Ekonomika Chelovek I Gosudarstvo:

Industrial Power and the Soviet State Stephen Whitefield, 1993 This book analyses the relationship between economic power and political authority in the Soviet system In it Stephen Whitefield takes issue with those who think that communist politicians successfully dominated the economy and society He argues on the contrary that politicians efforts to build authority in the industrial sector were a key source of political instability and that perestroika was the last in a series of failed attempts by Soviet leaders to gain control of the behaviour of the institutions they themselves had created In an administered economy industrial organization is vitally important in structuring the interests and behaviour of social groups The dilemma for Soviet politicians was that their attempts to build authority over industrial actors destabilized society and ultimately resulted in the collapse of the Soviet state itself But industrial power has outlived the Soviet Union and this book concludes by showing how industry continues to exert a crucial influence on Russian government and society **Communist**

Planning versus Rationality János Mátyás Kovács, 2022-04-14 This volume examines concepts of central planning a cornerstone of political economy in Soviet type societies It revolves around the theory of optimal planning which promised a profound modernization of Stalinist style verbal planning Encouraged by cybernetic dreams in the 1950s and supporting the strategic goals of communist leaders in the Cold War optimal planners offered the ruling elites a panacea for the recurrent crises of the planned economy Simultaneously their planning projects conveyed the pride of rational management and scientific superiority over the West The authors trace the rise and fall of the research program in the communist era in eight countries of Eastern Europe including the Soviet Union and China describing why the mission of optimization was doomed to fail and why the failure was nevertheless very slow The theorists of optimal planning contributed to the rehabilitation of mathematical culture in economic research in the communist countries and thus to a neoclassical turn in economics all over the ex communist world However because they have not rejected optimal planning as computopia there is a large space left behind for future generations to experiment with Big Optimal Plans anew based at this time on artificial intelligence and machine learning The Environment And Marxism-leninism Joan Debardeleben, 2019-07-11 In the past two decades

environmental pollution and natural resource shortages have evoked increasing concern in the Soviet Union and Eastern Europe The emerging ecological crisis has challenged many common assumptions in the Soviet bloc as in the West This book provides for the first time a detailed and comprehensive analysis of the ecology debate in the USSR and its highly industrialized ally the German Democratic Republic GDR Based on a thorough examination of the Soviet and GDR sources Dr DeBardeleben explores the authorities attempts to explain the problem to their populations She also examines the viewpoints of scientists writers and scholars with special attention to economic dimensions of the ecology debate The study reveals the increasing sophistication of specialists in influencing public policy by adapting official values to support their positions Through comparison of the Soviet and East German cases the study clarifies the impact of natural resource endowment and

legitimacy dilemmas on treatment of the ecology issue The book demonstrates that Marxist Leninist values subtly affect Soviet and GDR responses but at the same time the environmental crisis is forcing a reevaluation of some aspects of Marxist Leninist theory and ideology itself Bibliographic Guide to Slavic Gale Group,2000-06-09 Национальные интересы: приоритеты и безопасность No 39 (324) 2015 ,2017-05-20 **Information Sources in Law** J.R. Winterton,Elizabeth M. Moys,2012-06-21 The aim of each volume of this series Guides to Information Sources is to reduce the time which needs to be spent on patient searching and to recommend the best starting point and sources most likely to yield the desired information The criteria for selection provide a way into a subject to those new to the field and assists in identifying major new or possibly unexplored sources to those who already have some acquaintance with it The series attempts to achieve evaluation through a careful selection of sources and through the comments provided on those sources **Islamism, Arab Spring, and the Future of Democracy** Leonid Grinin,Andrey Korotayev,Arno Tausch,2018-09-26 This book provides an in depth analysis of public opinion patterns among Muslims particularly in the Arab world On the basis of data from the World Values Survey the Arab Barometer Project and the Arab Opinion Index it compares the dynamics of Muslim opinion structures with global publics and arrives at social scientific predictions of value changes in the region Using country factor scores from a variety of surveys it also develops composite indices of support for democracy and a liberal society on a global level and in the Muslim world and analyzes a multivariate model of opinion structures in the Arab world based on over 40 variables from 12 countries in the Arab League and covering 67% of the total population of the Arab countries While being optimistic about the general long term trend towards democracy and the resilience of Arab and Muslim civil society to Islamism the book also highlights anti Semitic trends in the region and discusses them in the larger context of xenophobia in traditional societies In light of the current global confrontation with radical Islamism this book provides vital material for policy planners academics and think tanks alike Problems of Economic Transition ,2004-11 **Liberals under Autocracy** Anton A. Fedyashin,2012-06-19 With its rocky transition to democracy post Soviet Russia has made observers wonder whether a moderating liberalism could ever succeed in such a land of extremes But in Liberals under Autocracy Anton A Fedyashin looks back at the vibrant Russian liberalism that flourished in the country s late imperial era chronicling its contributions to the evolution of Russia s rich literary culture socioeconomic thinking and civil society For five decades prior to the revolutions of 1917 The Herald of Europe Vestnik Evropy was the flagship journal of Russian liberalism garnering a large readership The journal articulated a distinctively Russian liberal agenda one that encouraged social and economic modernization and civic participation through local self government units zemstvos that defended individual rights and interests especially those of the peasantry in the face of increasing industrialization Through the efforts of four men who turned The Herald into a cultural nexus in the imperial capital of St Petersburg the publication catalyzed the growing influence of journal culture and its formative effects on Russian politics and society Challenging deep seated assumptions

about Russia's intellectual history Fedyashin's work casts the country's nascent liberalism as a distinctly Russian blend of self governance populism and other national cultural traditions As such the book stands as a contribution to the growing literature on imperial Russia's nonrevolutionary intellectual movements that emphasized the role of local politics in both successful modernization and the evolution of civil society in an extraparliamentary environment

A Normal Totalitarian Society Vladimir Shlapentokh, 2017-07-05 Shlapentokh undertakes a dispassionate analysis of the ordinary functioning of the Soviet system from Stalin's death through the Soviet collapse and Russia's first post communist decade Without overlooking its repressive character he treats the USSR as a normal system that employed both socialist and nationalist ideologies for the purposes of technological and military modernization preservation of empire and expansion of its geopolitical power Foregoing the projection of Western norms and assumptions he seeks to achieve a clearer understanding of a civilization that has perplexed its critics and its champions alike

New Rich, New Poor, New Russia Bertram Silverman, Murray

Yanowitch,2016-07-08 Now expanded to cover the consequences of Russia's 1998 financial collapse this book focuses on the social consequences of a modern day great depression The text examines the unequal distribution of the costs and benefits of Russia's leap into capitalism The topics covered include the emergence of the new poor the recruitment of a business elite the changing social and economic status of women and the impact of marketization on employment The study draws on a range of statistics and survey research data to present a portrait of the lives and circumstances of contemporary Russians

The Politics of Developed Socialism Donald Kelley,1986-08-02 In his new study Kelley looks at the emergence of what Soviet theorists call a developed socialist society and at the recent political economic and social developments up to and including those of the early days of the Gorbachev administration that are contributing to this newest adaptation of Marxism Leninism His central premise is that the Soviet leadership having arrived at a turning point created by the impact of the scientific and technological revolution has recognized the inability of existing policies and institutions to meet the needs of a rapidly maturing system Kelley finds that both as a theoretical stage in the evolution toward communism and as a reflection of changes in Soviet society the concept of developed socialism presents a picture of political and social modernization that is in many ways the counterpart of the Western theory of post industrial society He also notes a new seemingly more flexible Soviet approach to ideology as such The Soviets he observes look upon the theory of developed socialism itself as being in an evolving state treating it as an open ended model of future economic and social transformation whose outlines are only gradually becoming discernable

Nested Identities Guntram Henrik Herb,David H. Kaplan,1999 This groundbreaking work explores the vital importance of territory and space to any genuine understanding of nationalism and identity Too often the contributors argue national identity is analyzed apart from the lands that are integral to its formation as territory is seen as a commodity to be brokered rather than as central to a group's self definition This volume combines theoretical insights with structured case studies on how national identity manifests itself in space and at different geographical scales
