail Even as it is in this attempt to put French and German economic history into a West European framework the references to several topics will I am sure seem deficient in analytical explanation to many readers Footnotes have been reduced to a minimum so some account of the sources on which I have drawn most may be given here For the earlier period there is a bibliography to my chapter in the Modern History About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
