Venus venerada Adrienne Laskier Martín, 2006 Probablemente la parcela literaria que acumula una mayor cantidad de malentendidos tropos e ideas recibidas sea la erótica Sólo en las últimas dos décadas en España y fuera de ella los estudiosos han dedicado su atención a este género que habitualmente incita miradas despectivas o rechazo total Pero aún se perciben contrastes entre cierto crítico y el justificado interés de los lectores

An Erotic Philology of Golden Age Spain Adrienne Laskier Martín, 2008 Early modern Spanish literature is remarkably rich in erotic texts that conventionally chaste critical traditions have willfully disregarded or repudiated as inferior or unworthy of study Nonetheless eroticism is a lightning rod for defining mentalities and social intellectual and literary history within the nascent field that the author calls erotic philology *An Erotic Philology of Golden Age Spain* takes sexuality and eroticism out of the historical closet placing them at the forefront of early modern humanistic studies By utilizing theories of deviance sexuality and gender the rhetoric of eroticism and textual criticism *An Erotic Philology of Golden Age Spain* historicizes and analyzes the particular ways in which classical Spanish writers assign symbolic meaning to non normative sexual practices and their practitioners It shows how prostitutes homosexuals transvestites women warriors and female tricksters were stigmatized and marginalized as part of an ordering principle in the law society and in literature It is against these sexual outlaws that early modern orthodoxy establishes and identifies itself during the Golden Age of Spanish letters These eroticized figures are recurring objects of contemplation and fascination for Spain's most canonical as well as lesser known writers of the period in a variety of poetic prose and dramatic genres They ultimately reveal attitudes towards sexual behavior that are far more complex than was

previously thought An Erotic Philology of Golden Age Spain thoughtfully anatomizes the interdisciplinary systems at the heart of the varied sexual behaviors depicted in early modern Spanish literature
