Emerging Market Democracies East Asia And Latin America:

Emerging Market Democracies Laurence Whitehead, 2003-05-22 The end of the Cold War the third wave of democratization and economic globalization have presented the newly industrialized countries of East Asia and the liberal democracies of Latin America with increasingly similar international opportunities and constraints During the 1980s Latin America made great strides in democratization while East Asia led the world in economic growth Are the two regions now converging toward a model that combines economic and political liberalization Many developments in both regions indicate that this is a serious possibility Although significant countertrends do exist there is now increased scope for mutual support and encouragement among aspiring democratic forces both within and between these two regions This book examines these interrelated issues paying special attention to the effects of the East Asian financial crisis of 1997-98 and its subsequent impact on Latin America Contributors Ananya Basu World Bank Francis Fukuyama School of Advanced International Studies Johns Hopkins University Stephan Haggard University of California San Diego Elizabeth M King World Bank Sanjay Marwah George Mason University Sylvia Maxfield Harvard University Eduardo Silva University of Missouri St Louis and University of Miami Gordon Redding University of Hong Kong Tun-jen Cheng College of William and Mary Yun-han Chu National Taiwan University Laurence Whitehead Oxford University

Interests and Stability or Ideologies and Order in Contemporary World Politics Fabio Fossati, 2017-05-11 Drawing upon extensive experience of both theoretical and empirical research according to the Italian school of Political Science this book provides a holistic assessment of contemporary world politics It begins by defining concepts such as world order before going on to classify foreign policies into four models of political cultures namely the interests intensive conservative the ideologies intensive liberal the leftist constructivist and the leftist Manichean The volume shows how multipolar and bipolar systems have remained relatively stable with each main power defending its own interests yet ultimately not promoting ideas and order Change periods however are instable Between 1915 and 1945 Nazi fascist and communist ideologies emerged but after Yalta the West did not effectively export market democracy and peace to the Third World After 1989 the ideas of liberalism in economic globalization and EU enlargement neo conservatism in the Iraq war and multi cultural leftism in pluri national conflict resolution processes began to be applied toward a near world order Since 2001 Islamic fundamentalism's threat has prevented both stability with the failure of the concert of powers of the 1990s and order with minimal improvements in democracy and peace Following the Arab Spring Obama has also abandoned interests intensive conservative diplomacy no longer supporting lesser evils personalistic or military regimes against absolute evils such as the Islamic State and waged only low intensity wars in Iraq Syria and Libya

Democratization and Authoritarianism in the Arab World Larry Diamond, Marc F. Plattner, 2014-04-01 Three years after the first mass protests of the Arab Spring senior scholars weigh in on how democracy is faring Beginning in December 2010 a series of uprisings swept the Arab world toppling four longtime leaders and creating an apparent political opening in

a region long impervious to the third wave of democratization Despite the initial euphoria the legacies of authoritarianism polarized societies politicized militaries state centric economies and pervasive clientelism have proven stubborn obstacles to the fashioning of new political and social contracts Meanwhile the strong electoral performance of political Islamists and the ensuing backlash in Egypt have rekindled arguments about the compatibility of democracy and political Islam Even though progress toward democracy has been halting at best the region s political environment today bears little resemblance to what it was before the uprisings In *Democratization and Authoritarianism in the Arab World* leading scholars address the questions posed by this period of historic change in the Middle East and North Africa This volume includes chapters examining several broad themes the region s shifting political culture the relationship between democracy and political Islam the legacy of authoritarian ruling arrangements the strengths and vulnerabilities of remaining autocracies and the lessons learned from transitions to democracy in other parts of the world It also features chapters analyzing the political development of individual countries Algeria Bahrain Egypt Jordan Libya Morocco Saudi Arabia Syria Tunisia Yemen and the monarchies of the Gulf Contributors Hicham Ben Abdallah El Alaoui April Longley Alley Zoltan Barany Ahmed Benchemsi Mieczysław P Boduszyński Nathan J Brown Jason Brownlee Daniel Brumberg John M Carey Michele Dunne Abdou Filali Ansary Hillel Fradkin F Gregory Gause III Husain Haqqani Steven Heydemann Philip N Howard Muzammil M Hussain Amaney Jamal Stéphane Lacroix Juan J Linz Tarek Masoud Marc F Plattner Tarek Radwan Hamadi Redissi Andrew Reynolds Michael Robbins Olivier Roy Peter J Schraeder Alfred Stepan Mark Tessler Frédéric Volpi Lucan Way Frederic Wehrey Sean L Yom

Assessing the Quality of Democracy Larry Diamond, Leonardo Morlino, 2005-11-25 Publisher description

World Religions and Democracy Larry Diamond, Marc F. Plattner, Philip J. Costopoulos, 2005-03-02 Can religion be compatible with liberal democracy *World Religions and Democracy* brings together insights from renowned

scholars and world leaders in a provocative and timely discussion of religion's role in the success or failure of democracy. An essay by Alfred Stepan outlines the concept of twin tolerations and differentiation and creates a template that can be applied to all of the religion-democracy relationships observed and analyzed throughout the volume. Twin tolerations means that there is a clear distinction and a mutual respect between political authorities and religious leaders and bodies. When true differentiation is accomplished, the religious sector enjoys freedom of activity and the ability to peacefully influence its members but does not wield direct political power. A country's ability to implement the principle of differentiation directly affects the successful development of democracy. Part two focuses on eastern religions: Confucianism, Hinduism, and Buddhism and includes contributions from Nobel Prize winner Aung San Suu Kyi and His Holiness the Dalai Lama. The third part addresses democracy in relationship to Judaism and the three branches of Christianity: Catholicism, Protestantism, and Eastern Orthodoxy. Sociologist Peter Berger offers a global perspective of Christianity and democracy. The volume's final section discusses what is perhaps the most challenging example of the struggling relationship between religion and democracy today: Islam and the governments of the Muslim nations. Abdou Filali-Ansary, Bernard Lewis, and others present a comprehensive exploration of Muslim thought and faith in an increasingly secular, modern world. It is in this volatile political and religious climate that solutions are most urgently needed but also most elusive.

Contributors: Alfred Stepan, Haim Chaibong, Francis Fukuyama, Pratap Mehta, His Holiness the Dalai Lama, Aung San Suu Kyi, Hillel Fradkin, Daniel Philpott, Tim Shah, Robert Woodberry, Elizabeth Prodromou, Peter Berger, Abdou Filali-Ansary, Bernard Lewis, Robin Wright, Abdelwahab El Affendi, Radwan A. Electoral Systems and Democracy Larry Diamond, Marc F. Plattner, 2006-09. As the number of democracies has increased around the world, a heated debate has emerged among political scientists about which system best promotes the consolidation of democracy. This book compares the experiences of diverse countries from Latin America to southern Africa, from Uruguay, Japan, and Taiwan to Israel, Afghanistan, and Iraq.

Poverty, Inequality, and Democracy Francis Fukuyama, Larry Diamond, Marc F. Plattner, 2012-03. The rise of populism in new democracies, especially in Latin America, has brought renewed urgency to the question of how liberal democracy deals with issues of poverty and inequality. Citizens who feel that democracy failed to improve their economic condition are often vulnerable to the appeal of political leaders with authoritarian tendencies. To counteract this trend, liberal democracies must establish policies that will reduce socioeconomic disparities without violating liberal principles, interfering with economic growth, or ignoring the consensus of the people.

Poverty, Inequality, and Democracy addresses the complicated philosophical and moral issues surrounding the distribution of economic goods in free societies, as well as the empirical relationships between democratization and trends in poverty and inequality. This volume also discusses the variety of welfare state policies that have been adopted in different regions of the world. The book's

distinguished group of contributors provides a succinct synthesis of the scholarship on this topic. They address such broad issues as whether democracy promotes inequality, the socioeconomic factors that drive democratic failure, and the basic choices that societies must make as they decide how to deal with inequality. Chapters focus on particular regions or countries, examining how problems of poverty and inequality have been handled or mishandled by newer democracies in Latin America, Eastern Europe, Africa, and Asia. *Poverty, Inequality, and Democracy* will prove vital reading for all students of world politics, political economy, and democracy's global prospects. Contributors: Dan Banik, Nancy Bermeo, Dorothee Bohle, Nathan Converse, Alberto Diaz Cayeros, Francis Fukuyama, Bela Greskovits, Stephan Haggard, Ethan B. Kapstein, Robert R. Kaufman, Taekyoon Kim, Huck Ju Kwon, Jooha Lee, Peter Lewis, Beatriz Magaloni, Mitchell A. Orenstein, Marc F. Plattner, Charles Simkins, Alejandro Toledo, Ilcheong Yi. Debates on Democratization Larry Diamond, Marc F. Plattner, Philip J. Costopoulos, 2010-09-15. If democracy means anything, it means robust debates. Over the years, the pages of the *Journal* have certainly seen their share of lively and illuminating scholarly disagreements. As a service to students and teachers who wish to deepen their understanding of the questions and controversies that surround contemporary democratization, the *Journal* has now brought together a series of exchanges on the topic. **From Revolution to Reform** He Li, 2004. In *From Revolution to Reform*, He Li examines political and economic transformation in China and Mexico from the Mexican and Chinese revolutions at the beginning of the 20th century to economic reforms and political liberalization in recent decades. Li also explores lessons that other developing countries could learn from the experiences of China and Mexico. **Emerging Markets** Vito Bobek, Chee-Heong Quah, 2021-07-07. The rapid growth and development of emerging economies offer both opportunities and threats for international businesses. Understanding the economic development of emerging markets combined with a knowledge of the increasingly complex international business market enables better exploitation of opportunities in increasingly competitive world markets. The BRIC countries, the most prominent emerging markets, have long been discovered by foreign firms due to their enormous potential for investment opportunities. This book offers a comprehensive look at emerging markets, especially as they integrate with the global economy. It offers a conceptual framework to analyze emerging markets from multiple perspectives, including those of indigenous entrepreneurs struggling to overcome constraints to build world-class businesses, multinationals from developed countries tapping into emerging markets for their next growth spurt, and domestic and foreign investors seeking to profit from investment opportunities in emerging markets. Challenging Neoliberalism in Latin America Eduardo Silva, 2009-08-31. At the turn of the twentieth century, a concatenation of diverse social movements arose unexpectedly in Latin America, culminating in massive anti-free market demonstrations. These events ushered in governments in Argentina, Bolivia, Ecuador, and Venezuela that advocated socialization and planning, challenging the consensus over neoliberal hegemony and the weakness of movements to oppose it. Eduardo Silva offers the first comprehensive comparative account of these extraordinary events, arguing that the shift was

influenced by favorable political associational space a reformist orientation to demands economic crisis and mechanisms that facilitated horizontal linkages among a wide variety of social movement organizations His analysis applies Karl Polanyi's theory of the double movement of market society to these events predicting the dawning of an era more supportive of government intervention in the economy and society

Liberation Technology Larry Diamond, Marc F.

Plattner, 2012-07-30 Liberation Technology brings together cutting edge scholarship from scholars and practitioners at the forefront of this burgeoning field of study An introductory section defines the debate with a foundational piece on liberation technology and is then followed by essays discussing the popular dichotomy of liberation versus control with regard to the Internet and the sociopolitical dimensions of such controls Additional chapters delve into the cases of individual countries China Egypt Iran and Tunisia

Democratization Laurence Whitehead, 2002-07-04 Democratization has swept the globe over the past generation and analysts and policy makers have been struggling to keep up Bookshelves have been filled with case studies and assessments of this kaleidoscope of experiences and a related scholarly community has developed seeking to systematize all this material in accordance with well defined schemas and causal models But experience keeps wrong footing the country analysts so in this fresh interpretation the author goes back to foundational issues He argues that democratization is best understood as a complex long term dynamic and open ended process extending over generations Standard models of causal explanation need to be supplemented by more interpretative approaches Basic questions of citizen security the nature of public accountability

and the role of money as a source of political power need reconsideration The delicate balance between monetary authority and democratic consent is also examined in the light of the financial crises that have afflicted so many new democracies This book proposes a range of new perspectives on the complex linkages between democratization and state formation on the logic of paired comparisons and comparisons between large regions of the world and on the relationship between democratic ideals and really existing democratic outcomes It aims to equip those caught up in democratization and democracy promotion with a more realistic understanding of the tensions and turbulence involved
