Ende des 16. Jahrhunderts Reinhard Tenberg, 1996 Tricksters and Pranksters Alison Williams, 2021-11-08 This volume
represents a contribution to comparative scholarship in Medieval and Renaissance studies in its investigation of the
ingenious diversity of roguish practices found in Medieval and Renaissance literature and its recognition of the coherent
normative function of tales of tricksters and pranksters The wide variety of works analysed from those forming part of the
established canon of texts on undergraduate degree schemes to lesser known works makes the volume of interest to students
and researchers alike The roguish behaviour of women priests foxes and outlaws and the knavery of Eulenspiegel and
Panurge are used to illustrate how rituals of inversion and humiliation typical of the medieval carnival are reflected in
literary accounts of trickery and to question whether the restorative function attributed to carnival celebration is equally to
be found in the intra textual and extra textual outcomes of trickery This analysis is supported by studies into the trickster in
mythology sociological investigations into the role of disorder Bakhtinian theories of carnival and the carnivalesque and
theories of black humour Transgression and Subversion Maren Lickhardt, Gregor Schuhen, Hans Rudolf
Velten, 2018-09-13 Is the p caro the roguish hero of early modern Spanish adventure fiction a real man What position does he
hold in the gender hierarchy of his fictional social context Why is the p cara so non female What effect has her gender
constitution on her fictional social context In terms of a gendered subject the picaresque figure has hardly been analyzed so
far Although scholars have recognized it as a transgressive and subversive model the queer effect of the figure is yet to be
examined With regard to the categories of class generation topography and gender the contributions assembled in this
volume explore Spanish French English and German novels narratologically from the perspective of culture and gender
theories Intersections in Christianity and Critical Theory Cassandra Falke, 2010-10-27 Dealing with the historical and
thematic intersections of Christianity and critical theory this collection brings together a diversity of specialist scholars in the
area Building on recent discourses in theology as well as their knowledge of hermeneutic and critical traditions they examine
major themes in contemporary critical theory **The Bible and the Enlightenment** William Johnstone, 2004-01-01 This
volume contains the proceedings of a conference held to mark the bicentenary of the death of Alexander Geddes 1737 1802
Geddes a product of the Scottish and French Enlightenment was a Roman Catholic priest a pioneering biblical critic a poet

some of whose works have been attributed to Robert Burns and a political radical who studied in Paris before the French Revolution which provided the background to the chief phase of his activity ca 1780 1800 This work is of interest to historians and to students of the Bible and English literature The international panel of contributors includes Tom Levine on the political social and religious background A G Aulg Bultmann C Coury J W Rogerson J L Ska and M Vervenne on Geddes's biblical works and Elinor Shaffer G Carruthers and L McIlvanney on his literary works In Search of the Culprit Lukas Rösli, Stefanie Gropper, 2021-12-06 Despite various poststructuralist rejections of the idea of a singular author genius the question of a textual archetype that can be assigned to a named author is still a common scholarly phantasm The Romantic idea that an author created a text or even a work autonomously is transferred even to pre modern literature today This ignores the fact that the transmission of medieval and early modern literature creates variances that could not be justified by means of singular authorships The present volume offers new theoretical approaches from English German and Scandinavian studies to provide a historically more adequate approach to the question of authorship in premodern literary cultures Authorship is no longer equated with an extra textual entity but is instead considered a narratological inner and intertextual function that can be recognized in the retrospectively established beginnings of literature as well as in the medial transformation of texts during the early days of printing The volume is aimed at interested scholars of all philologies especially those dealing with the Middle Ages or Early Modern Period **Representing Religious Pluralization in Early Modern Europe** Andreas Höfele, 2007 The title of this volume indicates more than a referential relationship Representing Religious Pluralization entails not just the various ways in which the historical processes of pluralization were reflected in texts and other cultural artefacts but also crucially the cultural work that spawned these processes Reflecting driving shaping and subverting religious systems representation becomes a divisive force in Reformation Europe as religious pluralization erupts in a contest over how to conceive to symbolize and to perform religious belief The essays in this book offer a broad range of perspectives on the pluralizing effects of cultural representation as well as on the various attempts at containing them Storytelling in the Works of Bunyan, Grimmelshausen, Defoe, and Schnabel Janet Bertsch, 2004 Examines how uses of fictional storytelling reflect the secularization process that coincided with the rise of the modern novel The modern novel appeared during the period of secularization and intellectual change that took place between 1660 and 1740 This book examines John Bunyan's Grace Abounding and The Pilgrim's Progress Johann Grimmelshausen's Simplicissimus Daniel Defoe's Robinson Crusoe and J G Schnabel's Insel Felsenburg as prose works that reflect the stages in this transition The protagonists in these works try to learn to use language in a pure uncorrupted way Their attitudes towards language are founded on their understanding of the Bible and when they tell their life stories they follow the structure of the Bible because they accept it as the paradigmatic story Thus the Bible becomes a tool to justify the value of telling any story The authors try to give their own texts some of Scripture's authority by imitating the biblical model but this

leads to problems with closure and other tensions If Bunyan's explicitly religious works affirm the value of individual narratives as part of a single universal story Grimmelshausen's and Defoe's protagonists effectively replace the sacred text with their own powerful authoritative stories J G Schnabel illustrates the extent of the secularization process in Insel Felsenburg when he defends the entertainment value of escapist fiction and uses the Bible as the fictional foundation of his utopian civilization arguments about the moral value of narrative give way to the depiction of storytelling as an end in itself But Bunyan Grimmelshausen Defoe and Schnabel all use positive examples of the transfiguring effect of reading and telling stories whether sacred or secular to justify the value of their own works Janet Bertsch teaches at Wolfson and Trinity College Cambridge

Die deutsche Einwanderung nach Florenz im Spätmittelalter Lorenz Böniger, 2006-06-01 This volume deals with the history of migration from Central Europe to the Italian city of Florence in the late Middle Ages ca 1350 1500 Using a broad variety of sources confraternity records fiscal and notarial documents it shows that this history was far more important than hitherto known Not only Dutch and Northern German weavers but also shoemakers from Southern Germany and many other Northern artisans and artists worked in Florence in a continuous cultural exchange The identification of a certain Arigo from Nuremberg the translator of Boccaccio's Decamerone into German shows however how the changing climate after 1480 conditioned also the professional choices in fact after these years he became known as a prolific draughtsman of geographical maps under the name of Henricus Martellus

Walking on the Grammaticalization Path of the Definite Article Renata Szczepaniak, Johanna Flick, 2020-04-15 This volume focuses on the grammaticalization of the definite article in German It contains eight empirically based papers which examine individual stages of the grammaticalization path from its beginnings as a demonstrative to the definite article and beyond Focusing on cognitive pragmatic semantic and syntactic factors the contributions not only address the development from pragmatic to semantic definiteness but also deal with functional and formal changes starting as soon as the linguistic unit has acquired the function of marking semantic definiteness Based on corpora spanning the entire history of the German language from Old High German 750 1050 to present day German the analyses challenge the traditional linear model of grammaticalization and provide alternative pathways What all the contributions have in common is the idea that the main grammaticalization path is accompanied or crossed by several side roads which lead to different destinations such as preposition article clitics generic usages or onymic articles

Shakespeare's Folly Sam Hall, 2016-06-23 This study contends that folly is of fundamental importance to the implicit philosophical vision of Shakespeare's drama The discourse of folly's wordplay jubilant ironies and vertiginous paradoxes furnish Shakespeare with a way of understanding that lays bare the hypocrisies and absurdities of the serious world Like Erasmus More and Montaigne before him Shakespeare employs folly as a mode of understanding that does not arrogantly insist upon the veracity of its own claims a fool's truth after all is spoken by a fool Yet as this study demonstrates Shakespearean folly is not the sole preserve of professional jesters and garrulous clowns for it is also apparent

on a thematic conceptual and formal level in virtually all of his plays Examining canonical histories comedies and tragedies this study is the first to either contextualize Shakespearean folly within European humanist thought or to argue that Shakespeare's philosophy of folly is part of a subterranean strand of Western philosophy which itself reflects upon the folly of the wise This strand runs from the philosopher fool Socrates through to Montaigne and on to Nietzsche but finds its most sustained expression in the Critical Theory of the mid to late twentieth century when the self destructive potential latent in rationality became an historical reality This book makes a substantial contribution to the fields of Shakespeare Renaissance humanism Critical Theory and Literature and Philosophy It illustrates moreover how rediscovering the philosophical potential of folly may enable us to resist the growing dominance of instrumental thought in the cultural sphere **Public Drinking**
