Ecstatic religion Ioan Myrddin Lewis, 1971    *An Anthropological Study of Spirits* Christine S. VanPool, Todd L. VanPool, 2023-05-28 This book discusses the cultural importance of spirits what spirits want and how humans interact with them using examples from around the world and through time Examples range from the vengeful spirits of the Zulu that cast lightning bolts from clear skies to punish wrongdoers to the benevolent Puebloan Kachina that encourage prosperity safety and rain in the arid American Southwest The case studies illustrate how humans seek to cooperate or counteract spirits to heal the physical and spiritual ailments of their people to divine the truth or to gain resources Building from their cross cultural analyses the authors further discuss how our physiology and psychology impact our interaction with the spirits Readers will come away with an appreciation of the beauty and power of the spirits that continue to shape the lives of people around the world

**Religion and Anthropology** Brian Morris, 2006 This important textbook provides a critical introduction to the social anthropology of religion focusing on more recent classical ethnographies Comprehensive free of scholastic jargon engaging and comparative in approach it covers all the major religious traditions that have been studied concretely by anthropologists Shamanism Buddhism Islam Hinduism Christianity and its relation to African and Melanesian religions and contemporary Neopaganism Eschewing a thematic approach and treating religion as a social institution and not simply as an ideology or symbolic system the book follows the dual heritage of social anthropology in combining an interpretative understanding and sociological analysis The book will appeal to all students of anthropology whether established scholars or initiates to the discipline as well as to students of the social sciences and religious studies and for all those interested in comparative religion

**The Esoteric Symbolism of Shamanic Trance and Altered States Phenomena** Ratka Relic, 2020-06-01 Bringing together extensive research on psychology psychophysiology and phenomenology of the shamanic trance and altered states of consciousness this book represents a cross cultural approach to the study of shamanism It discusses Buryat shamanism in Siberia in comparison with Buddhist and Hindu Yogic techniques as well as other esoteric traditions The phenomenon of the shamanic trance is here investigated from the esoteric point of view as a form of mystical or religious experience The book explores the inner feelings and psychic states of the shaman during the trance describing the inner psychic processes and referring to the systems of chakras and subtle channels in shamanism and classical Buddhist and Hindu yoga as well as other cultural traditions In addition to its adoption of psychoanalytic and transpersonal approaches it also uses phenomenological methods in its investigation representing works from scholars in Oriental studies as they provide deeper insight into the research of shamanism and mystical experiences

 This book provides a fascinating historical and cultural overview of traditional beliefs about spirit possession and exorcism  
 around the world from Europe to Asia and the Middle East to the Americas Possession and exorcism are elements that occur  
 in nearly every culture Why is belief in spiritual possession so universal This accessible reference volume offers a broad  
 sample of the traditions and cultures involving possession and exorcism presenting thoughts on this widely popular topic by  
 experts from the fields of anthropology sociology religious studies history neuroscience forensics and theology The entries  
 cover the subject of possession and exorcism across all inhabited continents from the Bronze Age to the 21st century  
 providing information that is accessible and intriguing as well as scholarly and authoritative Beyond addressing the Christian  
 tradition of possession and exorcism Pentecostalism and New Age and less widely known Western concepts about possession  
 and exorcism this work examines ideas about possession and exorcism from other world religions and the indigenous  
 cultures of Asia Africa and the Americas It also covers historic cases of possession and presents biographies of famous  
 theologians exorcists and possessed individuals High school and undergraduate readers will learn about world history  
 religious and spiritual traditions and world cultures through a topic that figures prominently in popular culture and modern  
 entertainment Bibliographies that accompany each entry as well as a selected general bibliography serve to help students  
 locate print and electronic sources of additional information      *Development* C. F. Goodey, 2021-06-10 This book traces the  
 historical roots of psychology s developmental idea back to Christian beliefs from the past two millennia      *Development*  
 Christopher Goodey, 2021-06-10 This book details the history of the idea of psychological development over the past two  
 millennia The developmental idea played a major part in the shift from religious ways of explaining human nature to secular  
 modern ones In this shift the elect chosen by God became the normal and grace was replaced by cognitive ability as the  
 essentially human quality A theory of psychological development was derived from theories of bodily development leading  
 scholars describe human beings as passing through necessary stages of development over the lifespan By exploring the  
 historical and religious roots of modern psychological concepts and theories this book demonstrates that history is a method  
 for standing outside psychology and thereby evaluating its fundamental premises It will spark new interest in the history  
 sociology and philosophy of the mind sciences as well as in the rights of children and developmentally disabled people  
     *Historical Dictionary of Shamanism* Graham Harvey, Robert J. Wallis, 2015-12-15 A remarkable array of people have been  
 called shamans while the phenomena identified as shamanism continues to proliferate This second edition of the Historical  
 Dictionary of Shamanism contains with examples from antiquity up to today and from Siberia where the term shaman

originated to Amazonia South Africa Chicago and many other places Many claims about shamans and shamanism are contentious and all are worthy of discussion In the most widespread understandings terms seem to refer particularly to people who alter states of consciousness or enter trances in order to seek knowledge and help from powerful other than human persons perhaps spirits But this says only a little about the artists community leaders spiritual healers or hucksters travelers in alternative realities and so on to which the label shaman has been applied This second edition contains a chronology an introduction and extensive bibliography The dictionary contains over 500 cross referenced dictionary entries on individuals groups practices and cultures that have been called shamanic This book is an excellent access point for students researchers and anyone wanting to know more about Shamanism Social and Cultural Anthropology in Perspective , Social anthropology is in the classic definition dedicated to the study of distant civilizations in their traditional and contemporary forms But there is a larger aspiration the comparative study of all human societies in the light of those challengingly unfamiliar beliefs and customs that expose our own ethnocentric limitations and put us in our place within the wider gamut of the world s civilizations Thematically guided by social setting and cultural expression of identity Social and Cultural Anthropology in Perspective is a dynamic and highly acclaimed introduction to the field of social anthropology which also examines its links with cultural anthropology A challenging new introduction critically surveys the latest trends pointing to weaknesses as well as strengths Presented in a clear lively and entertaining fashion this volume offers a comprehensive and up to date guide to social anthropology for use by teachers and students Skillfully weaving together theory and ethnographic data author Ioan M Lewis advocates an eclectic approach to anthropology He combines the strengths of British structural functionalism with the leading ideas of Marx Freud and Levi Strauss while utilizing the methods of historians political scientists and psychologists One of Lewis particular concerns is to reveal how insights from traditional cultures illuminate what we take for granted in contemporary industrial and post industrial society He also shows how in the pluralist world in which we live those who study other cultures ultimately learn about themselves Social anthropology is thus shown to be as relevant today as it has been in the past I highly recommend this book to any anthropologist or student in need of an anthropological retreat It is a valuable book to withdraw with for a while to revitalize and expand one s ideas of what social anthropology and people including the anthropologists themselves are about William E Mitchell American Anthropologist

*The to Z of Shamanism* Graham Harvey, Robert J. Wallis, 2010-04 Explores the common ground of shamanic traditions and evaluates the diversity of both traditional indigenous communities and individual Western seekers Routledge Library Editions: Psychiatry Various, 2021-07-28 Psychiatry is a medical field concerned with the diagnosis treatment and prevention of mental health conditions Routledge Library Editions Psychiatry 24 Volume set brings together titles originally published between 1958 and 1997 The set demonstrates the varied nature of mental health and how we as a society deal with it Covering a number of areas including child and adolescent psychiatry alternatives to psychiatry the history of mental health

and psychiatric epidemiology      **Book 4 Psychology PB** Kurt Jurgensmeier, 2012-08-22 What does Scripture say about the human heart The human heart is where we meet God believe Him and obey Him Which is why the psychological use of heart is used over 1000 times in Scripture not including the hundreds of synonymous references to the human mind spirit soul and conscience Contrary to many there is a lot of psychology in the Bible This book is first a biblical study on the different aspects of the human heart including our reason will and emotions Included is an important chapter on how we change our heart and thus our life Secondly we discuss the dangers of how the Charismatic movement has elevated emotion over reason in both worship and prayer Finally we correct the common mistake in theology of not distinguishing between the abilities of the devil darkened reason of the unregenerated and the Spirit liberated reason of the regenerated In the process we describe the psychological aspects of conversion      *Prophecy in the Ancient Near East* Jonathan Stökl, 2013-02-06 Since the 1990s there has been an emphasis on the study of ancient Israelite prophecy in its ancient Near East context *Prophecy in the Ancient Near East* is the first book length study that compares prophecy in the ancient Near East by focusing on texts from Mari the Neo Assyrian State Archives and the Hebrew Bible The author analyzes prophecy in each culture independently before comparisons are made This method demonstrates how prophecy is a part of the wider system of divination but also shows where scholarship has unduly imported concepts found in one corpus to the other two This method for example calls into question the supposed link between music and prophecy from the Hebrew Bible to the ancient Near East This work provides an up to date analysis of ancient Near Eastern including Israelite and Judean prophecy to scholars and students alike I thoroughly enjoyed reading the book and I can highly recommend it to anyone interested in prophecy in Israel and the ancient Near East Lena Sofia Tiemeyer University of Aberdeen Review of Biblical Literature The content of Jonathan Stökl's book testifies to the value of the book for the studies of prophecy in the ancient Near East Wojciech Pikor John Paul II Catholic University of Lublin *The Biblical Annals*      **Ghosts, Spirits, and Psychics** Matt Cardin, 2015-07-28 This fascinating work provides a complete overview of paranormal phenomena including the beliefs attitudes and notable figures who have attempted to explain defend or debunk the mysteries behind the unknown Recent interest in the paranormal as pop culture fodder belies its historical status as an important subject of cultural philosophical and scientific significance This book traces the trajectory of paranormal studies from its early role as a serious academic and scientific topic studied by mainstream scientists and eminent scholars to its current popularity in books film and TV This compelling reference work details the experiences encounters and ideas that make up this controversial field of study The contributed entries examine the broad phenomena of the paranormal addressing the history of scientific investigations along with its contemporary media depictions to illustrate the evolution of cultural attitudes about the paranormal A selection of primary documents provides real life accounts and contributions from noted experts that explore the full scope of themes from spiritualism to poltergeists to astrology Accompanying images timelines quotations and sidebars make the content come to life and encourage
