*Mutual Impressions* Ilan Stavans, 1999 It is commonly assumed that the United States and Latin America culturally so different move artistically to very different rhythms Also common is the assumption that with rare exception the literary figures on one side of the global North South divide have had little interest in the work of their counterparts With Mutual Impressions Ilan Stavans dispels these notions by showing how solid the bridges between writers and across borders have been at least since the early days of this century and how crucial they are likely to become as we enter the next millennium Divided into symmetrical halves South reading North and North reading South the book presents essays by leading novelists poets and other writers that focus on the work of another literary figure from across the divide Borges for example finds in Hawthorne the perfect precursor to his own interest in allegories Katherine Anne Porter examines Jos Joaqu n Fern ndez de Lizardi as a rascal whose picaresque views of life in *The Itching Parrot* served to launch the Latin American novel Cort zar s study of the plots and style of Poe shows an affinity that left an indelible mark on the Argentine s short fiction Susan Sontag views Machado de Assis as the ultimate mirror a proto postmodernist With other essays by Thomas Pynchon William H Gass John Updike Gabriel Garc a M rquez Alejo Carpentier John Barth Robert Coover Pedro Henr quez Ure a Grace Paley Juan Carlos Onetti and Mark Strand among others *Mutual Impressions* offers a remarkable view of the connections that comprise a literary tradition of the Americas It is a book that will surprise and enliven its readers as it informs and awakens in them a

Stabb, 2014-05-23 Political social and aesthetic change marked Latin American society in the years between 1960 and 1985 In this book Martin Stabb explores how these changes made their way into the essayistic writings of twenty six Spanish American intellectuals Stabb posits that dissent against ideology against simplistic notions of technological progress against urban values and even against the direct linear expository style of the essay itself characterizes the work of these contemporary essayists He draws his examples from major canonical figures including Paz Vargas Llosa Fuentes and Cortázar and from lesser known writers who merit a wider readership such as Monterroso Zaid Edwards and Ibarra Engoitia This exploration overturns many conventional assumptions about Latin American intellectuals and also highlights some of the other achievements of authors famous primarily for novels or short stories      **Dictionary of Mexican Literature** Eladio Cortés, 1992-11-24 This volume features approximately 600 entries that represent the major writers literary schools and cultural movements in the history of Mexican literature A collaborative effort by American Mexican and Hispanic scholars the text contains bibliographical biographical and critical material placing each work cited within its cultural and historical framework Intended to enrich the English speaking public's appreciation of the rich diversity of Mexican literature works are selected on the basis of their contribution toward an understanding of this unique artistry The dictionary contains entries keyed by author and works the length of each entry determined by the relative significance of the writer or movement being discussed Each biographical entry identifies the author's literary contribution by including facts about his or her life and works a chronological list of works a supplementary bibliography and when appropriate critical notes Authors are listed alphabetically and cross referenced both within the text and the index to facilitate easy access to information Selected bibliographical entries are also listed alphabetically by author and include both the original title and English translation publisher date and place of publication and number of pages

BOOK JACKET *The Dialectics of Our America* José David Saldívar, 1991-10-31 Joining the current debates in American literary history José David Saldívar offers a challenging new perspective on what constitutes not only the canon in American literature but also the notion of America itself His aim is the articulation of a fresh transgeographical conception of American culture one more responsive to the geographical ties and political crosscurrents of the hemisphere than to narrow national ideologies Saldívar pursues this goal through an array of oppositional critical and creative practices He analyzes a range of North American writers of color Rolando Hinojosa Gloria Anzaldá Arturo Islas Ntozake Shange and others and Latin American authors José Martí Roberto Fernández Retamar Gabriel García Márquez and others whose work forms a radical critique of the dominant culture its politics and its restrictive modes of expression By doing so Saldívar opens the traditional American canon to a dialog with other voices not just the voices of national minorities but those of regional cultures different from the prevalent anglocentric model *The Dialectics of Our America* in its project to expand the canon and define a pan American literary tradition will make a critical difference in ongoing attempts to reconceptualize American literary history
