Neoliberalism and Race Lars Cornelissen, 2025-10-14 Lars Cornelissen argues that the category of race constitutes an organizing principle of neoliberal ideology Using the methods of intellectual history and drawing on insights from critical race studies Cornelissen explores the various racial constructs that structure neoliberal ideology some of which are explicit while others are more coded Beginning in the interwar period and running through to recent developments Neoliberalism and Race shows that racial themes have always pervaded neoliberal thinking The book s key argument is that neoliberal thought is constitutively racialized its racial motifs cannot be extracted from neoliberalism without rendering it theoretically and politically incoherent The book aptly explores a wide variety of racial constructs through the structure of neoliberal ideology deconstructing the conceptualizations in the works of landmark thinkers such as Ludwig von Mises Friedrich Hayek Peter Bauer Thomas Sowell Charles Murray and others from the early twentieth century to the present In this original perhaps controversial critique Cornelissen asserts that neoliberal thinkers were not just the passive recipients of racial discourse but also directly impacted it Cambridge Economics in the Post-Keynesian Era Ashwani Saith, 2022-11-11 This book chronicles the rise and especially the demise of diverse revolutionary heterodox traditions in Cambridge theoretical and applied economics investigating both the impact of internal pressures within the faculty as also the power of external ideological and political forces unleashed by the global dominance of neoliberalism Using fresh archival materials personal interviews and recollections this meticulously researched narrative constructs the untold story of the eclipse of these heterodox and post Keynesian intellectual traditions rooted and nurtured in Cambridge since the 1920s and the rise to power of orthodox mainstream economics Also expunged in this neoclassical counter revolution were the structural and radical policy oriented macro economic modelling teams of the iconic Department of Applied Economics along with the atrophy of

DeMint,2020-07-07 When Jim DeMint wrote Saving Freedom We Can Stop America s Slide into Socialism in 2009 he believed
an energized and informed America could put the brakes on the progressive bus driven by big government backers What
couldn t be foreseen was the devastating effect Barack Obama would have on our Constitutional Republic in eight years
Since then an embedded force of anti Constitutionalists in every branch of the federal government have worked virulently to
crush any attempt to reorient the United States to its founding principles In Saving America from Socialism the facts about
socialism are the same but after eight years of President Obama and high profile socialists leading the Democratic Party we
now have a clearer picture of how socialism will impact our prosperity freedoms and rights America has never been more
divided about what it means to be an American and this division is a key goal straight from the Socialist playbook We must
have a new strategy for uniting and rescuing our nation from the inevitable decline from Socialist policies This book is your
playbook to save America from socialism Thankfully Obama s replacement Donald Trump has provided a clear contrast
between the results of socialism versus freedom
