students and instructors **Economic Effects of the Government Budget** Elhanan Helpman, Assaf Razin, Efraim Sadka, 1988 The original contributions in this book analyze all of the budget's components expenditures revenues the deficit with a special emphasis on issues that have assumed increasing importance over the last decade or so such as intergenerational transfers of debt and declines in corporate tax revenues **The Economic Effects of Significant U.S. Import Restraints** United States International Trade Commission, 1995 **Exchange Rate Movements and Their Impact on Trade and Investment in the APEC Region** Mr. Tamim Bayoumi, Mr. Peter Isard, Mr. Steven A. Symansky, Takatoshi Ito, 1996-12-04 The 18 members of the Asia Pacific Economic Cooperation Council APEC encompass not only a wide geographic area but also broad differences in stages of economic development including among them some of the fastest growing economies in the world Such rapid growth has been facilitated by high levels of investment and trade international linkages and in most APEC economies macroeconomic policies that have sustained growth while not sparking excessive inflation This study offers insights about how medium and long term changes in real exchange rates have affected international and intra APEC trade and investment in the region **Agricultural Economics Research**, 1978 **The Political Economy of Development in Southeastern Europe** Spyros Roukanas, Persefoni Polychronidou, Anastasios Karasavoglou, 2018-10-09 This book offers important new insights into recent advances and perspectives in the field of political economy of development in Southeastern European countries In addition it provides theoretical and empirical contributions to political economy of development in an international context Written by authors from Greece Serbia and Turkey the book covers a broad spectrum of topics from macroeconomics and economic policy to international political economy and globalization Presenting new and original ideas this is a valuable resource for anyone wishing to gain a deeper understanding of political economy of development in Southeastern Europe academicians policymakers and business practitioners **First Principles of Economics** Richard G. Lipsey, Colin Harbury, 1992 Introduction to economics for complete beginners **Staff Studies for the World Economic Outlook** International Monetary Fund, 1986-01-01 This paper reviews recent analytical and empirical research on the determination of employment to provide a framework for evaluating the merits of alternative policies to cope with unemployment Particular emphasis is placed on the mechanisms of employment and wage determination described in recent studies The lack of any systematic relationship between countries long run growth and employment performances reflects the fact that output per person employed labor productivity or conversely the labor intensity of production has developed quite differently across countries The main mechanism through which the rise in real wages has prevented greater employment gains in Europe over the past ten to fifteen years seems to have been a substitution of capital for labor which has lowered the labor intensity of production significantly more than in the United States There are a number of important caveats with respect to the apparent relationship between differences in employment and labor cost developments across countries **Global Economic Effects of the Asian Currency**

Devaluations Marcus Noland, 1998 The Asian financial crisis has precipitated significant changes in real exchange rates in the region that will substantially alter the volume and pattern of international trade The crisis countries will increase their exports and especially reduce their imports Japan China and the other non crisis countries will experience more complex changes The trade balances of the United States and Western Europe will deteriorate by about 40 50 billion as a result of the currency movements in Asia This study newly updated in August 1999 quantifies the impact of the currency changes on the individual countries in Asia on the United States on Europe and on other regions on a sector by sector basis It analyzes the additional impact that might occur if China thus far a relative bystander in the crisis were to devalue its currency as well It then examines potential trade policy responses to these developments including the risk of an upsurge in protectionist pressure in the United States

The Effects of Trade and Exchange Rate Policies on Agriculture in Nigeria T. Ademola Oyejide, 1986 Focuses on the effects of Nigeria's trade and exchange rate policies on agricultural incentives especially during the 1970s the period of the oil boom Attempts to determine the degree of protection granted to agriculture compared with other sectors and assesses how these policies affected the allocation of resources both within agriculture and among the other sectors

The International Economy Peter B. Kenen, 2000-01-13 This text is an introduction to international economics for upper level undergraduates and above The first half examines the causes and effects of international trade how tariffs and other trade policies affect the gains from trade and the ways in which governments try collectively to regulate those policies The second half deals with monetary matters the behavior of exchange rates how trade and capital flows affect the functioning of monetary and fiscal policies the causes and management of currency crises and the new European monetary union This fourth edition assesses the outcome of the Uruguay Round of trade negotiations the work of the new World Trade Organization WTO and the challenges posed by regional trade blocs A problem set follows each chapter
