*Management and Economics of Construction Safety in Hong Kong* S.W. Poon, S.L. Tang, Francis K.W. Wong, 2008-07-01 Hong Kong had a very bad record in construction safety in the 1980s and before Since the early 1990s a number of statutory regulations have been enforced in order to improve safety in Hong Kong s construction industry The results of these efforts can gradually be seen and this is evidenced by the significant drop in construction accidents in recent years This book is important in keeping construction professionals informed about Hong Kong s experience in construction safety It begins with an overview of safety management systems generally adopted in the Asian context with the support of construction accident statistics from a number of countries or cities Other topics include factors which influence site safety programmes construction safety management systems safety legislation safety auditing the procedure of accident investigation the Hong Kong government s mandatory SSPS Site Supervision Plan System that all contractors and authorized persons registered structural engineers have to follow and construction safety economics

*Engineering and Costs of Dual Water Supply Systems* S. L. Tang, Derek P.T Yue, Damien C. C. Ku, 2007-01-15 Fresh water is becoming an ever more valuable and scarce resource and any method or

approach that can contribute to the saving of fresh water resources is therefore beneficial Dual water supply systems are water supply distribution systems employing two sources consisting of one fresh water system for potable use and another system of either seawater untreated raw fresh water or treated reclaimed wastewater for toilet flushing purposes The purpose of this book is to discuss the engineering and cost aspects of dual water supply systems drawing on the author s experience obtained in Hong Kong where dual water supply systems have been used for fifty years The book is suitable for use as a text book or reference book at undergraduate and postgraduate levels University undergraduate students and postgraduate students in water science civil engineering environmental engineering and environmental science or management will be the principal audiences Practicing engineers managers and other practitioners in these fields will also find this an invaluable reference source

The Nexus: Energy, Environment and Climate Change Walter Leal Filho,Dinesh Surroop,2017-10-30 This book focuses on the water energy climate nexus which can be used to improve energy security and quality of life for millions of people in developing countries It enhances the reader s understanding of the link between energy and climate through the development of new approaches to and methods for energy generation energy use and climate change adaptation and resilience By presenting case studies and research reports the book addresses the relevant issues needed in order to analyze and successfully implement technologies in the water energy climate nexus It focuses on the contributions of higher education institutions in terms of capacity building for energy efficiency energy access and energy security as they relate to climate change mitigation The book combines results from the authors own research with detailed analyses and the research presented lays the foundation for innovative new concepts and ideas which the authors subsequently discuss The book will appeal to all those interested in the links between energy issues sustainability and climate change as it focuses on the exchange between science and technology experts as well as decision makers It also supports students studying renewable energies and energy security while serving as a valuable reference source for researchers professionals practitioners and scientists

Cost-Benefit Analysis Euston Quah,E.J. Mishan,2007-05-07 Should Malaysia build a new steel mill or New York City an urban motorway Should higher education expand or water supplies be improved These are typical questions to which cost benefit analysis the key economic tool for analyzing problems of social choice can contribute to as well as providing a useful vehicle for understanding the practical value of welfare economics This invaluable text covers the main problems that arise in a typical cost benefit exercise Cost benefit analysis is used everywhere but its techniques are particularly prominent in fields where there is some kind of ethical dimension For this edition E J Mishan has been joined by Euston Quah to explore new themes including the impact of uncertainty on cost benefit analysis and to introduce a host of new and up to date case studies

**Interdisciplinary and Social Nature of Engineering Practices** Antonio Carlos Zambroni de Souza,Maarten J. Verkerk,Paulo Fernando Ribeiro,2022-01-15 This book covers practical and philosophical aspects of Engineering paying special attention to the social impacts of emerging technologies

Some fundamentals of philosophy of technology are introduced followed by social economic and environmental discussion and implications in different disciplines Each chapter provides insights on the responsibilities involved in the design of engineering projects The examples presented combine concepts about the impacts of Engineering in society at the same time that incorporates new technological models yielding an innovative approach about the topics Project Management and Engineering Research José Luis Ayuso Muñoz, José Luis Yagüe Blanco, Salvador F. Capuz-Rizo, 2017-03-06 This book gathers the best papers presented at the 19th International Congress on Project Management and Engineering which was held in Granada Spain in July 2015 It covers a range of project management and engineering contexts including civil engineering and urban planning product and process engineering environmental engineering energy efficiency and renewable energies rural development information and communication technologies safety labour risks and ergonomics and training in project engineering Project management and engineering is taking on increasing importance as projects continue to grow in size more stakeholders become involved and environmental organisational and technological issues become more complex As such this book offers a valuable resource for all professionals seeking the latest material on the changing face of project management *Principles of Engineering Management* Jishan He, 2023-09-20 This book presents a comprehensive overview of engineering management giving readers a complete picture of this research field Following an introduction the book explores Engineering Management Ontology Engineering Management Epistemology Engineering Management Methodology Engineering Management Decision Theory Engineering Management Organization Theory Engineering Management Value Theory Engineering Management Innovation Theory Engineering Management Environment Theory Engineering Management Humanities Engineering Management Ethics Theory The book includes case studies that demonstrate how various concepts can be practically applied to resolve real world problems The book is a valuable read for professionals of engineering management management and systems engineering *Proceedings of the 2025 6th International Conference on Management Science and Engineering Management (ICMSEM 2025)* Sameer Kumar, Xiongfeng Pan, Norhayati Zakuan, Kosga Yagapparaj, 2025-09-15 This is an open access book Management science and engineering management is a multidisciplinary field focusing on the application of mathematical models statistical analysis information technology and system engineering principles to solve complex management problems and improve the quality efficiency and effectiveness of organizational decision making It aims to optimize the allocation of enterprise resources enhance operational efficiency promote technological innovation and improve strategic planning through scientific analysis and application of engineering technology This field involves a wide range of research topics including but not limited to operations management supply chain management project management quality management risk management information system management technological innovation and R D management Therefore for scholars researchers and industry practitioners involved in this field it is of great significance to explore the latest progress challenges and future trends of management science and

engineering management to promote the development of disciplines and solve practical problems **Fair, Geyer, and Okun's, Water and Wastewater Engineering** Nazih K. Shammass, Lawrence K. Wang, 2010-10-19 This text series of Water and Wastewater Engineering have been written in a time of mounting urbanisation and industrialisation and resulting stress on water and wastewater systems Clean and ample sources of water for municipal uses are becoming harder to find and more expensive to develop The text is comprehensive and covers all aspects of water supply water sources water distribution sanitary sewerage and urban stormwater drainage This wide coverage is helpful to engineers in their every day practice

Proceedings of the 18th Symposium on Environmental Issues and Waste Management in Energy and Mineral Production Eleonora Widzyk-Capehart, Asieh Hekmat, Raj Singhal, 2018-12-06 The research papers presented in these proceedings volumes cover the latest developments and findings in the fields of mine health safety energy waste management reclamation and rehabilitation mine closure and environmental protection Authors from over 20 countries with backgrounds in chemistry engineering technology and management and hailing from the government industry and academia have contributed to this book The contents of this book will be of interest to scientists engineers consultants and government personnel who are responsible for the development and implementation of innovative approaches techniques and technologies in the minerals industries It will also benefit academic researchers as it addresses the latest advances in fundamental research 2013 International Conference on Complex Science Management and Education Science Haiyan Wu, 2013-12-22 2013 International Conference on Complex Science Management and Education Science will be held in Kunming China on 23rd 24th Nov 2013 This conference is sponsored by Advanced Science Research Center some universities and some Enterprises 2013 International Conference on Complex Science Management and Education Science CSMES2013 will provide an excellent international forum for sharing knowledge and results in theory methodology and applications of Complex Science Management and Education Science The conference looks for significant contributions to all major fields of the modern Complex Science Management and Education Science in theoretical and practical aspects The aim of the conference is to provide a platform to the researchers and practitioners from both academia as well as industry to meet and share cutting edge development in the field 2013 International Conference on Complex Science Management and Education Science CSMES2013 will be published by DEStech Publications DEStech will have the CDROM indexed in ISI Institute of Scientific Information and Google Book Search DEStech will submit the CDROM to IISTP and EI for worldwide online citation of qualified papers We would like to extend our appreciation to all participants in the conference for their great contribution to the success of csmes2013 We would like to thank the keynote and individual speakers and all participating authors for their hard work and time We also sincerely appreciate technical program committee and all reviewers whose contributions make this conference possible Finally I would like to thank the great support from DEStech Publications Inc Prof Haiyan
