construed to early modern culture and the impact of new forms of interpretation on the study of Renaissance plays theater and performance This special issue of Renaissance Drama on Italy in the Drama of Europe primarily builds on the groundwork laid by Louise George Clubb who showed that Italian drama was made in such a way as to facilitate its absorption and transformation into other traditions even when it was not explicitly cited or referenced Italy in the Drama of Europe takes up the reverberations of early modern Italian drama in the theaters of Spain England and France and in writings in Italian English Spanish French Hebrew Latin and German Its scope is an example of the continuing force of and interest in one of the most rewarding wide ranging and productive early modern aesthetic modes and a tribute to the scholarship of Louise George Clubb who among others recalled our attention to it *Teatro escogido de Dón Pedro Calderón de la Barca* Pedro Calderón de la Barca,1876

### **Teatro escogido de Pedro Calderon de la Barca**

Pedro Calderón de la Barca,1877    **Album calderoniano** ,1881    Teatro escogido de Don Pedro Calderon de la Barca Pedro Calderón de la Barca,1876    *Spanish Dramatists of the Golden Age* Mary Parker,1998-09-17 The Golden Age of Spanish drama extends from the close of the 15th century to the death of Calder n in 1681 During that time the humanists as dramatists followed Italy s artistic awakening direction and imitated Classical drama With originality and dreams of greatness they subverted the nature of tragedy modified the approach of Comedy and invented the New Play the Comedia Nueva In it the poet dramatists introduced important modificaitions of realism included imagined reality Christian symbolism and theatricality as artistic truth They elaborate all kinds of syntheses For this reason the Spanish Golden Age theater can be viewed as part of a tradition that includes the Greco Roman comedy and tragedy Christian tragedy and the authentic national literary and dramatic tendencies The entries in this reference book explore the fascinating history of the Golden Age of Spanish drama The volume begins with an introductory overview of the literary cultural and historical contexts that shaped dramatic writing of the period The book then presents alphabetically arranged essays for nineteen significant Spanish dramatists of the Golden Age Each essay is written by an expert contributor and includes biographical information an analysis and evaluation of major works a discussion of critical response to the plays and an extensive bibliography of primary and secondary sources The volume closes with a selected general bibliography of central critical studies of Golden Age Spanish drama

**The Autos Sacramentales of Sor Juana Inés de la Cruz** Alice Brooke,2018 Sor Juana Ines de la Cruz 1651 1695 was the most significant literary figure of the colonial period in Spanish America The autos sacramentales or Eucharistic plays are some of her least studied and most perplexing works While one of them El divino Narciso has received substantial scholarly attention the other two El cetro de Jose and El martir del Sacramento San Hermenegildo have been critically neglected in Sor Juana studies This study presents a full length analysis of all three plays along with their losas or the introductory pieces alongside which they were intended to be performed Furthermore the study seeks to place these works in their philosophical and cultural context by exploring their engagement both with orthodox Catholic sacramental

theology and the emergence of empiricism and the New Philosophy across the Hispanic world The three sections of this book each present significant new readings of the three plays The study of El divino Narciso employs a previously little known source to illuminate its Christological readings as well as Sor Juana's engagement with notions of wit and conceptism The analysis of El cetro de Jose explores her presentation of different approaches to perception to emphasise the importance of both the material and the transcendent to a holistic understanding of the Sacraments The final section on San Hermenegildo explores the influence on the play of the Christianised Stoicism of Justus Lipsius and demonstrates how Sor Juana used the work to attempt her most ambitious reconciliation of an empirical approach to natural philosophy and the material world with a Neostoic approach to Christian morality and orthodox Catholic sacramental theology

### **Calderon and the Baroque Tradition**

Kurt Levy,Jesús Ara,Gethin Hughes,2006-01-01 Calderón and the Baroque Tradition is the outcome of a

tricentennial commemoration of the seventeenth century Spanish poet and dramatist Pedro Calderón de la Barca and a tribute to a distinguished tradition in Calderonian studies at the University of Toronto A major dramatist of the Spanish Golden Age and a master of the auto sacramental genre Calderón produced some one hundred and twenty comedias and eighty autos during his rather colourful lifetime This volume assembles an impressive collection of essays relating the baroque artistic tradition to such aspects of Calderón's theatre as the use of music mythology costume and his distinctive dramatic technique It will be of interest and value both to students of Spanish drama and Hispanic life in general and to followers of Calderón in particular
